Longitudes And Attitudes The World In The Age Of Terrorism:

Longitudes and Attitudes Thomas L. Friedman, 2002-09-11 America's leading observer of the international scene on the minute by minute events of September 11 2001 before during and after As the Foreign Affairs columnist for the The New York Times Thomas L Friedman is in a unique position to interpret the world for American readers Twice a week Friedman's celebrated commentary provides the most trenchant pithy and illuminating perspective in journalism Longitudes and Attitudes contains the columns Friedman has published about the most momentous news story of our time as well as a diary of his experiences and reactions during this period of crisis As the author writes the book is not meant to be a comprehensive study of September 11 and all the factors that went into it Rather my hope is that it will constitute a word album that captures and preserves the raw unpolished emotional and analytical responses that illustrate how I and others felt as we tried to grapple with September and its aftermath as they were unfolding Readers have repeatedly said that Friedman has expressed the essence of their own feelings helping them not only by explaining who they are but also by reassuring us about who we are More than any other journalist writing Friedman gives voice to America's awakening sense of its role in a changed world

Representing Jihad Jacqueline O'Rourke, 2012-08-09 The jihad has been at the centre of the West s securitization discourse for more than a decade Theorists constantly use the jihadist as a discursive tool to further their neoliberal military and market agendas perpetuating massive gaps of understanding between the West Muslims and jihadists themselves They are helped by Muslim interlocutors who all too often play the role of good Muslims explaining the motifs of the bad Muslims This timely book argues that Muslim theory and fiction has been significantly commodified to cater to the needs of western ideology It skillfully critiques the ideological contradictions of the debate around the jihadist by offering a comprehensive analysis of Muslim and non Muslim cultural critics Ranging from Edward Said to Slavoj Zizek from Don DeLillo to Orhan Pamuk and from Mohammed Siddique Khan to Osama bin Laden this vastly heterogeneous discourse produces a multi dimensional Muslim response O Rourke examines some of its critical fault lines in postcolonial theory and literary analysis This groundbreaking book argues that the temptation to appropriate the figure of the jihadist offers a fertile area from which to launch a discussion about the limits of current theory

Locating Global Order Bruno Charbonneau, Wayne S. Cox, 2010-10-19 While the events of 9/11 provoked countless debates about international politics security and global order one question dominates Should America don the mantle of empire for the sake of world peace or will peace come through world government This volume questions the very assumptions of this debate that the political order is hierarchical with state and international institutions at the top and groups and individuals at the bottom Case studies dealing with Canada's role in the construction and maintenance of global order both domestically and internationally reveal that the location of social and political practices creating global order is no longer certain Rather than taking the state and international system for granted this book demonstrates that global order post 9/11 is not exclusively American allied powers are a key component of its hegemony **Exile** Belén Fernández, 2019-06-27 Che Guevara left Argentina at 22 At 21 Belén Fernández left the U.S. and didn't look back Alone far off the beaten path in places like Syria and Tajikistan she reflects on what it means to be an American in a largely American made mess of a world After growing up in Washington D.C. and Texas and then attending Columbia University in New York Belén Fernández ended up in a state of self-imposed exile from the United States From trekking through Europe the Middle East Morocco and Latin America to packing avocados in southern Spain to close encounters with a variety of unpredictable men to witnessing the violent aftermath of the 2009 coup in Honduras the international travel allowed her by an American passport has ironically given her a direct view of the devastating consequences of U.S. machinations worldwide For some years Fernández survived thanks to the generosity of strangers who picked her up hitchhiking fed her and offered accommodations then she discovered people would pay her for her powerful unfiltered journalism enabling as of the present moment continued survival In just a few short years of publishing her observations on world politics and writing from places as varied as Lebanon Italy Uzbekistan Syria Mexico Turkey Honduras and Iran Belén Fernández has established herself as one of the most trenchant observers of America's interventions around the world following in the footsteps of great foreign

O'Reilly, 2008-04-07 *Unexceptional America's Empire in the Persian Gulf 1941-2007* examines US policy vis vis the Persian Gulf since the Second World War It asserts that the American experience in this

strategic yet volatile region known for its plentiful oil and gas can be best understood as an unexceptional imperial endeavor similar in kind to that of the British Ottoman and other empires in previous centuries Since 1941 the U S empire in the Gulf has achieved successes such as Operation Desert Storm and the invasion of Iraq Setbacks have included the Iranian Revolution and the ongoing occupation of Iraq Given these and many other events which this book spotlights America s Gulf empire has undergone repeated expansion and contraction a typical imperial pattern The result has been a cycle of waxing and waning U S influence in a critical region of the world Until its occupation of Iraq the United States practiced informal empire in the Gulf rather than colonialism Currently however the formal empire established by the United States in Iraq jeopardizes the overall American position in the Gulf which seemed unassailable in early 2003
