Struggles for Political Change in the Arab World Lisa Blaydes, Amr Hamzawy, Hesham Sallam, 2022-10-11 The advent of the Arab Spring in late 2010 was a hopeful moment for partisans of progressive change throughout the Arab world. Authoritarian leaders who had long stood in the way of meaningful political reform in the countries of the region were either ousted or faced the possibility of political if not physical demise. The downfall of long standing dictators as they faced off with strong willed protesters was a clear sign that democratic change was within reach. Throughout the last ten years however the Arab world has witnessed authoritarian regimes regaining resilience, pro democracy movements losing momentum and struggles between the first and the latter involving regional and international powers. This volume explains how relevant political players in Arab countries among regimes, opposition movements and external actors have adapted ten years after the onset of the Arab Spring. It includes contributions on Egypt, Morocco, Kuwait, Saudi Arabia, Syria, Algeria, Sudan, Lebanon, Iraq, Jordan, Yemen and Tunisia. It also features studies on the respective roles of the United States, China, Iran and Turkey vis vis questions of political change and stability in the Arab region and includes a study analyzing the role of Saudi Arabia and its allies in subverting revolutionary movements in other countries.

This new edition takes account of the latest developments in the wake of democratic uprisings in North Africa and the Middle East and sees a much stronger emphasis on the financial crisis, paying particular attention to state finances and stressing the effects of the crisis on political attitudes and forms of participation.

He traces the innovative military technologies and practices that emerged around 1500, exploring the different forms of warfare including dynastic war, religious warfare, raiding warfare and peasant revolt that shaped conflicts during the sixteenth and seventeenth centuries.
