Global History of Runaways Marcus Rediker, Titas Chakraborty, Matthias van Rossum, 2019-07-30 During global capitalism's long ascent from 1600 1850 workers of all kinds slaves indentured servants convicts domestic workers soldiers and sailors repeatedly ran away from their masters and bosses with profound effects A Global History of Runaways edited by Marcus Rediker Titas Chakraborty and Matthias van Rossum compares and connects runaways in the British Danish Dutch French Mughal Portuguese and American empires Together these essays show how capitalism required vast numbers of mobile workers who would build the foundations of a new economic order At the same time these laborers challenged that order from the undermining of Danish colonization in the seventeenth century to the igniting of civil war in the United States in the nineteenth *Armor*, 1999 The magazine of mobile warfare **All Hands**, 1951 **A German Deserter's War Experience** Anonymous, 2020-09-28 *Murdering Wells* G Mitchell, 2017-04-01 When a military deserter robs a mail contractor and leaves him to the mercy of Apache raiders in a remote corner of Arizona the contractor's brother Luke Adison vows to track down those responsible Soon the tables turn however as Luke is captured by the deserters Will he manage to escape and avenge his brother or will he learn the true secret behind the sinisterly named Murdering Wells **The Oxford Companion to American Military History**, **Obstinate Heroism** Steven J. Ramold, 2020-03-15 Despite popular belief the Civil War did not end when Robert E Lee surrendered to Ulysses S Grant at Appomattox Virginia in April 1865 The Confederacy still had tens of thousands of soldiers under arms in three main field armies and countless smaller commands scattered throughout the South Although pressed by Union forces at varying degrees all of the remaining Confederate armies were capable of continuing the war if they chose to do so But they did not even when their political leaders ordered them to continue the fight Convinced that most civilians no longer wanted to continue the war the senior Confederate military leadership over the course of several weeks surrendered their armies under different circumstances Gen Joseph Johnston surrendered his army in North Carolina only after contentious negotiations with Gen William Tecumseh Sherman Gen Richard Taylor ended the fighting in Alabama in the face of two massive Union incursions into the state rather than try to consolidate with other Confederate armies Personal rivalry also played a part in his practical considerations to surrender Gen Edmund Kirby Smith had the decision to surrender taken out of his hands disastrous economic conditions in his Trans Mississippi Department had eroded morale to such an extent that his soldiers demobilized themselves leaving Kirby Smith a general without an army The end of the Confederacy was a messy and complicated affair a far cry from the tidy closure associated with the events at Appomattox *Desertion in the Early Modern World* Matthias van Rossum, Jeannette Kamp, 2016-02-25 Early modern globalization was built on a highly labour intensive infrastructure This book looks at the millions of workers who were needed to operate the ships ports store houses forts and factories crucial to local and global exchange These sailors soldiers craftsmen and slaves were crucial to globalization but were also confronted with the process of globalization themselves They were often migrants who worked directly or indirectly for trading companies merchants and

producers that tried to discipline and control their labour force The contributors to this volume offer an integrated thematic study of the global history of desertion in European Atlantic and Asian contexts By tracing and comparing acts and patterns of desertion across empires economic systems regions and types of workers *Desertion in the Early Modern World* illuminates the crucial role of practices of desertion among workers in shaping the history of imperial and economic expansion in the early modern period

Vietnam's Prodigal Heroes Paul Benedikt Glatz, 2021-01-12 *Vietnam's Prodigal Heroes* examines the critical role of desertion in the international Vietnam War debate Paul Benedikt Glatz traces American deserters' odyssey of exile and activism in Europe Japan and North America to demonstrate how their speaking out and unprecedented levels of desertion in the US military changed the traditional image of the deserter

Wandering Paysanos Ricardo D. Salvatore, 2003-07-15 Provides a radically new interpretation of postcolonial Argentinian history showing how marginalized groups used the resources of the market and state to avoid economic exploitation and government domination

Desertion During the Civil War Ella Lonn, American Historical Association, 1928

Remembering and Disremembering the Dead Floris Tomasini, 2017-08-01 This book is open access under a CC BY 4.0 licence This book is a multidisciplinary work that investigates the notion of posthumous harm over time The question what is and when is death affects how we understand the possibility of posthumous harm and redemption Whilst it is impossible to hurt the dead it is possible to harm the wishes beliefs and memories of persons that once lived In this way this book highlights the vulnerability of the dead and makes connections to a historical oeuvre to add critical value to similar concepts in history that are overlooked by most philosophers There is a long historical view of case studies that illustrate the conceptual character of posthumous punishment that is dissection and gibbeting of the criminal corpse after the Murder Act 1752 and those shot at dawn during the First World War A long historical view is also taken of posthumous harm that is body snatching in the late Georgian period and organ snatching at Alder Hey in the 1990s

Blindfold and Alone John Hughes-Wilson, Cathryn M Corns, 2015-10-29 Three hundred and fifty one men were executed by British Army firing squads between September 1914 and November 1920 By far the greatest number 266 were shot for desertion in the face of the enemy The executions continue to haunt the history of the war with talk today of shell shock and posthumous pardons Using material released from the Public Records Office and other sources the authors reveal what really happened and place the story of these executions firmly in the context of the military social and medical context of the period

Conscripts and Deserters Alan Forrest, 1989-11-23 Between the outbreak of war with Austria in 1792 and Napoleon's final debacle in 1814 France remained almost continuously at war recruiting in the process some two to three million frenchmen a level of recruitment unknown to previous generations and widely resented as an attack on the liberties of rural communities Forrest challenges the notion of a nation heroically rushing to arms by examining the massive rates of desertion and avoidance of service as well as their consequences on French society on military campaigns and the morale of armies on political opinion at home on the social fabric of local villages and on the

Napoleonic dream of bringing about a coherent and centralized state
