Race And Class The Dialectics Of Justice:

The Dialectics of Global Justice Bryant William Sculos, 2022-07-01 The Dialectics of Global Justice uses a novel application of negative dialectical interpretation to offer an immanent and ethical critique of prominent theories of global justice i.e. cosmopolitanism including how these theories manifest in political movements and policy agendas Drawing on the work of Theodor Adorno and Erich Fromm especially author Bryant William Sculos exposes the contradictory relationship between cosmopolitanism and core elements of capitalism particularly the domineering capitalistic mentality re produced by and through capitalism leading to the conclusion that cosmopolitanism on its own terms demands an alternative postcapitalistic political basis in order to make robust progress toward global justice While offering this critique Sculos also implicitly challenges the increasingly common view that cosmopolitanism today is inherently imperialistic and out of touch with the global resurgence of nationalism and anti cosmopolitan sentiment *Race, Crime, and Justice* Shaun

Black Women and The Criminal Justice System Biko Agozino, 2018-12-14 First published in 1997 this book identifies the problems that face black women in the criminal justice system as the result of the articulation of unequal and oppressive class race and gender relations the research aims to be aware of all three rather than prioritising isolating or reducing one or two of these relations The focus of this research primarily on black women is based on the belief that they are marginalised in both society and criminological research Black women are poorly represented in education employment the professions commerce industry and politics while in prison their presence is highly disproportionate to their wider numbers in society The author examines the problems facing black women and compares these with those facing black men and white women to demonstrate the articulation of social relations He addresses the structural positions of black women in society their social relations and the nature of the institutional practices of the criminal justice system Toward Racial Justice and a Third Reconstruction Bob Wing, 2018 This collection of his always

Postmodern Racial Dialectics Richard A. Jones, 2015-12-07 Postmodern Racial Dialectics is a collection of ten essays on African American philosophy Addressing issues as disparate as why there are no graduate programs in philosophy at the more than one hundred traditionally black colleges and universities in the U S to conceptions of Black utopianism to the nature of postmodern revolutions these essays are beyond the bounds of traditional racial discourse The essays are dialectical in the sense that they are conversations between personal histories between ideologies and between changing ways that the races talk to one another The book is postmodern in that it is beyond modernity's linear logic Postmodern Racial Dialectics is also a political entreaty for African Americans to be wary of conventional ways of thinking and to begin thinking transgressively beyond narrowly prescribed conceptions from both sides of the color line

Identity, Diversity and Teaching for Social Justice Juliet Perumal, 2007 In recent times educational reformers have proposed ways of using education to reduce inequality overcome discriminatory values and attitudes and alleviate social problems An increasing number of language theorists and practitioners contends that in order to reduce inequality it is essential to address the personal cultural and political implications of language teaching Awareness of these factors activate the need to gain deeper insight into the personal and professional nuances of teachers lives The gap between sociolinguistic theory and educational practice points to the fact that linguists and educationists themselves carry the prejudices of particular social ideological cultural and geographical backgrounds Who teaches what to whom why and how affects curricular decisions which can thus become fraught with political allegiances in this way the non neutrality of language pedagogy is confirmed Drawing from a suite of data sources the book explores the following questions Do teachers autobiographical experiences shape their professional identities Does subscription to counter hegemonic ideologies impact teachers personal and professional positionality and authority What contributions can feminist theorising make to language teaching in socially diverse classrooms Through an exploration of these questions the book gestures towards an imperative to re think educative and pedagogic relationships and the politics of difference and dialogue in demographically diverse classrooms that subscribe to social redress agendas

Pedagogies of Difference Peter Pericles Trifonas, 2003-12-16 Peter Pericles Trifonas has assembled internationally acclaimed theorists and educational practitioners whose essays explore various constructions representations and uses of difference in educational contexts These essays strive to bridge competing discourses of difference for instance feminist or anti racist pedagogical models to create a more inclusive education that adheres to principles of equity and social justice

Multiculturalism, Dialectical Thought, and Social Justice Pedagogy Daniel Ian Rubin, 2017-02-01 This monograph lays out a qualitative collective case study designed to assess how

students in a secondary Latina Latino Literature class began to think dialectically about issues of social justice By using various methods of data collection I ascertained how the students thoughts and perceptions of Latinas Latinos in this country changed over the course of the study I introduced the students to both print and nonprint texts e g news articles documentary films which when presented through Karl Marx s dialectical method helped them see social justice issues such as racism poverty and subjugation more clearly and critically After analysis several important themes emerged from the data stereotyping and invisibility in the media immigration the notion of power racism and discrimination education anger and frustration and questioning By the end of the Latina Latino Literature class all of the students in the study were able to identify particular social justice issues explain the historical context which framed the current debates e g immigration reform and articulate their opinions of the issues Each student participant started to use social justice terminology which I introduced and used frequently in class e g equity and these words became a part of the students everyday vocabularies Furthermore by the completion of the class the student participants began to realize that they had their own individual voices and could help transform societal issues in order to make the United States more equitable for all **King and the Other**

America Sylvie Laurent,2019-01-08 An elegant and timely history of how black intellectuals have long made a case for the intersections between class and race The Nation A meticulously researched look into the development of King s thought Laurent s important new book highlights the depth of the wisdom and organizing skill he brought to the movement for economic justice The Progressive Shortly before his assassination Martin Luther King Jr called for a radical redistribution of economic and political power to transform the whole of society In 1967 he envisioned and designed the Poor People s Campaign an interracial effort that was carried out after his death This campaign brought together impoverished Americans of all races to demand better wages better jobs better homes and better education King and the Other America explores this overlooked and obscured episode of the late civil rights movement deepening our understanding of King s commitment to social justice and also of the long term trajectory of the civil rights movement Digging into earlier radical arguments about economic inequality across America which King drew on throughout his entire political and religious life Sylvie Laurent argues that the Poor People s Campaign was the logical culmination of King s influences and ideas which have had lasting impact on young activists and the public Fifty years later growing inequality and grinding poverty in the United States have spurred new efforts to rejuvenate the campaign This book draws the connections between King s perceptive thoughts on substantive justice and the ongoing quest for equality for all Responding to the Call for Educational Justice L.
