Race And Reich The Story Of An Epoch:

Race and Reich. The Story of an Epoch Joseph TENENBAUM,1956 **Eichmann And The Destruction Of Hungarian Jewry** Randolph L. Braham,2015-11-06 The capture of Adolf Eichmann and the subsequent dispute between Israel and Argentina before the Security Council of the United Nations have aroused new interest in the history of Nazi Germany in general and of its anti Jewish policies in particular This interest gained momentum as the preparations for Eichmann s trial progressed The 15 years that have elapsed since the end of World War II have brought to light a plethora of new material and made possible a more objective evaluation of the Nazi design to liquidate the Jews of Europe euphemistically referred to as the final solution of the Jewish question This study has a modest aim Its primary purpose is to present a succinct though informative account of the destruction of the Hungarian Jewish community during World War II with special emphasis on the role of Eichmann and his collaborators Its scope and coverage are limited for indeed volumes would be required to write the definitive history of Hungarian Jewry during the Nazi era on the basis of the recently discovered documentary and archival material alone Such a larger project is now under consideration Preface **From Left to Right** Nancy Sinkoff,2020-03-10 Intellectual biography of Holocaust historian Lucy S Dawidowicz From Left to Right Lucy S Dawidowicz the New York Intellectuals and the Politics of Jewish History is the first comprehensive biography of Dawidowicz 1915 1990 a pioneer historian in the field that is now called Holocaust studies Dawidowicz was a household name in the postwar years not only because of her scholarship but also due to her political views Dawidowicz like many other New York intellectuals was a youthful communist became an FDR democrat midcentury and later championed neoconservatism Nancy Sinkoff argues that Dawidowicz s rightward shift emerged out of living in prewar Poland watching the Holocaust unfold from New York City and working with displaced persons in postwar Germany Based on over forty five archival collections From Left to Right chronicles Dawidowicz s life as a window into the major events and issues of twentieth century Jewish life **Dynamics and Policies of Prejudice from the Eighteenth to the Twenty-first Century** Giuseppe Motta,2018-09-30 Prejudice is a multifaceted concept that affects the relationships between individuals and groups and the creation of socially formed categories of ideas It concerns race religion gender social distinctions and political beliefs and can be considered as a natural human process of out group homogeneity as well as the product of an authoritarian context or as a reaction against modernization or other symbolic or realistic threats This volume defines the dynamics and policies of prejudice in the historical passage between the modern and contemporary age bringing together articles by different scholars representing various disciplines which allows an analysis of the different aspects of prejudice The book includes interesting chapters on anti Semitism the ethnic conflicts of the twentieth century Russia and the Balkans and gender bias among other subjects *The Jewish Holocaust* Marty Bloomberg,Buckley Barry Barrett,1995-01-01 This expanded edition of the guide to major books in English on the Holocaust is organized into ten subject areas reference materials European antisemitism background materials the

