Racial Preference And Racial Justice The New Affirmative Action Controversy:

Democracy and Disagreement Amy Gutmann, Dennis F. Thompson, 2009-07-01 The din and deadlock of public life in America where insults are traded slogans proclaimed and self serving deals made and unmade reveal the deep disagreement that pervades our democracy The disagreement is not only political but also moral as citizens and their representatives increasingly take extreme and intransigent positions A better kind of public discussion is needed and Amy Gutmann and Dennis Thompson provide an eloquent argument for deliberative democracy today They develop a principled framework for opponents to come together on moral and political issues Gutmann and Thompson show how a deliberative democracy can address some of our most difficult controversies from abortion and affirmative action to health care and welfare and can allow diverse groups separated by class race religion and gender to reason together Their work goes beyond that of most political theorists and social scientists by exploring both the principles for reasonable argument and their application to actual cases Not only do the authors suggest how deliberative democracy can work they also show why improving our collective capacity for moral argument is better than referring all disagreements to procedural politics or judicial institutions Democracy and Disagreement presents a compelling approach to how we might resolve some of our most trying moral disagreements and live with those that will inevitably persist on terms that all of us can respect

Racial Preference and Racial Justice Russell Nieli, 1991 In the early 1960s civil rights leaders such as Martin Luther King Jr aimed at achieving a completely color blind society in which people would be judged solely by the content of their character Since then however governmental concern over civil rights has shifted from strict neutrality to the preferential hiring and promoting of certain groups in the workplace and the preferential admission of certain minorities to educational institutions This volume collects the most penetrating scholarly essays key excerpts from court decisions and perceptive commentaries on the latest developments in thinking about affirmative action It should be of great interest to both students and the general reader alike

The Affirmative Action Puzzle Melvin I. Urofsky, 2020-01-28 A rich multifaceted history of affirmative action from the Civil Rights Act of 1866 through today's tumultuous times From acclaimed legal historian author of a biography of Louis Brandeis Remarkable Anthony Lewis The New York Review of Books Definitive Jeffrey Rosen The New Republic and Dissent and the Supreme Court Riveting Dahlia Lithwick The New York Times Book Review a history of affirmative action from its beginning with the Civil Rights Act of 1866 to the first use of the term in 1935 with the enactment of the National Labor Relations Act the Wagner Act to 1961 and John F Kennedy's Executive Order 10925 mandating that federal contractors take affirmative action to ensure that there be no discrimination by race creed color or national origin down to today's American society Melvin Urofsky explores affirmative action in relation to sex gender and education and shows that nearly every public university in the country has at one time or another instituted some form of affirmative action plan some successful others not Urofsky traces the evolution of affirmative action through labor and the struggle for racial equality writing of World War I

and the exodus that began when some six million African Americans moved northward between 1910 and 1960 one of the greatest internal migrations in the country's history He describes how Harry Truman after becoming president in 1945 fought for Roosevelt's Fair Employment Practice Act and surprising everyone appointed a distinguished panel to serve as the President's Commission on Civil Rights as well as appointing the first black judge on a federal appeals court in 1948 and by executive order later that year ordering full racial integration in the armed forces In this important ambitious far reaching book Urofsky writes about the affirmative action cases decided by the Supreme Court cases that either upheld or struck down particular plans that affected both governmental and private entities We come to fully understand the societal impact of affirmative action how and why it has helped and inflamed people of all walks of life how it has evolved and how and why it is still needed

The Rhetorical Invention of Diversity M. Kelly Carr, 2018-05-01 Despite the tepid reception of *Regents of the University of California v Bakke* in 1978 the Supreme Court has thrice affirmed its holding universities can use race as an admissions factor to achieve the goal of a diverse student body This book examines the process of rhetorical invention followed by Justice Lewis F Powell Jr his colleagues and other interlocutors as they sifted through arguments surrounding affirmative action policies to settle on diversity as affirmative action's best constitutional justification Here M Kelly Carr explores the goals constraints and argumentative tools of the various parties as they utilized the linguistic resources available to them including arguments about race merit and the role of the public university in civic life Using public address texts legal briefs memoranda and draft opinions Carr looks at how public arguments informed the amicus briefs chambers memos and legal principles before concluding that Powell's pragmatic decision making fused the principle of individualism with an appreciation of multiculturalism to accommodate his colleagues differing opinions She argues that *Bakke* is thus a legal and rhetorical milestone that helped to shift the justificatory grounds of race conscious policy away from a recognition of historical discrimination and its call for reparative equality and toward an appreciation of racial diversity

