Racial Conditions Howard Winant, The New Politics of Race Howard Winant, 2004 The New Politics of Race brings together Winant's new and previously published essays to form a comprehensive picture of the origins and nature of the complex racial politics that engulf us today Social Theory Roberta Garner, Black Hawk Hancock, 2014-04-29 The organization of this popular social theory reader which pairs classical articles with contemporary theoretical and empirical studies highlights the historical flow of social theory and demonstrates how disagreements and confrontations shape theory over time Written in clear down to earth language the introductions to each selection link theorists to one another illustrating how theoretical traditions are not rigidly separate but are always in conversation addressing and challenging each other The third edition incorporates significant changes more readings reflecting a wide diversity of theorists a completely revamped chapter on gender new chapters on race and culture and unique material on the transitional giants who have helped to transform classical theory into contemporary theory As well new contextual and biographical materials surround each reading and each chapter includes a study guide with key terms and innovative discussion questions and classroom exercises The result is a fresh take on social theory that foregrounds a plurality of perspectives and reflects contemporary trends in the field while still managing to be a teachable and affordable text Race and Racism in Theory and Practice Berel Lang, 2000 This collection of original essays by scholars from a diverse range of fields examines issues of race in a variety of historical and geographical settings ranging from classical Greece to the contemporary Americas Europe and Asia The authors provide an important perspective on race both in its theoretical origins and in its actual appearances while paying close attention to the ways in which the study of race itself has been carried on or ignored by various disciplines Racial Politics in Contemporary Brazil Michael George Hanchard, Michael Hanchard, 1999-05-25 This is an edited volume which discusses the racial politics of Brazil and the basis and understanding of labor market and residential segregation in Brazilian society

**Race and Ethnicity in Comparative Perspective** Georgia A. Persons, 2018-04-24 Contradictory forces are at play at the close of the twentieth century There is a growing closeness of peoples fueled by old and new technologies of modern aviation digital based communications new patterns of trade and commerce and growing affluence of significant portions of the world s population Television permits individuals around the world to learn about the cultures and lifestyles of peoples of physically distant lands These developments give real meaning to the notion of a global village Peoples of the world are growing closer in new and increasingly important ways Nonetheless there are disturbing signs of a growing awareness of ethnic differences in all parts of the world the United States included and a concomitant rise in ethnic based conflicts many of them extraordinarily violent in nature Fear resentment intolerance and mistreatment of the other abound in world news accounts Not only does this phenomenon pose an interesting juxtaposition to the concept of the emergent global village but its emergence in the post cold war era internationally and the post civil rights era in the United States raises significant and compelling questions Why are such conflicts occurring now How do analysts explain these developments The essays in *Race and Ethnicity in Comparative Perspective* lucidly explore some of the complexities of the persistence and re emergence of race and ethnicity as major lines of divisiveness around the world Contributors analyze manifestations of race based movements for political empowerment in Europe and Latin America as well as racial intolerance in these same settings Attention is also given to the conceptual complexities of multidimensional and shared cultural roots of the overlapping phenomena of ethnicity nationalism identity and ideology The book greatly informs discussions of race and ethnicity in the international context and provides an interesting perspective against which to view America s changing problem of race

**New Right, New Racism** Amy Elizabeth Ansell, 2016-07-27 *New Right New Racism* is a comparative analysis of the role of racialized symbols in the right turn of US and British politics in the late 1970s through to today The author argues that the symbol of race has been central to the New Right s project to redefine the cultural codes and broader social imaginary upon which the consensus politics of the post war years was built In the process of mobilizing race as an ideological articulator of the exit

from consensus politics the New Right has promoted a new form of racism qualitatively distinct from more traditional forms

*Cannibal Democracy* Zita Nunes, 2008 Zita Nunes argues that the prevailing narratives of identity formation throughout the Americas share a dependence on metaphors of incorporation and often of cannibalism From the position of the incorporating body the construction of a national and racial identity through a process of assimilation presupposes a remainder a residue Nunes addresses works by writers and artists who explore what is left behind in the formation of national identities and speak to the limits of the contemporary discourse of democracy *Cannibal Democracy* tracks its central metaphor's circulation through the work of writers such as Mrio de Andrade W E B Du Bois and Toni Morrison and journalists of the black press as well as work by visual artists including Magdalena Campos Pons and Keith Piper and reveals how exclusion understood in terms of what is left out can be fruitfully understood in terms of what is left over from a process of unification or incorporation Nunes shows that while this remainder can be deferred into the future lurking as a threat to the desired stability of the present the residue haunts discourses of national unity undermining the ideologies of democracy that claim to resolve issues of race Zita Nunes is associate professor of English at the University of Maryland College Park

*Negras in Brazil* Kia Caldwell, 2007-01-05 For most of the twentieth century Brazil was widely regarded as a racial democracy a country untainted by the scourge of racism and prejudice In recent decades however this image has been severely critiqued with a growing number of studies highlighting persistent and deep seated patterns of racial discrimination and inequality Yet recent work on race and racism has rarely considered gender as part of its analysis In *Negras in Brazil* Kia Lilly Caldwell examines the life experiences of Afro Brazilian women whose stories have until now been largely untold This pathbreaking study analyzes the links between race and gender and broader processes of social economic and political exclusion Drawing on ethnographic research with social movement organizations and thirty five life history interviews Caldwell explores the everyday struggles Afro Brazilian women face in their efforts to achieve equal rights and full citizenship She also shows how the black women's movement which has emerged in recent decades has sought to challenge racial and gender discrimination in Brazil While proposing a broader view of citizenship that includes domains such as popular culture and the body *Negras in Brazil* highlights the continuing relevance of identity politics for members of racially marginalized communities Providing new insights into black women's social activism and a gendered perspective on Brazilian racial dynamics this book will be of interest to students and scholars of Latin American Studies African diaspora studies women's studies politics and cultural anthropology