Holocaust years Jewish resistance *The Wonder of Their Voices* Alan Rosen, 2010-11-04 Over the last several decades video testimony with aging Holocaust survivors has brought these witnesses into the limelight Yet the success of these projects has made it seem that little survivor testimony took place in earlier years In truth thousands of survivors began to recount their experience at the earliest opportunity This book provides the first full length case study of early postwar Holocaust testimony focusing on David Boder s 1946 displaced persons interview project In July 1946 Boder a psychologist traveled to Europe to interview victims of the Holocaust who were in the Displaced Persons DP camps and what he called shelter houses During his nine weeks in Europe Boder carried out approximately 130 interviews in nine languages and recorded them on a wire recorder Likely the earliest audio recorded testimony of Holocaust survivors the interviews are valuable today for the spoken word that of the DP narrators and of Boder himself and also for the song sessions and religious services that Boder recorded Eighty sessions were eventually transcribed into English most of which were included in a self published manuscript Alan Rosen sets Boder s project in the context of the postwar response to displaced persons sketches the dramatic background of his previous life and work chronicles in detail the evolving process of interviewing both Jewish and non Jewish DPs and examines from several angles the implications for the history of Holocaust testimony Such early postwar testimony Rosen avers deserves to be taken on its own terms rather than to be enfolded into earlier or later schemas of testimony Moreover Boder s efforts and the support he was given for them demonstrate that American postwar response to the Holocaust was not universally indifferent but rather often engaged concerned and resourceful *The Holocaust & the Exile of Yiddish* Barry Trachtenberg, 2022-04-15 In the early 1930s in Berlin Germany a group of leading Eastern European Jewish intellectuals embarked upon a project to transform the lives of millions of Yiddish speaking Jews around the world Their goal was to publish a popular and comprehensive Yiddish language encyclopedia of general knowledge that would serve as a bridge to the modern world and as a guide to help its readers navigate their way within it However soon after the *Algemeyne entsiklopedye* General Encyclopedia was announced Hitler s rise to power forced its editors to flee to Paris The scope and mission of the project repeatedly changed before its final volumes were published in New York City in 1966 The Holocaust the Exile of Yiddish untangles the complicated saga of the *Algemeyne entsiklopedye* and its editors The editors continued to publish volumes and revise the encyclopedia s mission while their primary audience Eastern European Jews faced persecution and genocide under Nazi rule and the challenge of reestablishing themselves in the first decades after World War II Historian Barry Trachtenberg reveals how over the course of the middle decades of the twentieth century the project sparked tremendous controversy in Jewish cultural and political circles which debated what the purpose of a Yiddish encyclopedia should be as well as what knowledge and perspectives it should contain Nevertheless this is not only a story about destruction and trauma but also one of tenacity and continuity as the encyclopedia s compilers strove to preserve the heritage of Yiddish culture to document its near total extermination in the Holocaust and to chart its path into the future

Human Rights in the Shadow of Colonial Violence Fabian Klose, 2013-05-31 Based on previously inaccessible material from international archives *Human Rights in the Shadow of Colonial Violence* examines the relationship between emerging human rights concepts after 1945 and repressive British and French actions against anticolonial movements in Africa

Mirrors of Destruction Omer Bartov, 2000-08-24 *Mirrors of Destruction* examines the relationship between total war state organized genocide and the emergence of modern identity Here Omer Bartov demonstrates that in the twentieth century there have been intimate links between military conflict mass murder of civilian populations and the definition and categorization of groups and individuals These connections were most clearly manifested in the Holocaust as the Nazis attempted to exterminate European Jewry under cover of a brutal war and with the stated goal of creating a racially pure Aryan population and Germanic empire The Holocaust however can only be understood within the context of the century's predilection for applying massive and systematic methods of destruction to resolve conflicts over identity To provide the context for the Final Solution Bartov examines the changing relationships between Jews and non Jews in France and Germany from the outbreak of World War I to the present Rather than presenting a comprehensive history or a narrative from a single perspective Bartov views the past century through four interrelated prisms He begins with an analysis of the glorification of war and violence from its modern birth in the trenches of World War I to its horrifying culmination in the presentation of genocide by the SS as a glorious undertaking He then examines the pacifist reaction in interwar France to show how it contributed to a climate of collaboration with dictatorship and mass murder The book goes on to argue that much of the discourse on identity throughout the century has had to do with identifying and eliminating society's elusive enemies or enemies from within Bartov concludes with an investigation of modern apocalyptic visions showing how they have both encouraged mass destructions and opened a way for the reconstruction of individual and collective identities after a catastrophe Written with verve *Mirrors of Destruction* is rich in interpretations and theoretical tools and provides a new framework for understanding a central trait of modern history

Writing the Holocaust Zoë Vania Waxman, 2008-06-26 Arguing against the prevailing view that Holocaust survivors encouraged by a new and flourishing culture of witnessing have come forward only recently to tell their stories *Writing the Holocaust* examines the full history of Holocaust testimony from the first chroniclers confined to Nazi enforced ghettos to today's survivors writing as part of collective memory Zoë Waxman shows how the conditions and motivations for bearing witness changed immeasurably She reveals the multiplicity of Holocaust experiences the historically contingent

nature of victims responses and the extent to which their identities secular or religious male or female East or West European affected not only what they observed but also how they have written about their experiences In particular she demonstrates that what survivors remember is substantially determined by the context in which they are remembering
