In this comprehensive look at North American economic history Marc Egnal argues that culture and institutions play an integral role in determining economic outcome He focuses his examination on the eight colonies of the North five colonies of the South which together made up the original thirteen states and French Canada Using census data diaries travelers accounts and current scholarship Egnal systematically explores how institutions such as slavery in the South and the seigneurial system in French Canada and cultural arenas such as religion literacy entrepreneurial spirit and intellectual activity influenced development He seeks to answer why three societies with similar standards of living in 1750 became so dissimilar in development By the mid nineteenth century the northern states had surged ahead in growth and this gap continued to widen into the twentieth century Egnal argues that culture and institutions allowed this growth in the North not resources or government policies Both the South and French Canada stressed hierarchy and social order more than the drive for wealth Rarely have such parallels been drawn between these two societies Complete numerous helpful appendices figures tables and maps *Divergent Paths* is a rich source of unique perspectives on economic development with strong implications for emerging societies

Racial Dynamics in Early Twentieth-Century Austin, Texas Jason McDonald, 2012-06-14 This pioneering study sheds new light on racial dynamics in the urban Southwest at a critical juncture in the history of the region and the nation It focuses upon the experiences of ethnoracial minorities particularly African Americans and Mexican immigrants in Austin Texas from the dawn of the Progressive Era to the onset of the Great Depression Through this lens McDonald explores the issues of migration proletarianization marginalization adaptation identity and community He reveals

how in response to the exponential growth of the local ethnic Mexican population the white elite of the Lone Star State's capital adapted the city's bipartite system of segregation which had traditionally separated blacks from whites to incorporate Mexicans as a third and separate element neither black nor white As well as examining how African Americans and Mexican Americans responded to life in a racially stratified society McDonald examines the often fraught relationship between these groups *Left Out* Judith Stepan-Norris, Maurice Zeitlin, 2003 From the late 1930s through the mid 1950s the Congress of Industrial Organizations CIO brought together America's working men and women under a united class banner Of the 38 CIO unions 18 were left wing or Communist dominated Yet the political struggle between the CIO's Communist dominated and right leaning unions was immensely divisive and self destructive How did the Communists win hold and wield power in the CIO unions Did they subordinate the needs of workers to those of the Soviet regime The authors of this book first published in 2002 provide testable answers to these questions with historically specific quantitative analyses of data on the CIO's origins internal struggles and political relations They find that among the CIO unions the Communists were more egalitarian the most progressive on class race and gender issues and leading fighters in struggles to enlarge the freedom and enhance the human dignity of America's workers Grant, Lincoln and the Freedmen John David Smith, Micheal J. Larson, 2023-08-18 In 1863 General Ulysses S Grant appointed one of his regimental chaplains John Eaton of Ohio as general superintendent of contrabands for the Department of the Tennessee As the American Civil War raged the former chaplain's approach to humanitarian aid and education for the newly freed people marked one of the first attempts to consider how an entire population of formerly enslaved people would be assimilated into and become citizens of the postwar Union General superintendent Eaton chronicled these pioneering efforts in his 1907 memoir *Grant Lincoln and the Freedmen* Reminiscences of the Civil War a work that for more than a century has been an invaluable primary source for historians of the Civil War era In this long awaited scholarly edition editors John David Smith and Micheal J Larson provide a detailed introduction and chapter by chapter annotations to highlight the lasting significance of Eaton's narrative These robust supplements to the 1907 volume contextualize important events unpack the complexities of inter agency relationships during the war and postwar periods and present Eaton's view that the military should determine how best to assimilate the freed people into the reunited Union *Grant Lincoln and the Freedmen* presents a firsthand account of the challenges Grant Lincoln and Eaton himself faced in serving and organizing the integration of the newly freed people This heavily annotated reprint reminds us just how important Eaton's recollections remain to the historiography of the emancipation process and the Civil War era *Becoming Free in the Cotton South* Susan Eva O'Donovan, 2010-04-10 *Becoming Free in the Cotton South* challenges our most basic ideas about slavery and freedom in America Instead of seeing emancipation as the beginning or the ending of the story as most histories do Susan Eva O'Donovan explores the perilous transition between these two conditions offering a unique vision of both the enormous changes and the profound continuities in black life before and after

the Civil War This boldly argued work focuses on a small place the southwest corner of Georgia in order to explicate a big question how did black men and black women s experiences in slavery shape their lives in freedom The reality of slavery s demise is harsh in this land where cotton was king the promise of Reconstruction passed quickly even as radicalism crested and swept the rest of the South Ultimately the lives former slaves made for themselves were conditioned and often constrained by what they had endured in bondage O Donovan s significant scholarship does not diminish the heroic efforts of black Americans to make their world anew rather it offers troubling but necessary insight into the astounding challenges they faced *Becoming Free in the Cotton South* is a moving and intimate narrative drawing upon a multiplicity of sources and individual stories to provide new understanding of the forces that shaped both slavery and freedom and of the generation of African Americans who tackled the passage that lay between

One Kind of Freedom Roger L. Ransom,Richard Sutch,2001-07-16 This edition of the economic history classic *One Kind of Freedom* reprints the entire text of the first edition together with an introduction by the authors and an extensive bibliography of works in Southern history published since the appearance of the first edition The book examines the economic institutions that replaced slavery and the conditions under which ex slaves were allowed to enter the economic life of the United States following the Civil War The authors contend that although the kind of freedom permitted to black Americans allowed substantial increases in their economic welfare it effectively curtailed further black advancement and retarded Southern economic development Quantitative data are used to describe the historical setting but also shape the authors economic analysis and test the appropriateness of their interpretations Ransom and Sutch s revised findings enrich the picture of the era and offer directions for future research

