Race To Velasco:

Race to Velasco Paul N. Spellman, 1995 Henry Woods and Antonio Gonzales head for adventure with rebel Texans at the Battle of Velasco before the Texas Revolution **The Milwaukee Police and Latino Community Relations, 1964-2000**

Antonio G. Guajardo Jr., 2019-12-06 This study examines the relationship between the Milwaukee Police Department and the Latino community in the second half of the twentieth century Los Tucsonenses Thomas E. Sheridan, 2016-05-26 Originally

a presidio on the frontier of New Spain Tucson was a Mexican community before the arrival of Anglo settlers Unlike most cities in California and Texas Tucson was not initially overwhelmed by Anglo immigrants so that even until the early 1900s Mexicans made up a majority of the town's population Indeed it was through the efforts of Mexican businessmen and politicians that Tucson became a commercial center of the Southwest Los Tucsonenses celebrates the efforts of these early entrepreneurs as it traces the Mexican community's gradual loss of economic and political power Drawing on both statistical archives and pioneer reminiscences Thomas Sheridan has written a history of Tucson's Mexican community that is both rigorous in its factual analysis and passionate in its portrayal of historic personages **The Color of Being/El Color del**

Ser Susie Kalil, 2016-08-23 Born in Bryan Texas and raised in Houston Dorothy Hood won a scholarship to the Rhode Island School of Design in the early 1930s then worked as a model in New York to earn money for classes at the Art Students League On a whim she drove a roadster to Mexico City with friends in 1941 and ended up staying for more than twenty years Hood was front and center at the cultural political and social crossroads of Mexico and Latin America during a period of intense creative ferment She developed close friendships with the exiled European intelligentsia and Latin American surrealists artists composers poets playwrights and revolutionary writers She married the Bolivian composer Jos Mar a Velasco Maidana and together they traveled all over the world Once back in Houston Hood produced epic paintings that evoked the psychic void of space large scale works evoking primordial seas volcanic explosions and the cosmos contained within the mind The Color of Being El Color del Ser establishes a vital connection among Texas Latin America New York and Europe It celebrates this important Modernist painter whose oeuvre is integral to the ongoing dialogue of abstraction by artists of the postwar period Sponsored by the Art Museum of South Texas *Impurity of Blood* Joshua Goode, 2009-12

Impurity of Blood analyzes the proposition of Spanish racial thought in the late 19th and early 20th centuries that racial strength came from a fusion of different groups rather than from a kind of racial purity By providing a history of ethnic thought in Spain in the medieval and early modern era and by studying the formation of racial thought in Spain's nascent human sciences and its political and cultural manifestations leading into the Franco regime it provides a new view of racial thought in Europe and its connections to the larger twentieth century formation of racial thought in the West **Ecuador** David W. Schodt, 2019-03-05 A country often neglected in discussions of Latin America Ecuador offers intriguing insights into the interwoven patterns of continuity and change characteristic of the region In this introduction to Ecuador Dr Schodt

begins with a discussion of culture and geography especially critical for understanding this country where the physical partitioning by the Andes has had profound economic and political consequences and where cultural and linguistic differences further divide the population. The author then considers Ecuador's early history emphasizing the importance of patterns imposed by regionalism and structured by the nation's colonial heritage. This leads to a discussion of the cacao and banana booms and of the consequences of these periods of economic bonanza for domestic politics that focuses on the expansion of the electorate and the emergence of two competing populist movements. In the final chapters Dr Schodt examines the political and economic implications of the petroleum boom emphasizing the growing role of the state in the Ecuadorian economy. This analysis of the petroleum period concludes with a discussion of Ecuador's prospects for the future taking account of the conjuncture of the dramatic increase in Ecuador's external indebtedness that took place in the late 1970s and early 1980s the election in 1984 of a government committed to reversing the growth of state intervention in the economy and the sharp decline in 1986 in the world price of petroleum.

Advances in Parasitic Weeds Research Diego Rubiales, Mónica Fernández-Aparicio, Maurizio Vurro, Hanan Eizenberg, 2018-11-27 Parasitic weeds are severe constraint to agriculture and major crop production and the efficacy of available means to control them is minimal. Control strategies have centred around agronomic practices resistant varieties and the use of herbicides. Novel integrated control programmes should be sympathetic to agricultural extensification while exerting minimal harmful effects on the environment. This eBook covers recent advances in biology physiology of parasitism genetics population dynamics resistance host parasite relationships regulation of seed germination etc in order to offer an outstanding windows to these enigmatic plants and contribute to their practical management.

Visions for the Global Economy John R. Gagain Jr, 2012-08 Visions for the Global Economy explores a collection of global issues that are vital to every student of world affairs. It addresses key topics on the global stage focusing on the foundational aspects of these global issues. It gets to the heart of diverse arguments that create roadblocks to progress in the global economy and combines current affairs with key turning points in history. This guide examines topics of the global economy at their core as each chapter traces the storyline of one issue. Global issues and the decisions world leaders make are complex and there never is one clear reason as to why something exists or why something takes place. Visions for the Global Economy also considers economic growth global economic governance and political economy providing a solid base for understanding the increasingly complex world today. The global economy has changed exponentially over the last decade and a half. Today students cannot exclusively study politics or economics. They need to study both and have a good grasp of the political economy to succeed in today's world.

Making Ecuadorian Histories O. Hugo Benavides,2010-01-01 In Ecuador as in all countries archaeology and history play fundamental roles in defining national identity Connecting with the prehistoric and historic pasts gives the modern state legitimacy and power But the state is not the only actor that lays claim to the country s archaeological patrimony nor is its official history the only version of the story Indigenous peoples are increasingly drawing on the past to claim their rights and standing in the modern Ecuadorian state while the press tries to present a neutral version of history that will satisfy its various publics This pathfinding book investigates how archaeological knowledge is used for both maintaining and contesting nation building and state hegemony in Ecuador Specifically Hugo Benavides analyzes how the pre Hispanic site of Cochasqu has become a source of competing narratives of Native American Spanish and Ecuadorian occupations which serve the differing needs of the nation state and different national populations at large He also analyzes the Indian movement itself and the recent controversy over the final resting place for the traditional monolith of San Biritute Offering a more nuanced view of the production of history than previous studies Benavides demonstrates how both official and resistance narratives are constantly reproduced and embodied within the nation state s dominant discourses
