Race Class Gender And Sexuality The Big Questions:

Race, Class, Gender and Sexuality Naomi Zack, Laurie Shrage, Crispin Sartwell, 1998-11-09 This ambitious philosophical anthology combines analyses and surveys of contemporary theorising on social identity *Race, class, gender, and sexuality* Naomi Zack, Laurie Shrage, Crispin Sartwell, 1998 **The Oxford Handbook of Practical Ethics** Hugh LaFollette, 2005-09-15 This is a guide to contemporary thought on ethical issues in all areas of human activity personal medical sexual social political judicial and international from the natural world to the world of business **The Biopolitics of Race** Sokthan Yeng, 2013-11-11 Many political figures insist that their anti immigration sentiments have nothing to do with race and racism Americans seem largely unconvinced which is why politicians must protest so loudly and often In order to deflect accusations of racism public figures evoke the neo liberal principle that calls for protection of state health and resources Yet contemporary philosophers such as Hanna Arendt Michel Foucault and Giorgio Agamben argue that neo liberal ideology is racist Sokthan Yeng applies their analysis to the debate over immigration policies to show that neo liberalism not only recodes traditional racist rhetoric but also expands systemic racism Politicians can say that their anti immigration policies are meant to protect the nation s economy and strength It is no coincidence however that the populations most affected by these regulations are ethnic and cultural minorities such as Mexican and Muslim immigrants The analysis presented in *The Biopolitics of Race* will be valuable to philosophers and other scholars or students interested in critical race theory feminism and queer theory It also has implications for anyone working in public health bioethics or migration studies

Africana Critical Theory Reiland Rabaka, 2009-01-16 Building on and going far beyond W E B Du Bois and the Problems of the Twenty First Century and Du Bois s Dialectics Reiland Rabaka s *Africana Critical Theory* innovatively identifies and analyzes continental and diasporan African contributions to classical and contemporary critical theory This book represents a climatic critical theoretical clincher that cogently demonstrates how Du Bois s rarely discussed dialectical thought interdisciplinarity intellectual history making radical political activism and world historical multiple liberation movement leadership helped to inaugurate a distinct Africana tradition of critical theory With chapters on W E B Du Bois C L R James Negritude Aime Cesaire and Leopold Senghor Frantz Fanon and Amilcar Cabral *Africana Critical Theory* endeavors to accessibly offer contemporary critical theorists an intellectual archaeology of the Africana tradition of critical theory and a much needed dialectical deconstruction and reconstruction of black radical politics These six seminal figures collective thought and texts clearly cuts across several disciplines and therefore closes the chasm between Africana Studies and critical theory constantly demanding that intellectuals not simply think deep thoughts develop new theories and theoretically support radical politics but be and constantly become political activists social organizers and cultural workers that is folk the Italian critical theorist Antonio Gramsci referred to as organic intellectuals In this sense then the series of studies gathered in *Africana Critical Theory* contribute not only to African Studies African American Studies Caribbean Studies Cultural Studies

Gender Studies and Postcolonial Studies but also to contemporary critical theoretical discourse across an amazingly wide range of traditional disciplines and radical political activism outside of and in many instances absolutely against Europe's ivory towers and the absurdities of the American academy

The Palgrave Handbook of German Idealism and Feminist Philosophy Susanne Lettow, Tuija Pulkkinen, 2023-01-04 This book gives a comprehensive overview of the ways in which the relation between German Idealism and feminist philosophy has been explored. It demonstrates the significance of German Idealism for feminist philosophy and simultaneously brings out the relevance of feminist readings and interpretations for a critical understanding of German Idealism. Key Features: Presents original work on the German Idealists and considers their legacy within feminist thought from different philosophical perspectives. Incorporates perspectives from queer theory, new materialism, and critical philosophy of race and so explores German Idealism through the subversion and transformation of meanings and conceptual arrangements. Challenges the epistemic boundaries of philosophy by engaging the thought of women contemporary with the German Idealists such as Bettina von Arnim and Karoline von Gunderode. Places the work of the German Idealists on gender, sexuality, marriage, and family within the wider contexts of colonialism and European nation building. Considers how several key concepts of German Idealism such as subject, reason, enlightenment, autonomy, and the sublime have been central targets of feminist theory. Includes a Black feminist critique of Kantian universalism. Fully reflecting the diversity that characterizes feminist thinking today. *The Palgrave Handbook of German Idealism and Feminist Philosophy* is essential reading for scholars and graduate students of German idealism, feminist philosophy, and feminist theory.