*Who Do We Think We Are?* Philip Yale Nicholson, 1999 In this timely and well argued book author Philip Nicholson offers a provocative explanation of the force and place of race in modern history showing that race and nation have a linked history Using the deliberately ironic metaphor of the double helix the author shows the close historical connection of race and nation as each interrelates with the other in shaping and carrying social and institutional practices over many centuries Five themes recur throughout the work modernity is built on the twin

pillars of race and nation national instability rivalry and imperial conquest outside of dynastic religious or feudal disputes evoke differential i e racial human social categories loyalties and mythologies racial vilification emerges out of material and cultural expropriation racial degradation is typically the inverse projection of dominant national normative values beliefs or ideals and race and nation share in the twists and turns of modern history and are inseparably linked and interdependent

Reworking Race Moon-Kie Jung, 2010-02-26 In the middle decades of the twentieth century Hawai i changed rapidly from a conservative oligarchy firmly controlled by a Euro American elite to arguably the most progressive part of the United States Spearheading the shift were tens of thousands of sugar pineapple and dock workers who challenged their powerful employers by joining the left led International Longshoremen and Warehousemen s Union In this theoretically innovative study Moon Kie Jung explains how Filipinos Japanese Portuguese and others overcame entrenched racial divisions and successfully mobilized a mass working class movement He overturns the unquestioned assumption that this interracial effort traded racial politics for class politics Instead the movement reworked race by incorporating and rearticulating racial meanings and practices into a new ideology of class Through its groundbreaking historical analysis *Reworking Race* radically rethinks interracial politics in theory and practice

**Race and Democracy in the Americas** Georgia A. Persons, 2018-12-07 *Race and Democracy in the Americas* examines dimensions of the comparative dynamics of race and ethnicity with a directed focus on the Americas most particularly Brazil and the United States Brazil and the United States are two countries in the Americas that have been major hosts for the African diaspora Both countries experienced prolonged enslavement of Africans and both now claim to be

beacons of democracy for much of the developing world Both Afro Brazilians and African Americans have fielded major liberation movements against racism and oppression yet both groups continue to experience considerable residual racial discrimination and displacement Brazil and the U S remain racialized societies though both officially purport to be otherwise The chapters of this volume illuminate a common search for understanding how race operates in societies generally and how shapes life opportunities for African Americans and Afro Brazilians both oppressed by this most detrimental social construction The project that fueled this volume represented a rare opportunity for collaboration between Afro Brazilian scholars and their African American counterparts This volume offers a passionate conversation between colleagues who have endured common sociopolitical and cultural struggles but who have only belatedly been able to meet and connect as individuals Both groups share identities as scholars and activists for neither identity alone is sufficient to nourish the longings of their hearts nor of their consciences This volume also represents an all too rare opportunity to give voice and expression to the work of Afro Brazilian scholars Volume 9 of the National Political Science Review also carries a special tribute to Mack Henry Jones a senior black political scientist retiring from Atlanta University and honors Jones s legacy and continues his quest for understanding the nature and intricacies of oppression and possible paths to liberatio

*Race and Ethnicity in Latin America* Peter Wade,2010-05-12 For over ten years *Race and Ethnicity in Latin America* has been an essential text for students studying the region This second edition adds new material and brings the analysis up to date Race and ethnic identities are increasingly salient in Latin America Peter Wade examines changing perspectives on Black and Indian populations in the region tracing similarities and differences in the way these peoples have been seen by academics and national elites Race and ethnicity as analytical concepts are re examined in order to assess their usefulness This book should be the first port of call for anthropologists and sociologists studying identity in Latin America

**Fractured Militancy** Marcel Paret,2022-02-15 Drawing on extensive ethnographic fieldwork and interviews with activists *Fractured Militancy* tells the story of postapartheid South Africa from the perspective of Johannesburg s impoverished urban Black neighborhoods Nearly three decades after South Africa s transition from apartheid to democracy widespread protests and xenophobic attacks suggest that not all is well in the once celebrated rainbow nation Marcel Paret traces rising protests back to the process of democratization and racial inclusion This process dangled the possibility of change but preserved racial inequality and economic insecurity prompting residents to use militant protests to express their deep sense of betrayal and to demand recognition and community development Underscoring remarkable parallels to movements such as Black Lives Matter in the United States this account attests to an ongoing struggle for Black liberation in the wake of formal racial inclusion Rather than unified resistance however class struggles within the process of racial inclusion produced a fractured militancy Revealing the complicated truth behind the celebrated success of South African democratization Paret uncovers a society divided by wealth urban geography nationality employment and political views *Fractured Militancy* warns of the

threat that capitalism and elite class struggles present to social movements and racial justice everywhere