Affirmative Action A. M. Babkina, 2004 This guide to the literature presents 451 descriptions of books reports and articles dealing with all aspects of affirmative action including Race relations Economic aspects Reverse discrimination Preferences Affirmative Action programs Public opinion Court decisions Education and many more Complete author and subject indexes are provided

Equality, Affirmative Action and Justice Johan Rabe, 2001 **American Work Values** Paul Bernstein, 1997-03-06 *American Work Values Their Origin and Development* examines the broad shifts in American work values from their European origins to the present It analyzes shifts from work as salvation to work as opportunity and alienation and concludes with a more recent focus on self fulfilling employment in a context of industrial downsizing Beginning with the Lutheran Calvinist support of work for the glory of God the book's focus shifts to the change in work values that occurred from early industrialization in America to the end of the Great Depression a period characterized by both opportunity and alienation The modern trends that followed led to the empowerment of employees even as that empowerment tested the values of such

participation in a climate of rampant downsizing The book also deals with the debates related to work and welfare that simmered during these transformations Whether it involved policy makers in sixteenth century Europe or wonks in the Washington of 1996 controversy over public assistance to the deserving and undeserving poor remained a raging controversy that spilled over into the debate on affirmative action

American Public Policy B. Guy Peters, 2015-08-28 American Public Policy provides a comprehensive yet accessible overview of the landscape of public policy This foundational text takes students through the governmental systems and core theories of policymaking before turning to in depth exploration of key policy areas and tools of policy analysis Important additions to this Tenth Edition include expanded discussions of policy instruments the challenges for public policymakers presented by the continuing gridlock in Washington the Affordable Care Act higher education funding reproductive rights and gay rights New coverage of fracking controversies race and racial profiling and the legalization of marijuana keeps students up to date with recent policy debates and issues

Racism in Contemporary America Meyer Weinberg, 1996-05-23 Racism in Contemporary America is the largest and most up to date bibliography available on current research on the topic It has been compiled by award winning researcher Meyer Weinberg who has spent many years writing and researching contemporary and historical aspects of racism Almost 15 000 entries to books articles dissertations and other materials are organized under 87 subject headings In addition there are author and ethnic racial indexes Several aids help the researcher access the materials included In addition to the subject organization of the bibliography entries are annotated whenever the title is not self explanatory An author index is followed by an ethnic racial index which makes it convenient to follow a single group through any or all the subject headings This is a source book for the serious study of America s most enduring problem as such it will be of value to students and researchers at all levels and in most disciplines

A Philosophical Defense of Affirmative Action Engelbert Ssekasozi, 1999 Ssekasozi provides an ontological ethical foundation for the legal analysis on affirmative action arguing that there is a fine ethical distinction between human rights and civil rights in practice and that where discrimination is categorical in nature a categorical solution is required Chapters include a review of the literature a summary of relevant legal documents a detailed philosophical explication of the problem and discussion of types of discrimination with conclusions and directions for future research Double spaced text Annotation copyrighted by Book News Inc Portland OR

The Age of Reagan: The Fall of the Old Liberal Order Steven F. Hayward, 2009-06-09 The Age of Reagan brings to life the tumultuous decade and a half that preceded Ronald Reagan s ascent to the White House Drawing on scores of interviews and years of research Steven F Hayward takes us on an engrossing journey through the most politically divisive years the United States has had to endure since the decade before the Civil War Hayward captures an America at war with itself and an era whose reverberations we feel to this very day He brings new insight into the profound failure of Lyndon Johnson s Great Society the oddly liberal nature of Richard Nixon s