The Ground Has Shifted Walter Earl Fluker, 2018-10-02 Honorable Mention Theology and Religious Studies PROSE Award A powerful insight into the historical and cultural roles of the Black church. If we are in a post-racial era, then what is the future of the Black Church? If the US will at some time in the future be free from discrimination and prejudices that are based on race, how will that affect the church's very identity? In *The Ground Has Shifted*, Walter Earl Fluker passionately and thoroughly discusses the historical and current role of the Black church and argues that the older race-based language and metaphors of religious discourse have outlived their utility. He offers instead a larger global vision for the Black church that focuses on young Black men and other disenfranchised groups who have been left behind in a world of globalized capital. Lyrically written with an emphasis on the dynamic and fluid movement of life itself, Fluker argues that the church must find new ways to use race as an emancipatory instrument if it is to remain central in Black life, and he points the way for a new generation of church leaders, scholars, and activists to reclaim the Black church's historical identity and to turn to the task of infusing character, civility, and a sense of community among its congregants.

Inclusive Feminism Naomi Zack, 2005-03-11 Second Wave feminism collapsed in the early 1980s when a universal definition of women was abandoned. At the same time

as a reaction to the narcissism of white middle class feminism intersectionality led to many different feminisms according to race sexual preference and class These ongoing segregations make it impossible for women to unite politically and they have not ended exclusion and discrimination among women especially in the academy In *Inclusive Feminism* Naomi Zack provides a universal relational definition of women critically engages both Anglo and French feminists and shows how women can become a united historical force with the political goal of ruling in place of men **Clearing a Path** Nancy

Du Bois** Reiland Rabaka, 2017-05-15 Housed in one handy volume for the first time are several of the seminal essays on W E B Du Bois's contributions to sociology and critical social theory from Du Bois as inventor of sociology of race to Du Bois as the first sociologist of American religion from Du Bois as a pioneer of urban and rural sociology to Du Bois as innovator of sociology of gender and culture and finally from Du Bois as groundbreaking sociologist of education and critical criminologist to Du Bois as dialectical critic of the disciplinary decadence of sociology and the American academy What this volume offers that is wholly innovative and distinctive is that it brings together the watershed work of classical and contemporary male and female black and white national and international sociologists and social theorists with the express intent of creating critical inventories and thoroughly interrogating what has been included and what has been excluded when we come to W E B Du Bois's contributions to the discipline of sociology Unlike any other anthologies on Du Bois this volume offers an excellent overview of the critical commentary on arguably one of the most imaginative and innovative perceptive and prolific founders of the discipline of sociology It will therefore be of interest to scholars and students not just in sociology but also Africana studies American studies cultural studies ethnic studies gender studies and postcolonial studies as well as traditional disciplines such as history philosophy political science economics education and religion *Women in Academia Crossing North-South Borders* Zuleika Arashiro, Malba Barahona, 2015-12-09 Drawing broadly on decolonial studies postcolonial feminist scholarship and studies on identity this interdisciplinary edited volume brings together personal accounts written by female scholars who migrated from Latin America and joined universities in the Global North Australia the United States and the Netherlands and female scholars who moved from the Global North to teach in Latin American universities The seven contributors examine how their lived experiences with gender race and place displacement have impacted their social identities and on their roles as researchers and teachers They describe how personal and intellectual negotiations in their new location have influenced their fight for plural forms of knowing and being This book expands the debate on geopolitics of knowledge and the position of female scholars from the Global South beyond the United States as a site of experiences

Selves, Persons, Individuals Janice Richardson, 2017-03-02 Whilst feminist philosophy has frequently engaged with political theory this original book instead considers legal theory and the practical operation of law The work considers some of the contested meanings of what it is to be a self a person or an individual in relation to the law of obligations The discussion still impacts upon political theory as it concerns the way in which the question of what it is to be a woman has

been defined within recent feminist theory In order to overcome what appears to be a block in feminist legal theory the book draws together areas of philosophy which are not normally considered within feminist or legal theory *Feminist Perspectives on Law and Theory* Janice Richardson, Ralph Sandland, 2013-03-04 This collection of essays on feminist legal theory therefore provides an interdisciplinary approach drawn not only from law and philosophy but also from cultural and womens studies
