**Racial Healing** Harlon L. Dalton, 1996-10-01 A New York Times Notable Book of the Year Going against conventional wisdom Dalton asserts that blacks and whites need not live estranged and offers concrete proposals for what individual blacks and whites must do to bring about racial healing When discussing race Dalton suggests that blacks and whites should simply put everything on the table Own up to the tension Acknowledge the risks When someone inevitably screws up rather than beat a hasty retreat we should seize the opportunity to deepen the dialogue The unflinching honesty of Dalton's views will spark debate and controversy His vision of a truly just multicultural America provides a thought provoking hopeful view to add to the diversity of debate over race

[America's Atonement](#) Aaron David Gresson, 2004 How does a nation redeem itself What ideas values and strategies get mobilized in order for a nation to feel good about itself again Is such a recovery possible for an entire people America's Atonement provides one answer to these and related questions by arguing that racial pain notably white racial pain provides a metaphor for understanding a wide range of redemption aimed cultural practices ranging from the Yellow Ribbon Movement 1972 1992 to the current wave of recovery movies such as Disclosure and Forrest Gump

**"I'm Not a Racist, But..."** Lawrence Blum, 2015-08-01 Not all racial incidents are racist incidents Lawrence Blum says We need a more varied and nuanced moral vocabulary for talking about the arena of race We should not be faced with a choice of racism or nothing Use of the word racism is pervasive An article about the NAACP's criticism of television networks for casting too few minority actors in lead roles asks Is television a racist institution A white girl in Virginia says it is racist for her African American teacher to wear African attire Blum argues that a growing tendency to castigate as racism everything that goes wrong in the racial domain reduces the term's power to evoke moral outrage In I'm Not a Racist But Blum develops a historically grounded account of racism as the deeply morally charged notion it has become He addresses the question whether people of color can be racist defines types of racism and identifies debased and inappropriate usages of the term Though racial insensitivity racial anxiety racial ignorance and racial injustice are in his view not racism they are racial ills that should elicit moral concern Blum argues that race itself even when not serving distinct racial malfeasance is a morally destructive idea implying moral distance and unequal worth History and genetic science reveal both the avoidability and the falsity of the idea of race Blum argues that we can give up the idea of race but must recognize that racial groups historical and social experience has been shaped by having been treated as if they were races

*Curating Church* Jacob Daniel Myers, 2018-10-02 If we are willing to shift our approach to church we will better connect with increasingly heterogeneous cultures This shifting requires curation Church leaders must learn to be curators Churches in modernity were set up to facilitate a particular kind of experience with God Church was its own protected culture In the wake of

postmodernity facilitated by new forms of digital communication we are entering a new epoch in the history of the church Curators manage the tasks of connection preservation and transformation in their care for cultural artifacts and communities When someone serves as a curator they make connections between different elements in the culture preserving the best of cultural traditions and promoting fresh ways of thinking and being in the world What might this work of curation mean for us In Curating Church readers learn how curation can reorient and sharpen the ways and work of the church Curation can inform how we connect with cultures beyond the church preserve what is best in the rich history of Christian thought and expression and nurture spaces where contemporary persons may be transformed by the gospel This book helps readers to understand with new richness the church and the world and it equips them to become active in making those connections as curators with and for others

Yamamoto, 2000-12 The United States in the twenty first century will be a nation of so called minorities Shifts in the composition of the American populace necessitate a radical change in the ways we as a nation think about race relations identity and racial justice Once dominated by black white relations discussions of race are increasingly informed by an awareness of strife among nonwhite racial groups While white influence remains important in nonwhite racial conflict the time has come for acknowledgment of ways communities of color sometimes clash and their struggles to heal the resulting wounds and forge strong alliances Melding race history legal theory theology social psychology and anecdotes Eric K Yamamoto offers a fresh look at race and responsibility He tells tales of explosive conflicts and halting conciliatory efforts between African Americans and Korean and Vietnamese immigrant shop owners in Los Angeles and New Orleans He also paints a fascinating picture of South Africa s controversial Truth and Reconciliation Commission as well as a pathbreaking Asian American apology to Native Hawaiians for complicity in their oppression An incisive and original work by a highly respected scholar Interracial Justice greatly advances our understanding of conflict and healing through justice in multiracial America

Talking about Race Katherine Cramer Walsh, 2008-09-15 It is a perennial question how should Americans deal with racial and ethnic diversity More than 400 communities across the country have attempted to answer it by organizing discussions among diverse volunteers in an attempt to improve race relations In Talking about Race Katherine Cramer Walsh takes an eye opening look at this strategy to reveal the reasons behind the method and the effects it has in the cities and towns that undertake it With extensive observations of community dialogues interviews with the discussants and sophisticated analysis of national data Walsh shows that while meeting organizers usually aim to establish common ground participants tend to leave their discussions with a heightened awareness of differences in perspective and experience Drawing readers into these intense conversations between ordinary Americans working to deal with diversity and figure out the meaning of citizenship in our society she challenges many preconceptions about intergroup relations and organized public talk Finally disputing the conventional wisdom that unity is the only way forward Walsh prescribes a practical politics of difference that compels us to reassess the place of face to face discussion in civic life and the critical role of conflict in deliberative democracy
