Intersectionality and Criminology Hillary Potter, 2015-05-15 The use of intersectionality theory in the social sciences has proliferated in the past several years putting forward the argument that the interconnected identities of individuals and the way these identities are perceived and responded to by others must be a necessary part of any analysis Fundamentally intersectionality claims that not only are people s lived experiences affected by their racial identity and by their gender identity but that these identities and others continually operate together and affect each other With official statistical data that indicate people of Color have higher offending and victimization rates than White people and with the overrepresentation of men and people of Color in the criminal legal system new theories are required that address these phenomena and that are devoid of stereotypical or debasing underpinnings Intersectionality and Criminology provides a comprehensive review of the need for and use of intersectionality in the study of crime criminality and the criminal legal system This is essential reading for

academics and students researching and studying in the fields of crime criminal justice theoretical criminology and gender race and socioeconomic class *Girls, Women, and Crime* Meda Chesney-Lind, Lisa Pasko, 2013 A compilation of journal articles on the female offender written by leading researchers in the field of criminology and women's studies Reveals the complex worlds females in the criminal justice system must often negotiate *Teaching Criminology at the Intersection* Rebecca M. Hayes, Kate Luther, Susan Caringella, 2014-08-21 Teaching about gender race social class and sexuality in criminal justice and criminology classrooms can be challenging Professors may face resistance when they ask students to examine how gender impacts victimization how race affects interactions with the police how socioeconomic status shapes experiences in court or how sexuality influences treatment in the criminal justice system Teaching Criminology at the Intersection is an instructional guide to support faculty as they navigate teaching these topics Bringing together the experience and knowledge of expert scholars this book provides time strapped academics with an accessible how to guide for the classroom where the dynamics and discrimination of gender race class and sexuality demographics intersect and permeate criminal justice concerns In the book the authors of each chapter discuss how they teach a particular contemporary criminal justice issue and provide their suggestions for best practice while grounding their ideas in pedagogical theory Chapters end with a toolkit of recommended activities assignments films readings or websites As a teaching handbook Teaching Criminology at the Intersection is appropriate reading for graduate level criminology criminal justice and women's and gender studies teaching instruction courses and as background reading and reference for instructors in these disciplines

Class, Race, Gender, and Crime Gregg Barak, Paul Leighton, Jeanne Flavin, 2007 Class Race Gender and Crime Social Realities of Justice in America examines how class race and gender affect crime and justice in contemporary American society To this end the authors provide a detailed and nuanced portrait of the multi layered social reality of crime incorporating useful historical and contemporary examples as they analyze the twin problems of crime production and crime control *Handbook of Race-Ethnicity and Gender in Psychology* Marie L. Miville, Angela D. Ferguson, 2014-02-06 Multicultural aspects of psychology have received some attention in the literature in the last decade A number of texts currently address these significant concerns for example Counseling the Culturally Different Sue Handbook of Multicultural Counseling Poterotto et al 2009 and Handbook of Multicultural Counseling Competencies Pope Davis Coleman 2005 In their most recent editions several of these books address more nuanced complexities of diversity for example the intersections of gender or social class with race ethnicity Meanwhile other texts have addressed gender issues in psychology Handbook of Counseling Women Counseling Men with some attention paid to racial ethnic and other diversity concerns Clearly the progression of scholarship in this field reflects the importance of incorporating multiple aspects of diversity within psychology However no book currently exists that fully addresses the complexities of race ethnicity and gender together Better understanding of the dual impact of race ethnicity and gender on psychological functioning may lead to more effective

conceptualizations of a number of mental health issues such as domestic violence addictions health related behaviors and achievement Exploring the impact of race ethnicity and gender also may provide a broader understanding of self in community as this affects individuals families and other social groups and work and career development Topics of interest may include identity development worldviews and belief systems parenting styles interventions for promoting resilience and persistence and strategies for enhancing more accurate diagnostic and treatment modalities Today s world is comprised of multiple and intersecting communities that remain in need of psychological models and interventions that support and promote both individual and collective mental health We believe that utilizing unidimensional conceptual models e g focusing solely on race ethnicity or gender no longer adequately addresses psychological concerns that are dynamic complex and multi faceted The proposed Handbook will focus on timely topics which historically have been under addressed for a number of diverse populations

Chronicles of a Radical Criminologist Gregg Barak, 2020-05-15 Over the past five decades prominent criminologist Gregg Barak has worked as an author editor and book review editor his large body of work has been grounded in traditional academic prose His new book *Chronicles of a Radical Criminologist* while remaining scholarly in its intent departs from the typical academic format The book is a first person account that examines the linkages between one scholar s experiences as a criminologist from the late 1960s to the present and the emergence and evolution of radical criminology as a challenge to developments in mainstream criminology Barak draws upon his own experiences over this half century as a window into the

various debates and issues among radical critical and technocratic criminologies In doing so he revisits his own seminal works showing how they reflect those periods of criminological development What holds this book together is the story of how resisting the crimes of the powerful while struggling locally for social justice is the essence of critical criminology His seven chapters are divided into three parts academic freedom academic activism and academic praxis and these connected stories link the author's own academic career in Berkeley California Las Vegas Nevada Chicago Alabama Ann Arbor Michigan and across the United States Barak's eventful scholarly life involved efforts to overcome laws against abortion and homosexuality to formalize protective practices for women from domestic violence and sexual assault to oppose racism and classism in the criminal justice system to challenge the wars on gangs drugs and immigrants and to confront the policies of mass incarceration and the treatment of juvenile offenders

