Selmer Bringsjord,David Ferrucci,1999-09-01 Is human creativity a wall that AI can never scale Many people are happy to admit that experts in many domains can be matched by either knowledge based or sub symbolic systems but even some AI researchers harbor the hope that when it comes to feats of sheer brilliance mind over machine is an unalterable fact In this book the authors push AI toward a time when machines can autonomously write not just humdrum stories of the sort seen for years in AI but first rate fiction thought to be the province of human genius It reports on five years of effort devoted to building a story generator the BRUTUS 1 system This book was written for three general reasons The first theoretical reason for investing time money and talent in the quest for a truly creative machine is to work toward an answer to the question of whether we ourselves are machines The second theoretical reason is to silence those who believe that logic is forever closed off from the emotional world of creativity The practical rationale for this endeavor and the third reason is that machines able to work alongside humans in arenas calling for creativity will have incalculable worth *All the Year Round* ,1863

Shadows of the forgotten Abhishek Tirkey,2023-07-03 **The Western Classical Music Industry in Twenty-First Century China** Weida Wang,2025-03-04 Weida Wang explores how Western classical music WCM has become increasingly popular in China framing the industry as a complex entity intricately embedded within China's political landscape cultural economy and cultural industries Wang highlights how authorities and organisers strive to build powerful brands to support

the industry's growth aiming to tap into the vast domestic market and showcase China's achievements in WCM on the global stage as part of broader cultural diplomacy efforts. The study delves into the mechanisms and underlying logics driving the rapid expansion of the WCM market in contemporary China. With the rise of China's economy since its government's late 1970s economic and political reform, WCM has become a useful tool for showcasing changes to the image of modern and contemporary China. At the same time, a new Chinese middle class following the rapid economic and cultural development in China's coastal cities has also emerged, becoming a substantial demographic involved in the learning, appreciation, and consumption of WCM. Especially in the past 20 years, a new WCM scene has developed quickly and established as an industry in China, one critically enmeshed in both the business and political worlds. Many ground-breaking cultural events have taken place in the last decades. These have shown themselves to be huge forces behind the development of China's domestic and fledgling international classical music aspirations. The book will be valuable for those interested in arts, music management, music industry studies, China studies, cultural and creative industry studies, and ethnomusicology.

Stop & Listen, Volume One, Selected Poems 2011 - 2013 Georgios Andritsos, 2024-05-09. This debut collection of free verse poetry is bold and honest and strikes a chord about certain truths of human existence. The poems have tremendous energy and clarity of perception, often creating vivid and complex pictures of lively, complicated scenes very much in the manner of great writers such as Frank O'Hara and Charles Bukowski. It is social, lyrical, and narrative poetry all at once. Technically, they combine the fluidity of free verse while feeling controlled and precise. The author's love of jazz music and other American writers shines through the text, adding another layer of depth. The poems will surprise you in terms of form or subject matter and the strong sense that emerges from the relationships: a crowded, vivid world with all the senses on board.
