The Politics of Adoption Bruno Perreau, 2014-04-25 An argument that French adoption policies reflect and enforce the state's notions of gender parenthood and citizenship In May 2013 after months of controversy France legalized same sex marriage and adoption by homosexual couples Obstacles to adoption and parenting equality remain however many of them in the form of cultural and political norms reflected and expressed in French adoption policies In The Politics of Adoption Bruno Perreau describes the evolution of these policies In the past thirty years Perreau explains political and intellectual life in France have been dominated by debates over how to preserve Frenchness and these debates have driven policy making Adoption policies he argues link adoption to citizenship reflecting and enforcing the postcolonial state's notions of parenthood gender and Frenchness After reviewing the complex history of adoption Perreau examines French political debates over adoption noting among other things that intercountry adoptions stirred far less controversy than the difference between the sexes in an adopting couple He also discusses judicial action on adoption child welfare agencies as gatekeepers to parenthood as defined by experts the approval process from the viewpoints of social workers and applicants and adoption's link to citizenship and its use as a metaphor for belonging Adopting a Foucaultian perspective Perreau calls the biopolitics of adoption pastoral it manages the individual for the good of the collective flock it considers itself outside politics and it considers not so much the real behavior of individuals as an allegorical representation of them His argument sheds new light on American debates on bioethics identity and citizenship

Asian Adoptions in the United States: Congressional Hearing, From Intercountry Adoption to Global Surrogacy Karen Smith Rotabi, Nicole F. Bromfield, 2016-12-12 Intercountry adoption has undergone a radical decline since 2004 when it reached a peak of approximately 45 000 children adopted globally Its practice had been linked to conflict poverty gender

inequality and claims of human trafficking ultimately leading to the establishment of the Hague Convention on Intercountry Adoption HCIA This international private law along with the Convention on the Rights of the Child affirm the best interests of the child as paramount in making decisions on behalf of children and families with obligations specifically oriented to safeguards in adoption practices In 2004 as intercountry adoption peaked and then began a dramatic decline commercial global surrogacy contracts began to take off in India Global surrogacy gained in popularity owing in part to improved assisted reproductive technology methods the ease with which people can make global surrogacy arrangements and same sex couples seeking the option to have their own genetically related children Yet regulation remains an issue so much so that the Hague Conference on Private International Law has undertaken research and assessed the many dilemmas as an expert group considers drafting a new law with some similarities to the HCIA and a strong emphasis on parentage This ground breaking book presents a detailed history and applies policy and human rights issues with an emphasis on the best interests of the child within intercountry adoption and the new conceptions of protection necessary in global surrogacy To meet this end voices of surrogate mothers in the US and India ground discourse as authors consider the human rights concerns and policy implications For both intercountry adoption and global surrogacy the complexity of the social context anchors the discourse inclusive of the intersections of poverty and privilege This examination of the inevitable problems is presented at a time in which the pathways to global surrogacy appear to be shifting as the Supreme Court of India weighs in on the future of the industry there while Thailand Cambodia and other countries have banned the practice all together There is speculation that countries in Africa and possibly Central America appear poised to pick up the multi million dollar industry as the demand for healthy infants continues on
