Racial Ethnic Groups:

Race and Ethnicity in America John Iceland, 2017-02-14 This book examines patterns and trends in racial inequality over the past several decades Iceland finds that color lines have softened over time as there has been some narrowing of differences across many indicators for most groups over the past sixty years Asian Americans in particular have reached socioeconomic parity with white Americans Nevertheless deep seated inequalities in income poverty unemployment and health remain especially among blacks and to a lesser extent Hispanics The causes for disadvantage for the groups vary ranging from a legacy of racism current discrimination human capital deficits the unfolding process of immigrant incorporation and cultural responses to disadvantage Provided by publisher *Racial and Ethnic Groups* Richard T. Schaefer, 2013-07-23 Helping readers understand the changing dynamics of the US population Schaefer places current and ethnic relations in a socio historical context to help readers understand the past and shape the future Race, Ethnicity, Gender, and Class Joseph F. Healey, Andi Stepnick, 2022-06-09 Known for its clear and engaging writing the bestselling *Race Ethnicity Gender and Class* The Sociology of Group Conflict and Change has been thoroughly updated to be fresher more relevant and more accessible to undergraduates The text uses sociological perspectives and a consistent conceptual framework to tell the story of America's minority groups today and throughout history By presenting information asking questions and examining controversies it demonstrates that understanding what it means to be an American has always required us to grapple with issues of diversity and difference This title is accompanied by a complete teaching and learning package *Race, Ethnicity, and Health* Thomas A. LaVeist, Lydia A. Isaac, 2012-09-26 *Race Ethnicity and Health* Second Edition is a critical selection of hallmark articles that address health disparities in America It effectively documents the need for equal treatment and equal health status for minorities Intended as a resource for faculty and students in public health as well as the social sciences it will be also be valuable to public health administrators and frontline staff who serve diverse racial and ethnic populations The book brings together the best peer reviewed research literature from the leading scholars and faculty in this growing field providing a historical and political context for the study of health race and ethnicity with key findings on disparities in access use and quality This volume also examines the role of health care providers in health disparities and discusses the issue of matching patients and doctors by race New chapters cover reflections on demographic changes in the US based on the current census metrics and nomenclature for disparities theories of genetic basis for disparities the built environment residential segregation environmental health occupational health health disparities in integrated communities Latino health Asian populations stress and health physician patient relationships hospital treatment of minorities the slavery hypertension hypothesis geographic disparities and intervention design *From Many Strands* Stanley Lieberson, Mary C. Waters, 1990-10-02 The 1980 Census introduced a radical change in the measurement of ethnicity by gathering information on ancestry for all respondents regardless of how long ago their forebears migrated to America and

by allowing respondents of mixed background to list more than one ancestry The result presented for the first time in this important study is a unique and sometimes startling picture of the nation s ethnic makeup From Many Strands focuses on each of the sixteen principal European ethnic groups as well as on major non European groups such as blacks and Hispanics The authors describe differences and similarities across a range of dimensions including regional distribution income marriage patterns and education While some findings lend support to the melting pot theory of assimilation levels of educational attainment have become more comparable and ingroup marriage is declining other findings suggest the persistence of pluralism settlement patterns resist change and some current occupational patterns date from the turn of the century In these contradictions and in the striking number of respondents who report no ethnic background or report it incorrectly Lieberman and Waters find evidence of considerable ethnic flux and uncover the growing presence of a new unhyphenated American ethnic strand in the fabric of national life A Volume in the Russell Sage Foundation Census Series
