*Why Don't You Just Talk to Him?* Kathleen R. Arnold, 2015-08-03 *Why Don t You Just Talk to Him* looks at the broad political contexts in which violence specifically domestic violence occurs Kathleen Arnold argues that liberal and Enlightenment notions of the social contract rationality and egalitarianism the ideas that constitute norms of good citizenship have an inextricable relationship to violence According to this dynamic targets of abuse are not rational make bad choices are unable to negotiate with their abusers or otherwise violate norms of the social contract they are thus second class citizens In fact as Arnold shows drawing from Nietzsche and Foucault s theories of power and arguing against much of the standard policy literature on domestic violence the very mechanisms that purportedly help targets of domestic abuse actually work to compound the problem by exacerbating or ignoring the power differences between the abuser and the abused The book argues that a key to understanding how to prevent domestic violence is seeing it as a political rather than a personal issue with political consequences It seeks to challenge Enlightenment ideas about intimacy that conceive of personal relationships as mutual equal and contractual Put another way it challenges policy ideas that suggest that targets of abuse can simply choose to leave abusive relationships without other personal or economic consequences or that there is a clear and consistent level of help once they make the choice to leave Asking *Why Don t You Just Talk to Him* is in reality a suggestion riven with contradictions and false choices Arnold further explores these issues by looking at two key asylum cases that highlight contradictions within the government s treatment of foreigners and that of long term residents These cases expose problematic assumptions in the approach to domestic violence more generally Exposing major injustices from the point of view of domestic violence targets this book promises to generate further debate if not consensus The

***Colonialism and National Identity*** Paolo Bertella Farnetti, Cecilia Dau Novelli, 2015-09-04 Until the latter part of the twentieth century Italy's colonial past was a largely neglected topic in historical studies Before then only a handful of historians had shown any inclination for rescuing it from the dusty shelves of history to which it had been relegated With a few exceptions most notably Angelo Del Boca not many had the courage to venture into such treacherous territory Colonial studies experienced a resurgence at the start of the new millennium with remarkable progress in the quantity and quality of research along with the wider public's newfound

interest as evidenced by an important conference held in Milan in 2006 and the large audience it attracted This book addresses the relationship between national identity and colonial culture in Italy The centrality of the construction of Otherness in the identity formation of the colonizer has been extensively reported both in Europe and elsewhere and the relevance of colonial heritage has also been attested In Italy however this relationship has been neglected in existing historiography and the colonial experience has traditionally been side lined and marginalized This volume is divided into several sections each organized around an underlying theme Within each theme a broad array of topics and methodologies reflect the authors approach in analysing the role of colonialism in the process of Italian identity formation The rather heterogeneous works contained in this book which attest the vitality and complexity of the debate on Italian colonialism are clustered around one central theme the reconstruction of uncomfortable memories and a past that will not pass which overlap the challenging present circumstances of rigidity racism and rejection As such this book is a work of critical reflection assembled using varied resources and scientific tools in order to shed light on a common past that is still so near and vivid in the minds of Italians but at the same time so denied distorted and forgotten in the collective memory

**Wrestling with Archons** Jonathan Cahana-Blum, 2018-11-15 This book demonstrates that ancient Christian Gnosticism was an ancient form of cultural criticism in a mythological garb It establishes that much like modern forms of critical theory ancient Gnosticism was set on deconstructing mainstream discourses and cultural premises Strains of critical theory dealt with include the Frankfurt School queer theory and poststructural philosophy The book documents how in both ancient Gnosticism and modern critical theories issues that used to serve as premises for discussion or as concepts relegated to the realms of the natural and the given in their respective historical contexts are transformed into objects of contention The main aim of this book is to salvage the historical category of Gnosticism from its present scholarly disavowal if only because Gnosticism when read as a cultural and not only a religious phenomenon presents us an ancient form of culture criticism which would be hard to parallel until post modernity While Hans Jonas remarked many years ago that something in Gnosticism knocks at the door of our Being and of our twentieth century Being in particular by the 21st century global world this something has already entered and lives with us We can thus still benefit from another perspective even if it comes from Mediterranean people who lived almost 2 000 years ago

processes of de colorization and metaphorization By preserving the difference in disciplinary approaches methods and writing styles the volume presents a genuinely interdisciplinary approach to German Studies and is therefore of interest to Germanists as well as to all others engaged in the study and scholarship of German Culture Contributors Christine Achinger Nana Badenberg Helen Cafferty Fatima El Tayeb Gudrun Hentges Uli Linke Andreas Michel Thomas Miller Daniel Purdy Assenka Oksiloff Wendy Sutherland Birgit Tautz Der Band untersucht die Rolle der Farbe in Prozessen der Wahrnehmung und Darstellung ethnischer Unterschiede in der deutschsprachigen Kultur an drei Jahrhundertwenden 1800 1900 2000 Die interdisziplinären Essays von Literaturwissenschaftlern Historikern Anthropologen und Kunsthistorikern bieten Lesarten die sich auf vielfältige Phänomene beziehen und die These unterstreichen daß das Ethnische zunächst überwiegend visuell vorgestellt und versprachlicht wurde bevor es einer zunehmenden Metaphorisierung und Entfremdung unterlag Die angebotenen Deutungsmuster repräsentieren keine kohärente Wahrheit vielmehr sind sie als Symptome unterschiedlicher Wissensformationen d h unterschiedlicher Disziplinen Methoden und Schreibverfahren zu sehen Mit Beiträgen von Achinger Badenberg Cafferty El Tayeb Hentges Linke Michel Miller Purdy Oksiloff Sutherland Tautz
