Dictionary of Media and Communication Studies James Watson, Anne Hill, 2015-10-22. The *Dictionary of Media and Communication Studies* has provided students and the general public alike with a gateway into the study of intercultural communication, public relations and marketing communications since 1984. In this 9th edition, James Watson and Anne Hill provide a detailed compendium of the different facets of personal, group, mass media and internet communication that continues to be a vital source of information for all those interested in how communication affects our lives. They cover new applications and developments such as the incorporation of Neuroscience techniques in advertising and marketing. Other updates include Cyber bullying, Twitter scandals, conduct in media organizations, on line lobbying, global protesting, petitioning and gender issues relating to social media in general. While new entries explore the profound shifts that have taken place in the world of communication in recent years, the purpose of this new edition is not necessarily to keep abreast of every new media event but to reflect the trends that influence and prompt such events such as the Leveson Inquiry and Report and phone hacking via mobile phones. Politics seems to be playing out more on Twitter than in *The Times*. This volume seeks to make its twenty first century readers more media literate as well as more critical consumers of modern news.

The nature of communication as a field of study and its relationship to sociology is the subject of this study.

Mass Media in Sub-Saharan Africa Louise M. Bourgault, 1995-06-22. Bourgault, mass communication Northern Michigan U. Marquette analyzes the historical, political, economic, social, cultural and stylistic factors that have shaped media products in African radio, television and newspapers. She investigates the three major influences of the precolonial legacy of the oral tradition, the presence of an alienated managerial class and the domination of African nations by systems based on patronage and looks at recent developments in technology and the move toward privatization.
