Racism Christopher Bates Doob,1993 *Racism* Christopher Bates Doob,1999 **Racism** A. Doob, *Racism* Albert J. Wheeler,2005 Of all mankind's vices racism is one of the most pervasive and stubborn Success in overcoming racism has been achieved from time to time but victories have been limited thus far because mankind has focused on personal economic gain or power grabs ignoring generosity of the soul This bibliography brings together the literature **Race and Racism in the United States** Charles A. Gallagher,Cameron D. Lippard,2014-06-24 How is race defined and perceived in America today and how do these definitions and perceptions compare to attitudes 100 years ago or 200 years ago This four volume set is the definitive source for every topic related to race in the United States In the 21st century it is easy for some students and readers to believe that racism is a thing of the past in reality old wounds have yet to heal and new forms of racism are taking shape Racism has played a role in American society since the founding of the nation in spite of the words all men are created equal within the Declaration of Independence This set is the largest and most complete of its kind covering every facet of race relations in the United States while providing information in a user friendly format that allows easy cross referencing of related topics for efficient research and learning The work serves as an accessible tool for high school researchers provides important material for undergraduate students enrolled in a variety of humanities and social sciences courses and is an outstanding ready reference for race scholars The entries provide readers with comprehensive content supplemented by historical backgrounds relevant examples from primary documents and first hand accounts Information is presented to interest and appeal to readers but also to support critical inquiry and understanding A fourth volume of related primary documents supplies additional reading and resources for research **Race** Douglas A. Blackmon,2019-02-01 In an increasingly polarized political environment the first year of the new president's term will be especially challenging With a fresh mandate however the first year also offers opportunities that may never come again The First Year Project is a fascinating initiative by the Miller Center of the University of Virginia that brings together top scholars on the American presidency and experienced officials to explore the first twelve months of past administrations and draw practical lessons from that history as we inaugurate a new president in January 2017 This project is the basis for a new series of digital shorts published as Miller Center Studies on the Presidency Presented as specially priced collections published exclusively in an ebook format these timely examinations recognize the experiences of past presidents as an invaluable resource that can edify and instruct the incoming president Contributors Michael Eric Dyson Georgetown University Elizabeth Hinton Harvard University Orlando Patterson Harvard University Douglas A Blackmon Georgia State University **The Racial Integration of the American Armed Forces** Geoffrey W. Jensen,2023-02-15 In order to win the Cold War American presidents embraced the mantra of equality of opportunity to justify racial reform efforts within the US military The problem was that equality of opportunity never guaranteed acceptance nor was it designed to In The Racial Integration of the American Armed

Forbes Geoffrey W Jensen clarifies our understanding of the political processes that fundamentally altered the racial composition of the US military Jensen examines nearly thirty years of military integration that unfolded during the Cold War America's racial woes were grist for the propaganda mills in Moscow and their integration effort was intended to curb this assault and protect the nation's image during this largely ideological struggle But integration of the armed forces needed more than just Cold War justification It also required the willingness of the president to lead Military integration occurred as the result of the longstanding tradition of Congress to allow the executive branch to control the staffing and composition of the military While past accounts of the integration of the armed forces have focused on the critical roles played by the burgeoning leadership of the civil rights movement and the Black population Jensen is the first to emphasize the importance of presidential leadership and their staffs Jensen contends that understanding the action and inaction of Cold War presidents and their administrations matters just as much as understanding the efforts of those outside of Washington and the West Wing as it was the presidents who were the ones dictating the pace at which reform was carried out Jensen has carefully situated this story within the milieu of the Cold War the civil rights movement and looming over it all the emergence of Southern resistance to desegregation in the United States Desperately committed to upholding and expanding their vision of white supremacy the South recoiled in horror at the prospect of racially integrating the armed forces From this vantage point Jensen shows how the use of Black military personnel during the Cold War and throughout all American history was not born solely out of humanistic beliefs or desires to improve the social status of the Black community but out of the strategic necessity of winning the war at hand

Cazenave, 2015-11-19 *Conceptualizing Racism* is a provocative book that confronts the language we use to discuss and understand racism Author Noel A Cazenave argues that American social science has since its inception practiced linguistic racial accommodation that blurs our understanding of systemic racism and makes it difficult to effect meaningful change *Conceptualizing Racism* highlights how words matter in racism studies The author traces the history of linguistic racial accommodation through the development of sociology as a discipline and illustrates how it is at play today not only within the discipline but in public life
