Looking At Sweden Looking At Other Countries:

Looking at Violence in the Nordic Countries Jukka-Pekka Takala, Yaira Obstbaum, Nordic Council of Ministers, 2009 This report reviews and discusses violence statistics and their problems and possible improvements from various angles The report is based on the work of the statistical subproject of the Nordic Project on Violence Violence and its reduction in the Nordic countries V ld och v ldsreducering i Norden financed by the Nordic Council of Ministers and carried out by the Nordic councils for crime prevention and the Scandinavian Research Council for Criminology The Statistics Subproject was to look at three related but originally separate subprojects of the original overall plan 1 To describe and compare violence with the help of extant statistics 2 To chart variations in violence in the Nordic countries 3 To develop instruments of measuring violence in intimate relations including violence in the family With the resources available the subproject was unable to carry out any of these tasks in a truly systematic and comprehensive manner However we hope that the variable material we were able to produce on all these themes can contribute to better accounting for violence and be of help when devising methods for preventing violence The report describes levels and trends in violence It touches on problems and solutions in their measurement Some suggestions are tentative others are more firmly established and the reader can turn to the research and web pages that are referred to in the reports Gender Equality and Nation Branding in the Nordic Region Eirinn

Larsen, Sigrun Marie Moss, Inger Skjelsbæk, 2021-05-25 This book explores how gender equality a central part of the Nordic imaginary is used in the political communication of Nordic states The analyses presented move beyond conventional images and discourses of Nordic gender and women friendliness by critically investigating how and to what extent gender equality serves nation branding in the Nordic region Nation branding is an unescapable part of globalisation which is a market oriented process dominated by the West and predicated on the creation of winners and losers Hence efforts to strengthen the national brand or reputation of specific Nordic countries with the aid of gender equality as a political and symbolic value inevitably help to reinforce already established global hierarchies where the Nordics play the role of moral superpower This book comprises scholars from various fields of specialisation and provides evidence and understanding for the growing interaction between gender equality policies and nation branding in all five Nordic countries It does so by exploring a variety of policy fields and issues including women s rights foreign policy rape and legislation female quotas and business policies in addition to the index industry The rise of the global indexes has reproduced forceful images of the Nordic countries as frontrunners of gender equality which indeed help the Nordic countries to further position themselves as best at being good This book will be of great interest to students and scholars of Nordic gender equality in political science sociology law criminology political psychology and history as well as those interested in nation branding Nordic studies and exceptionalism The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9781003017134> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license **Cobbett's Parliamentary**

Rosenberg,Harry E. Rubash,John Clohisy,Paul Beaulé,Craig DellaValle,2015-10-13 This two volume set contains comprehensive coverage of management of disorders of the adult hip It includes all arthroscopic and open procedures as well as extensive coverage of equipment and prostheses *A European Strategy for Jobs and Growth* Great Britain: Parliament: House of Lords: European Union Committee,2006-03-16 This report by the European Union Committee examines the progress of the European Union in initiating a strategy for jobs and growth across the Community as a whole The background to this report stems from the Spring European Council meeting in 2000 in Lisbon and the launch of an economic reform agenda The Committee observes that since the Lisbon Agenda little progress has been made and the performance of many of the larger European economies has been poor The Committee has noted that certain worrying signs of protectionist behaviour have developed especially regarding barriers of cross border mergers The EU has recognized this weak performance and the Agenda was relaunched in 2005 with a greater focus on the key economic priorities of more growth and jobs Also all Member States are now required to produce an annual National Action Plan highlighting the policies being pursued to improve economic growth and increase employment The Committee sets out a number of recommendations to further push forward the priorities of growth and jobs including that the Commission should seek to complete the progress towards an internal market that Member States should influence one another in the development of good practice through statistical comparison of their economic progress and agree on quantifiable targets that the format of the National Action Plans should include not only the successes but where countries are underperforming that the Agenda be given a higher public profile *Nordic Cross-border Statistics: The results of the Nordic Mobility project 2016-2020* Brun, Nicola,Ekmark, Sara,Munch Haagensen, Klaus,Harðarson, Ómar,Rustad Holseter, Anne Marie,Nome Næsheim, Helge,Ruotsalainen, Kaija,2021-02-24 Available online <https://pub.norden.org/nord2021/006> Nordic Cross border Statistics were produced in the years 2016 to 2020 as a part of the project Nordic Mobility The project was initiated by the former Finnish Presidency of the Nordic Council of Ministers in 2016 and was funded by the Nordic Council of Ministers All Nordic statistical institutes Statistics Denmark Statistics Iceland Statistics Norway and Statistics Sweden participated in the project which was coordinated by Statistics Finland The project succeeded in producing the first ever systematic collection of Nordic statistics on mobility that includes all five Nordic countries The matrices produced in the project are disseminated in the Nordic Statistics database <https://www.nordicstatistics.org> *Rape in the Nordic Countries* Marie Bruvik Heinskou,May-Len Skilbrei,Kari Stefansen,2019-10-29 The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9780429467608> has been made available under a Creative Commons Attribution NonCommercial No Derivatives 4.0 license While the Nordic countries are listed at the top in most international rankings of gender equality and citizens feelings of security studies on the prevalence of sexual victimisation present a different picture