administration the significance of Reagan's years as California's governor the sudden death drama of his near defeat of Gerald Ford in the 1976 Republican primary the listlessness of Jimmy Carter's leadership and the political earthquake that was Reagan's victorious presidential campaign in 1980 Provocative authoritative and majestic in scope *The Age of Reagan* is an unforgettable account of the rebirth and triumph of the American spirit *Is Racial Equality Unconstitutional?* Mark Golub, 2018-02-02 More than just a legal doctrine color blind constitutionalism has emerged as the defining metaphor of the post Civil Rights era Even for those challenging its constitutional authority the language of color blindness sets the terms of debate Critics of color blind constitutionalism are in this sense captured by the object of their critique And yet paradoxically to enact a color blind rule actually requires a heightened awareness of race As such color blind constitutionalism represents a particular form of racial consciousness rather than an alternative to it Challenging familiar understandings of race rights and American law *Is Racial Equality Unconstitutional* explores how current equal protection law renders the pursuit of racial equality constitutionally suspect Identifying hierarchy rather than equality as an enduring constitutional norm the book demonstrates how the pursuit of racial equality historically has been viewed as a violation of white rights Arguing against conservative and liberal redemption narratives both of which imagine racial equality as the perfection of American democracy *Is Racial Equality Unconstitutional* calls instead for a break from the current constitutional order that it may be re founded upon principles of racial democracy **The Rhetoric of Redemption** David A. Bobbitt, 2007-02-16 *The Rhetoric of Redemption* applies Kenneth Burke's theory of guilt purification redemption in a close critical analysis of Martin Luther King Jr's I Have A Dream speech developing and examining the implications of Burke's redemption drama in contemporary public discourse [Religion and Personal Law in Secular India](#) Gerald James Larson, 2001-11-28 Though a directive principle of the constitution a uniform civil code of law has never been written or instituted in India As a result in matters of personal law the segment of law concerning marriage dowry divorce parentage legitimacy wills and inheritance individuals of different backgrounds must appeal to their respective religious laws for guidance or rulings But balancing the claims of religious communities with those of a modern secular state has caused some intractable problems for India as a nation *Religion and Personal Law in Secular India* provides a comprehensive look into the issues and challenges that India faces as it tries to put a uniform civil code into practice Contributors include Granville Austin Robert D Baird Srimati Basu Kevin Brown Paul Courtright Rajeev Dhavan Marc Galanter Namita Goswami Laura Dudley Jenkins Jayanth Krishnan Gerald James Larson John H Mansfield Ruma Pal Kunal M Parker William D Popkin Lloyd I Rudolph Susanne Hoeber Rudolph Sylvia Vatuk and Arvind Verma **Racism** Albert J. Affirmative Action Joan Nordquist,1996 Racial Classification and History E. Nathaniel Gates,1997 Explores the concept of race The term race which originally denoted genealogical or class identity has in the comparatively brief span of 300 years taken on an entirely new meaning In the wake of the Enlightenment it came to be applied to social groups This ideological transformation coupled with a dogmatic insistence that the groups so designated were natural and not socially created gave birth to the modern notion of races as genetically distinct entities The results of this view were the encoding of race and racial hierarchies in law literature and culture How racial categories facilitate social control The articles in the series demonstrate that the classification of humans according to selected physical characteristics was an arbitrary decision that was not based on valid scientific method They also examine the impact of colonialism on the propagation of the concept and note that racial categorization is a powerful social force that is often used to promote the interests of dominant social groups Finally the collection surveys how laws based on race have been enacted around the world to deny power to minority groups A multidisciplinary resource This collection of outstanding articles brings multiple perspectives to bear on race theory and draws on a wider range of periodicals than even the largest library usually holds Even if all the articles were available on campus chances are that a student would have to track them down in several libraries and microfilm collections Providing of course that no journals were reserved for graduate students out for binding or simply missing This convenient set saves students substantial time and effort by making available all the key articles in one reliable source Authoritative commentary The series editor has put together a balanced selection of the most significant works accompanied by expert commentary A general introduction gives important background information and outlines fundamental issues current scholarship and scholarly controversies Introductions to individual volumes put the articles in context and draw attention to germinal ideas and major shifts in the field After reading the material even a beginning student will have an excellent grasp of the basics of the subject Also available individually by volume 1 The Concept of Race in Natural and Social Science 0 8153 2600 9 288 pages 2 Cultural and Literary Critiques of the Concepts of Race 0 8153 2601 7 3 Racial Classification and History 0 8153 2602 5 4 The Judicial Isolation of the Racially Oppressed 0 8153 2599 1 **A Critical Analysis of the Contributions of Notable Black Economists** Kojo A. Quartey,2017-07-05 This book introduces and critically analyzes the achievements of major black economists and their contributions to the realm of economic thought The book begins with a brief overview of the contribution of Africans to philosophy and economic thought and goes on to discuss individuals who have made the most significant contributions to this field There is particular reference to their background and influences including a critical analysis of individual thought Kojo Quartey's book provides an essential supplement to any economic history text **Black Conservative Intellectuals in Modern America** Michael Ondaatje,2010 Chronicles the origins of black conservatism in the United States focusing on three significant policy issues and engages with the ideas of influential black conservatives
