Restoring The Faith:

Restoring the Faith Edith Waldvogel Blumhofer, 1993 American Pentecostalism began as a culturally isolated sect intent upon announcing the imminence of the world's end. The sect's early millenarian fervor gradually became muted in favor of flag waving patriotism. At the end of the twentieth century it has become an affluent worldwide movement thoroughly entrenched in popular culture. Edith Blumhofer uses the Assemblies of God, the largest classical Pentecostal denomination in the world, as a lens through which to view the changing nature of Anglo Pentecostalism in the United States. She illustrates how the original mission to proclaim the end resulted in the development of Bible schools, the rise of the charismatic movement, and the popularity of such figures as Aimee Semple McPherson, Charles Fox Parham, and David Du Plessis. Blumhofer also examines the sect's use of radio and television and the creation of a parallel Christian culture. **Restoring Faith** Forrest Church, 2009-05-26 During the week following the terrorist attack on September 11, 2001, Americans gathered in unprecedented numbers to seek comfort and guidance from their religious leaders. Regardless of creed, the same questions echoed from the pews: Where can we find God amidst the rubble? How can we answer hate with greater love? Is there hope for peace, or are the trumpets of Armageddon less distant than before? These were the questions ministers, priests, imams, and rabbis had to address from their pulpits. Even as they spoke, the soul map of our nation was being recharted. The preachers' daunting task was to bring hope and direction to a people newly lost. Each of these sermons by some of America's greatest preachers is a testament of hope. Collectively, they rise to the spiritual challenge of our time. □□ □□□, 2018-12-01

Re-visioning Gender in Philosophy of Religion Pamela Sue Anderson,2017-10-24 A passion for justice and truth motivates the bold challenge of Revisioning Gender in Philosophy of Religion Unearthing the ways in which the myths of Christian patriarchy have historically inhibited and prohibited women from thinking and writing their own ideas this book lays fresh ground for re visioning the epistemic practices of philosophers Pamela Sue Anderson seeks both to draw out the salient threads in the gendering of philosophy of religion as it has been practiced and to re vision gender for philosophy today The arguments put forth by contemporary philosophers of religion concerning human and divine attributes are epistemically located yet the motivation to recognize this locatedness has to come from a concern for justice This book presents invaluable new perspectives on the philosopher s ever increasing awareness of his or her own locatedness on the gender often unwittingly given to God the ineffability in both analytic and Continental philosophy the still critical role of reason in the field the aims of a feminist philosophy of religion the roles of beauty and justice the vision of love and reason and a gendering which opens philosophy of religion up to diversity **Christian Faith & Human Understanding** Robert Sokolowski,2006-04 In this collection of essays renowned philosopher Robert Sokolowski illustrates how Christian faith is not
