L. Harriss, 2005 The Black Death The Peasants Revolt The Hundred Years War The War of the Roses A succession of dramatic social and political events reshaped England in the period 1360 to 1461 In his lucid and penetrating account of this formative period Gerald Harriss draws on the research of the last thirty years to illuminate late medieval society at its peak from the triumphalism of Edward III in 1360 to the collapse of Lancastrian rule The political narrative centers on the deposition of Richard II in 1399 and the establishment of the House of Lancaster which was in turn overthrown in the Wars of the Roses Abroad Henry V's heroic victory at Agincourt in 1415 led to the English conquest of northern France lasting until 1450 Both produced long term consequences the first shaped the English constitution up to the Stuart civil war while the second generated lasting hostility between England and France and a residual wariness of military intervention in Europe

Reflecting on the Past, Shaping the Future: Examining Intellectual Property and Technology Law in Africa Bukola Faturoti, Subhajit Basu, 2025-02-12 Besides the abundance of natural resources intellectual property IP and technology have played a significant role in Africa's ongoing economic growth and development Based on these premises this book reflects on the utilisation of both technology and intellectual property in Africa This book brings together expert contributors to examine how Africa can maximise the opportunities afforded by both technology and intellectual property Drawing from various aspects of life the book underscores how Africa has failed to use either technology or intellectual property for its development effectively and proposes some reforms The book explores the intersection of IP and technology in areas such as cultural heritage tax education and agriculture among others While the problem of access and adoption underpins the entire book each chapter offers a different perspective on tackling this issue This book will interest researchers and scholars working in the areas of intellectual property technology law and development in Africa as well as lawmakers policymakers state actors and other stakeholders concerned with the access and adoption of technologies in emerging economies It was originally published as a special issue of the International Review of Law Computers Technology **Public Media**

Piety and Public Funding Axel R. Schäfer, 2012-06-28 How is it that some conservative groups are viscerally antigovernment even while enjoying the benefits of government funding In Piety and Public Funding historian Axel R Schäfer offers a compelling answer to this question by chronicling how in the first half century since World War II conservative evangelical groups became increasingly adept at accommodating their hostility to the state with federal support Though holding to the ideals of church state separation evangelicals gradually took advantage of expanded public funding opportunities for religious foreign aid health care education and social welfare This was especially the case during the Cold War when groups such as the National Association of Evangelicals were at the forefront of battling communism at home and abroad It was evident too in the Sunbelt where the military industrial complex grew exponentially after World War II and where the postwar right would achieve its earliest success Contrary to evangelicals own claims liberal public policies were a boon for not a threat to their own institutions and values The welfare state forged during the New Deal and renewed by the Great Society hastened not hindered the ascendancy of a conservative political movement that would in turn use its resurgence as leverage against the very system that helped create it By showing that the liberal state s dependence on private and nonprofit social services made it vulnerable to assaults from the right Piety and Public Funding brings a much needed historical perspective to a hotly debated contemporary issue the efforts of both Republican and Democratic administrations to channel federal money to faith based organizations It suggests a major reevaluation of the religious right which grew to dominate evangelicalism by exploiting institutional ties to the state while simultaneously brandishing a message of free enterprise and moral awakening
