Race For Sanctions:

Race for Sanctions Francis Njubi Nesbitt, 2004-05-11 An important contribution to the political history of this period and a must for those interested in the influence of the great pan Africanists Elliott P Skinner This study traces the evolution of the anti apartheid movement from its origins in the 1940s through the civil rights and black power eras to its maturation in the 1980s as a force that transformed U S foreign policy The movement initially met resistance and was soon repressed only to reemerge during the civil rights era when it became radicalized with the coming of the black freedom movement The book looks at three important political groups TransAfrica the black lobby for Africa and the Caribbean the Free South Africa Movement and lastly the Congressional Black Caucus and its role in passing sanctions against South Africa over President Reagan s veto It concludes with an assessment of the impact of sanctions on the release of Nelson Mandela and his eventual election as president of South Africa

Race and US Foreign Policy Mark Ledwidge, 2012-02-06 African Americans analysis of and interest in foreign affairs represents a rich and dynamic legacy and this work provides a cutting edge insight into this neglected aspect of US foreign affairs In addition to extending the parameters of US foreign policy literature to include race and ethnicity the book documents case specific analyses of the evolutionary development of the African American foreign affairs network AAFAN Whilst the examination of race in regard to the construction of US foreign policy is significant this book also provides a cross disciplinary approach which utilises historical and political science methods to paint a more realistic appraisal of US foreign policy Including analysis of original archival evidence this theoretically informed work seeks to transcend the standard mono disciplinary approach which overestimates the separation between domestic and foreign affairs The unique approach of this work will add an important dimension to a newly emerging field and will be of interest to scholars in ethnic and racial studies American politics US foreign policy and US history

Between Homeland and Motherland Alvin B. Tillery, Jr., 2011-03-15 In *Between Homeland and Motherland* Alvin B Tillery Jr considers the history of political engagement with Africa on the part of African Americans beginning with the birth of Paul Cuffe s back to Africa movement in the Federal Period to the Congressional Black Caucus struggle to reach consensus on the African Growth and Opportunity Act of 2000 In contrast to the prevailing view that pan Africanism has been the dominant ideology guiding black leaders in formulating foreign policy positions toward Africa Tillery highlights the importance of domestic politics and factors within the African American community Employing an innovative multimethod approach that combines archival research statistical modeling and interviews Tillery argues that among African American elites activists intellectuals and politicians factors internal to the community played a large role in shaping their approach to African issues and that shaping U S policy toward Africa was often secondary to winning political battles in the domestic arena At the same time Africa and its interests were important to America s black elite and Tillery s analysis reveals that many black leaders have strong attachments to the motherland Spanning two centuries of African American engagement with Africa this book

Israel, Palestine and the Politics of Race Yasmeen Abu-Laban, Abigail B. Bakan, 2019-10-31 As the situation in Israel/Palestine seems to become ever more intractable and protracted, the need for new ways of looking at recent developments and their historical roots is more pressing than ever. Bearing this in mind, Yasmeen Abu-Laban and Abigail B. Bakan discuss the historic and contemporary dynamics in Israel/Palestine and their international reverberations from the unique vantage point of race, racialization, racism, and anti-racism. They therefore offer close analysis of the idea of Israel and the absence of Palestine by examining the concepts of race and identity in the region. With fresh coverage of themes relating to gender, identity, the environment, surveillance, and the war on terror, *Israel, Palestine and the Politics of Race* will appeal to scholars in political science, sociology, and Middle East studies.

Ethnicity, Race and the Prisoner Community Helena Huhta, 2024-11-22 This book draws on an in-depth ethnographic study to explore the meanings and consequences of race and ethnicity in daily life within two Finnish male prisons. Set within the context of Finnish immigration, it provides an excellent backdrop for studying social processes in the prison environment, launched by a rapid growth in the number of foreign national prisoners. It builds on the sociological attempts to comprehend the nature of the prisoner community from the perspective of ethnicity and race, which has gained attention since the 2000s. It explores how ethnic categories are formed in the prison space, prisoner hierarchy, and its logics, conflicts, and conflict-solving, discrimination, and prison officers' development of distinctive prisoner cultures. The study captures the consequences that signifying ethnicity and race have on daily practices, equality, and safety in prison. This book shows how ethnic and racial categories are formed in social action and further how their meanings are in a constant process of change.

Race, Rights, and the Asian American Experience Angelo N. Ancheta, 2006-11-16 In *Race Rights and the Asian American Experience*, Angelo N. Ancheta demonstrates how United States civil rights laws have been framed by a black/white model of race that typically ignores the experiences of other groups, including Asian Americans. When racial discourse is limited to antagonisms between black and white, Asian Americans often find themselves in a racial limbo, marginalized or unrecognized as full participants. Ancheta examines legal and social theories of racial discrimination, ethnic differences in the Asian American population, nativism, citizenship, language, school desegregation, and affirmative action. In the revised edition of this influential book, Ancheta also covers post-9/11 anti-Asian sentiment and racial profiling. He analyzes recent legal cases involving political empowerment, language rights, human trafficking, immigrant rights, and affirmative action in higher education, many of which move the country farther away from the ideals of racial justice. On a more positive note, he reports on the progress Asian Americans have made in the corporate sector, politics, the military, entertainment, and academia. A skillful mixture of legal

theories court cases historical events and personal insights this revised edition brings fresh insights to U S civil rights from an Asian American perspective *Race, Gender, and Culture in International Relations* Randolph B.