Building the Black City Joe William Trotter Jr.,2024-10-29 A new way of seeing Black history the sweeping story of how American cities as we know them developed from the vision aspirations and actions of the Black poor *Building the Black City* shows how African Americans built and rebuilt thriving cities for themselves even as their unpaid and underpaid labor enriched the nation s economic political and cultural

elites Covering an incredible range of cities from the North to the South the East to the West Joe William Trotter Jr traces the growth of Black cities and political power from the preindustrial era to the present Trotter defines the Black city as a complicated socioeconomic spiritual political and spatial process unfolding time and again as Black communities carved out urban space against the violent backdrop of recurring assaults on their civil and human rights including the right to the city As we illuminate the destructive depths of racial capitalism and how Black people have shaped American culture politics and democracy Building the Black City reminds us that the case for reparations must also include a profound appreciation for the creativity and productivity of African Americans on their own behalf Cities covered Charleston Savannah New Orleans Washington D C Baltimore Richmond Birmingham Durham Atlanta Houston Miami Tulsa early New York New Amsterdam Philadelphia Boston Chicago Detroit Milwaukee Cleveland Cincinnati Pittsburgh San Francisco Bay Area Los Angeles and Seattle

No Mercy Here Sarah Haley, 2016-02-17 In the late nineteenth and early twentieth centuries imprisoned black women faced wrenching forms of gendered racial terror and heinous structures of economic exploitation Subjugated as convict laborers and forced to serve additional time as domestic workers before they were allowed their freedom black women faced a pitiless system of violence terror and debasement Drawing upon black feminist criticism and a diverse array of archival materials Sarah Haley uncovers imprisoned women's brutalization in local county and state convict labor systems while also illuminating the prisoners acts of resistance and sabotage challenging ideologies of racial capitalism and patriarchy and offering alternative conceptions of social and political life A landmark history of black women's imprisonment in the South this book recovers stories of the captivity and punishment of black women to demonstrate how the system of incarceration was crucial to organizing the logics of gender and race and constructing Jim Crow modernity

Money over Mastery, Family over Freedom Calvin Schermerhorn, 2011-06-15 Elegantly argued convincingly shows the centrality of enslaved men and women to the transformation of the coastal upper South's commercial life The Journal of Southern History Once a sleepy plantation society the region from the Chesapeake Bay to coastal North Carolina modernized and diversified its economy in the years before the Civil War Central to this industrializing process was slave labor Money over Mastery Family over Freedom tells the story of how slaves seized opportunities in these conditions to protect their family members from the auction block Calvin Schermerhorn argues that the African American family provided the key to economic growth in the antebellum Chesapeake To maximize profits in the burgeoning regional industries slaveholders needed to employ or hire out a healthy supply of strong slaves which tended to scatter family members From each generation they also selected the young fit and fertile for sale or removal to the cotton South Conscious of this pattern the enslaved were sometimes able to negotiate mutually beneficial labor terms to save their families despite that new economy Money over Mastery Family over Freedom proposes a new way of understanding the role of American slaves in the antebellum marketplace Rather than work against it as one might suppose enslaved people engaged with the market somewhat as did free Americans Slaves focused

their energy and attention however not on making money as slaveholders increasingly did but on keeping their kin out of the human coffles of the slave trade Displays exhaustive research a well crafted argument and is a valuable addition to antebellum slave historiography H CivWar H Net Reviews Carpet Capital Randall L. Patton,2003-12-01 After World War II the carpet industry came to be identified with the Dalton region of northwest Georgia Here entrepreneurs hit upon a new technology called tufting which enabled them to take control of this important segment of America s textile industry previously dominated by woven wool carpet manufacturers in the Northeast Dalton now dominates carpet production in the United States manufacturing 70 percent of the domestic product and prides itself as the carpet capital of the world Carpet Capital is a story of revolutionary changes that transformed both an industry and a region Its balanced and candid account details the rise of a home grown southern industry and entrepreneurial capitalism at a time when other southern state and local governments sought to attract capital and technology from outside the region The book summarizes the development of the American carpet industry from the early nineteenth century through the 1930s In describing the tufted carpet boom it focuses on Barwick Mills Galaxy Mills and Shaw Industries as representative of various phases in the industry s history It tells how owners coordinated efforts to keep carpet mills unorganized despite efforts of the Textile Workers Union of America by promoting a vision of the future based on individual ambition rather than collective security Randall L Patton and David B Parker show that Dalton has evolved in much the same way as California s Silicon Valley experiencing both a rapid expansion of new firms started by entrepreneurs who had apprenticed in older firms and an air of cooperation both among owners and between mills and local government Their close examination of this industry provides important insights for scholars and business leaders alike enhancing our appreciation of entrepreneurial achievement and broadening our understanding of economic growth in the modern South *The African American Experience* Arvarh E. Strickland,Robert E. Weems Jr.,2000-11-30 Compared to the early decades of the 20th century when scholarly writing on African Americans was limited to a few titles on slavery Reconstruction and African American migration the last thirty years have witnessed an explosion of works on the African American experience With the Civil Rights and Black Power movements of the 1960s came an increasing demand for the study and teaching of African American history followed by the publication of increasing numbers of titles on African American life and history This volume provides a comprehensive bibliographical and analytical guide to this growing body of literature as well as an analysis of how the study of African Americans has changed
