abstraction making simultaneous research difficult while a close exchange between the two disciplines would undoubtedly be desirable not least because of the complementary approach to their object of study This book From Narratology to Computational Story Composition and Back describes an exploratory study in generative modeling a research methodology proposed to address the methodological differences between the two disciplines and allow for simultaneous NT and CSC research It demonstrates how implementing narratological theories as computational generative models can lead to insights for NT and how grounding computational representations of narrative in NT can help CSC systems to take over creative responsibilities It is the interplay of these two strands that underscores the feasibility and utility of generative modeling The book is divided into 6 chapters an introduction followed by chapters on plot fictional characters plot quality estimation and computational creativity wrapped up by a conclusion The book will be of interest to all those working in the fields of narrative theory and computational creativity

A Good Year On Belle Ile en Mer Byron Lehman, Belle le en Mer is a placid jewel off the French coast in the Bay of Biscay Its rocky shores are said to be at times brutal yet surrounded by a brushed blue sea and a clear blue celestial canopy overhead The sandy beaches adorn it like sequins dashed along the fringes of a majestic robe It is neither costumed in opulence nor shrouded in poverty It is gentle and inviting It is a secret place and a place for privacy It is an island that listens and never speaks Its secrets are carried far by the winds and scattered among the swells beyond It is more than the common humble farms modest homes tranquil green pastures gentle sloops and rounded hilltops It is not the small clusters of houses huddled into bergs and villages quietly existing for the sake of trust fidelity and friendship It is all things in concert Like the face of beauty grace and elegance It is a confident smile amid the sea Some say the best things in life are the things not planned and the randomly unexpected Rich Larsen never knew of Belle le en Mer s existence until a few months before his arrival It is there he resides for the next year of his life That year will be like no year he will ever experience again It is far beyond the adventures of the past or the unseen ahead His heart will remain there forever

Atlantic Afterlives in Contemporary Fiction S. Ahlberg, 2016-04-08 Atlantic Afterlives in Contemporary Fiction offers fresh readings of what has been called transatlantic literature In selected twentieth and twenty first century texts it discovers a shift from oceanic place based knowledge to an atmospheric placeless circulation of information Consonant with the displacements of the Information Age this book reads contemporary narrative as it imagines and navigates today s virtual spaces An important conclusion of the book is that intellectual resources are finite and should be used sustainably Thus arguing against a conventional comparative approach this book proposes reading practices that resist the tendency toward an oversupply of reworked literary contexts that seems bent on matching the reach of the World Wide Web Instead the book reimagines place as a practice in the way it is communicated and narrated Ultimately this book empowers the reader to reimagine a future for narrative in the Information Age

The Age of Longing Arthur Koestler, 1961 *Kinship Novels of Early Modern Korea* Ksenia Chizhova, 2021-01-12 The lineage novel flourished in Korea from the late seventeenth to the early

twentieth century These vast works unfold genealogically tracing the lives of several generations New storylines often written by different authors follow the lives of the descendants of the original protagonists offering encyclopedic accounts of domestic life cycles and relationships Elite women transcribed these texts which span tens and even hundreds of volumes in exquisite vernacular calligraphy and transmitted them through generations in their families In Kinship Novels of Early Modern Korea Ksenia Chizhova foregrounds lineage novels and the domestic world in which they were read to recast the social transformations of Chos ŏn Korea and the development of early modern Korean literature She demonstrates women s centrality to the creation of elite vernacular Korean practices and argues that domestic focused genres such as lineage novels commemorative texts and family tales shed light on the emergence and perpetuation of patrilineal kinship structures The proliferation of kinship narratives in the Chos ŏn period illuminates the changing affective contours of familial bonds and how the domestic space functioned as a site of their everyday experience Drawing on an archive of women centered elite vernacular texts Chizhova uncovers the structures of feelings and conceptions of selfhood beneath official genealogies and legal statutes revealing that kinship is as much a textual as a social practice Shedding new light on Korean literary history and questions of Korea s modernity this book also offers a broader lens on the global rise of the novel

Yehuda Amichai Nili Scharf Gold,2019-04-15 Yehuda Amichai is one of the twentieth century s and Israel s leading poets In this remarkable book Nili Scharf Gold offers a profound reinterpretation of Amichai s early works and reconstructs his poetic biography Her close reading of his oeuvre untapped notebooks and a cache of unpublished letters to a woman identified as Ruth Z that Gold discovered convincingly demonstrates how the poet s German past infused his work despite his attempts to conceal it as he adopted an Israeli identity

The Draw of the Alps Richard McClelland,2023-10-24 The Alps have exerted a hold over the German cultural imagination throughout the modern period enthraling writers artists philosophers scientists and tourists alike The Draw of the Alps interrogates the dynamics of this fascination Though philosophical and aesthetic responses to Alpine space have shifted over time the Alps continue to captivate at an individual and collective level This has resulted in myriad cultural engagements with Alpine space as this interdisciplinary volume attests Literature photography and philosophy continue to engage with the Alps as a place in which humans pursue their cognitive and aesthetic limits At the same time individuals engage physically with the alpine environment whether as visitors through the well established leisure industry as enthusiasts of extreme sports or as residents who feel the acute end of social and environmental change Taking a transnational view of Alpine space the volume demonstrates that the Alps are not geographically peripheral to the nation state but are a vibrant locus of modern cultural production As The Draw of the Alps attests the Alps are nothing less than a crucible in which understandings of what it means to be human have been forged
