*Flak-Catchers* Lindsey Lupo,2010-12-02 *Flak Catchers* explores the ways in which riot commissions the institutional bodies appointed by an executive in the aftermath of a race riot to determine a riot timeline investigate causes and offer prescriptions for change have dealt with racial violence in the United States over the last century In studying five riots and their commissions Chicago 1919 Harlem 1935 Los Angeles 1965 USA 1967 and Los Angeles 1992 this book shows that riot commissions only serve to give the appearance of strong and responsive government action during uncertain times They primarily benefit the instituting body by focusing on a restoration of law and order while undermining any larger civil rights message However this book also challenges the prevalent idea that riot commissions are all the same by revealing how riot commissions have changed over the last century shifting in their prominence content and focus After the 1968 Kerner Commission which studied the 1967 summer riots it has become increasingly common for the riot commission to fail to answer fundamental questions posed by the crisis      *Foundations, US Foreign Policy and Anti-Racism in Brazil* Elizabeth Cancelli,Gustavo Mesquita,Wanderson Chaves,2023-02-10 This book connects the work of US private foundations the US government and Brazilian intellectuals to explore how they worked collaboratively to address racial disparities in Brazil during the Cold War It reveals not only how anti racism was promoted during this period shaping the political and academic agenda but also the importance of American foundations especially the Rockefeller and Ford Foundations in the process Drawing on a vast array of archival and published sources from Brazil the United States and around the world the book investigates the making of transnational connections and networks that sought to respond to the race problem seen as an increasingly dangerous threat to the liberal international order This book is especially relevant to the areas of Race Studies Social Sciences Latin American Studies Political Science and History particularly the History of Sociology and Anthropology as well as to studies about the role of American foundations in the Cold War period It will also be of interest to activists social scientists economists historians journalists NGOs and INGOs      *Divided Sovereignties* Rochelle Raineri Zuck,2016-08 In eighteenth and nineteenth century debates about the constructions of American nationhood and national citizenship the frequently invoked concept of divided sovereignty signified the division of power between state and federal authorities and or the possibility of one nation residing within the geopolitical boundaries of another Political and social realities of the

nineteenth century such as immigration slavery westward expansion Indigenous treaties and financial panics amplified anxieties about threats to national state sovereignty Rochelle Raineri Zuck argues that in the decades between the ratification of the Constitution and the publication of Sutton Griggs's novel *Imperium in Imperio* in 1899 four populations were most often referred to as racial and ethnic nations within the nation the Cherokees African Americans Irish Americans and Chinese immigrants Writers and orators from these groups engaged the concept of divided sovereignty to assert alternative visions of sovereignty and collective allegiance not just ethnic or racial identity to gain political traction and to complicate existing formations of nationhood and citizenship Their stories intersected with issues that dominated nineteenth century public argument and contributed to the Civil War In five chapters focused on these groups Zuck reveals how constructions of sovereignty shed light on a host of concerns including regional and sectional tensions territorial expansion and jurisdiction economic uncertainty racial ethnic and religious differences international relations immigration and arguments about personhood citizenship and nationhood

**"The Most Segregated City in America"** Charles E. Connerly, 2013-07-04 One of Planetizen's Top Ten Books of 2006 But for Birmingham Fred Shuttleworth recalled President John F Kennedy saying in June 1963 when he invited black leaders to meet with him we would not be here today Birmingham is well known for its civil rights history particularly for the violent white on black bombings that occurred there in the 1960s resulting in the city's nickname Bombingham What is less well known about Birmingham's racial history however is the extent to which early city planning decisions influenced and prompted the city's civil rights protests The first book length work to analyze this connection *The Most Segregated City in America City Planning and Civil Rights in Birmingham 1920-1980* uncovers the impact of Birmingham's urban planning decisions on its black communities and reveals how these decisions led directly to the civil rights movement Spanning over sixty years Charles E Connerly's study begins in the 1920s when Birmingham used urban planning as an excuse to implement racial zoning laws pointedly sidestepping the 1917 U S Supreme Court *Buchanan v Warley* decision that had struck down racial zoning The result of this obstruction was the South's longest standing racial zoning law which lasted from 1926 to 1951 when it was reddeclared unconstitutional by the U S Supreme Court Despite the fact that African Americans constituted at least 38 percent of Birmingham's residents they faced drastic limitations to their freedom to choose where to live When in the 1940s they rebelled by attempting to purchase homes in off limit areas their efforts were labeled as a challenge to city planning resulting in government and court interventions that became violent More than fifty bombings ensued between 1947 and 1966 becoming nationally publicized only in 1963 when four black girls were killed in the bombing of the Sixteenth Street Baptist Church Connerly effectively uses Birmingham's history as an example to argue the importance of recognizing the link that exists between city planning and civil rights His demonstration of how Birmingham's race based planning legacy led to the confrontations that culminated in the city's struggle for civil rights provides a fresh lens on the history and future of urban planning and its relation to race

Kingsley Kent, 2015-03-24 *Africans and Britons in the Age of Empires 1660 1980* tells the stories of the intertwined lives of African and British peoples over more than three centuries. In seven chapters and an epilogue Myles Osborne and Susan Kingsley Kent explore the characters that comprised the British presence in Africa: the slave traders and slaves, missionaries and explorers, imperialists and miners, farmers, settlers, lawyers, chiefs, prophets, intellectuals, politicians, and soldiers of all colors. The authors show that the oft-told narrative of a monolithic imperial power ruling inexorably over passive African victims no longer stands scrutiny; rather, at every turn Africans and Britons interacted with one another in a complex set of relationships that involved as much cooperation and negotiation as resistance and force, whether during the era of the slave trade, the world wars, or the period of decolonization. The British presence provoked a wide range of responses, reactions, and transformations in various aspects of African life, but at the same time the experience of empire in Africa and its ultimate collapse also compelled the British to view themselves and their empire in new ways. Written by an Africanist and a historian of imperial Britain and illustrated with maps and photographs, *Africans and Britons in the Age of Empires 1660 1980* provides a uniquely rich perspective for understanding both African and British history. **Subject Catalog** Library of Congress, 1981