Gender and Crime Sandra L. Browning, Leah C. Butler, Cheryl Lero Jonson, 2024-05-23 This volume takes stock of contemporary perspectives on gender and crime In 1975 Freda Adler published her pathbreaking book *Sisters in Crime: The Rise of the New Female Criminal* She made the bold claim that changes in American society including changing attitudes and opportunities would allow for greater participation of women in criminal enterprises Beyond her substantive thesis which turned out to be partially accurate Adler opened up a vibrant new area within criminology the study of gender and crime Now nearly a half century later the field of criminology is replete with women scholars who are making plentiful and important contributions As a result this volume explores cutting edge issues Part I starts by laying out a theoretical foundation focusing on the origins of theories of female criminality and then providing an overview of more contemporary perspectives Part II explores the role of race in shaping women's criminality drawing on the novel approaches of Black Criminology and the study of intersectionality Part III gives attention to issues that heretofore were male centric illuminating female desistance from crime the effects of peer groups and gender differences in attitudes toward criminal justice policies Finally Part IV considers the explanation of three important realms of criminality risky lifestyles white collar crime and terrorism This volume will be of interest to a wide range of criminologists and is an ideal choice for use in graduate seminars and upper level undergraduate courses

Feminist Theory, Crime, and Social Justice Alana Van Gundy, 2014-09-25 *Feminist Theory Crime and Social Justice* offers an insightful look at the primarily masculine driven perspective on crime and justice through the lens of feminist theory The book presents the argument that an increased understanding of the female crime typology life course and gender specific programming will improve social justice for offenders Discussions on the direct implications of the way society views crime and justice contribute to policy recommendations for helping to improve these views specifically as

they relate to female crime *The Oxford Handbook of Gender, Sex, and Crime* Rosemary Gartner,Bill McCarthy,2014-05-14 Research on gender sex and crime today remains focused on topics that have been a mainstay of the field for several decades but it has also recently expanded to include studies from a variety of disciplines a growing number of countries and on a wider range of crimes The Oxford Handbook of Gender Sex and Crime reflects this growing diversity and provides authoritative overviews of current research and theory on how gender and sex shape crime and criminal justice responses to it The editors Rosemary Gartner and Bill McCarthy have assembled a diverse cast of criminologists historians legal scholars psychologists and sociologists from a number of countries to discuss key concepts and debates central to the field The Handbook includes examinations of the historical and contemporary patterns of women s and men s involvement in crime as well as biological psychological and social science perspectives on gender sex and criminal activity Several essays discuss the ways in which sex and gender influence legal and popular reactions to crime An important theme throughout The Handbook is the intersection of sex and gender with ethnicity class age peer groups and community as influences on crime and justice Individual chapters investigate both conventional topics such as domestic abuse and sexual violence and topics that have only recently drawn the attention of scholars such as human trafficking honor killing gender violence during war state rape and genocide The Oxford Handbook of Gender Sex and Crime offers an unparalleled and comprehensive view of the connections among gender sex and crime in the United States and in many other countries Its insights illuminate both traditional areas of study in the field and pathways for developing cutting edge research questions Introduction to Criminology Pamela J. Schram,Joseph A. Schwartz,Stephen G. Tibbetts,2023-10-24 If you are considering a career in any aspect of criminal justice and you want to know more about the motivations and socio psychological makeup of serious offenders then this book is for you Introduction to Criminology Why Do They Do It applies the dominant theories in the existing criminological literature as to why people commit crimes In addition we examine many recent as well as many hypothetical examples of serious crimes and we demonstrate applications of theory as to why the offenders did what they did While other textbooks do a decent job in discussing the basic theories as well as exploring the various types of crime our book integrates various street crimes within each chapter and applies theories that are appropriate in explaining such criminal activity This is extremely important because most instructors never get to the latter typology chapters in a given semester or term So our approach is to incorporate them into the theoretical chapters in which they apply directly to the theories presented Our specific examples and true stories such as notable serial killings and other recent crimes in each chapter as well as our use of established theoretical models to explain the offenses is another primary distinction of this book Obviously this book is meant to be central to an introductory course in criminology but due to the emphasis on applied theoretical explanations it is also appropriate for higher level undergraduate and graduate courses in criminological theory or as a reference for anyone in the field of criminal justice In it we have integrated true crimes and some hypothetical

examples both on a general level such as in the Applying Crime to Theory sections and more specifically in the Why Do They Do It sections which often involve serial killings mass murderers or other notorious examples of offenders offending The subtitle of our book Why Do They Do It relates to our theme Our goal in writing this book was to apply established theories of crime which are often seen as abstract and hypothetical to real crimes that have occurred as well as to hypothetical ones that are quite likely to occur To this end we explore the various reasons for offending or the why they do it in various cases from the first documented serial killers in the United States the Harpe Brothers in the late 18th century to California cop killer spree killer Christopher Dorner in 2013 and then Payton S Gendron who massacred 10 Black shoppers at a grocery store in Buffalo New York in 2022 Importantly throughout these discussions of actual crimes we will apply theories As you will see some of the theories that applied to the earliest crimes seem to apply to the most modern crimes as well Unlike other authors in this field we chose not to include separate chapters on violent or property crimes because we have worked those into and applied them to the theories explored in each chapter We strongly believe that by integrating discussions of such serious crimes all crimes previously identified by the FBI as Index or Part I offenses including murder rape robbery aggravated assault burglary motor vehicle theft larceny and arson as well as other crimes such as simple assault and driving under the influence into the theoretical chapters provides the best exploration of why people commit such offenses And the flip side is good as well by discussing offenses together with theories we show you how to apply theories toward explaining other instances of criminal behavior Again this goes back to our theme of why do they do it It demonstrates our goal Apply the appropriate theories for the specific crime
