infuriating system of ideas is explained and tested Among the key topics Does humor inform us about reality Do religious extremists know something the rest of us don't What are facts and how can they not matter What happens when confirmation bias meets cognitive dissonance How can we tell whether President Trump is a genius or just dumb lucky Does the Dilbert philosophy discourage the struggle for better workplace conditions How sound is Adams's claim that systems thinking beats goal directed thinking Does Dilbert exhibit a Nietzschean or a Kierkegaardian sense of life Or is it Sisyphean in Camus's sense Can truth be over rated The political side that is out of power is the side that hallucinates the most If there's a serious chance we're living in a Matrix type simulation how should we change our behavior Are most public policy issues just too complex and technical for most people to have an opinion about In politics says Adams it's as if different people watch the same movie at the same time some thinking it's a romantic comedy and others thinking it's a horror picture How is that possible Does logic play any part in persuasion