suggesting that the very countries that have invested much in establishing gender equality actually see a high prevalence of sexual violence This book sheds light on the phenomenon and construction of rape and other forms of sexual violence within the Nordic region exploring the ways in which rape and sexual violence are dealt with through criminal law and considering governmental policies aimed at combatting it with a special focus on legal regulations and developments Thematically organised it offers new research on perpetrators victimhood criminal justice and prevention Multi disciplinary in approach it brings together the latest work from a range of scholars to offer insights into the situation in the five Nordic countries asking how and why rape and other forms of sexual violence occur whilst also addressing the timely issues of online sexual cultures BDSM and the grey areas of sexual offences As such it will appeal to scholars of sociology criminology and law with interests in gender and sexual violence

Perception of the Nordic Countries Patrick Spaven,2008 *Economic and Medical Evaluation of Health Care Technologies* A. J. Culyer,B. Horisberger,2012-12-06 All too frequently the largest effective barrier to interdisciplinary communication is jargon The symposium whose proceedings appear in the following pages sought of course to eliminate unnecessary and obscurantist jargon but it sought also to do something far more ambitious to confront the intellectual issues that are attached to the use of the word evaluation in medicine and health services To this end a carefully selected group of experts in medicine epidemiology and health economics was invited to present papers They were selected for their reputations either as conceptualizers or as empirical evaluators or the rarest breed of expert as both The context was to be empirical Three procedures were selected that had been subject to evaluation but that posed rather different types of problem The first was the treatment of renal failure by dialysis of various kinds This has a relatively long history of evaluation with a large literature and particularly raises broad policy issues within the health services of Western societies as to the size of programmes to be provided the type location and mix of treatments the selection of patients to receive treatment and the measurement of the success of various strategies The second was the treatment of duodenal ulcer by a new species of drug the histamine H₂ receptor antagonists specifically cimetidine

Subcommittee on Census and Population,1985 *Milestones in European Housing Finance* Jens Lunde,Christine Whitehead,2016-01-08 This book provides evidence on how housing finance markets developed across Europe The objective of the text is to bring together up to date material from across Europe which will help to clarify i how national housing finance markets have dealt with the challenges of deregulation and privatisation since the 1980s ii how the financial crisis has impacted on the structure of the industry and the range of financial instruments

available iii how governments and the EU have responded to increasing risks and higher indebtedness in most West European countries and the need to grow new finance markets in Eastern Europe and iv how changing housing finance markets impact on the capacity to provide adequate affordable housing into the future International Macroeconomics in the Wake of the Global Financial Crisis Laurent Ferrara, Ignacio Hernando, Daniela Marconi, 2018-06-13 This book collects selected articles addressing several currently debated issues in the field of international macroeconomics They focus on the role of the central banks in the debate on how to come to terms with the long term decline in productivity growth insufficient aggregate demand high economic uncertainty and growing inequalities following the global financial crisis Central banks are of considerable importance in this debate since understanding the sluggishness of the recovery process as well as its implications for the natural interest rate are key to assessing output gaps and the monetary policy stance The authors argue that a more dynamic domestic and external aggregate demand helps to raise the inflation rate easing the constraint deriving from the zero lower bound and allowing monetary policy to depart from its current ultra accommodative position Beyond macroeconomic factors the book also discusses a supportive financial environment as a precondition for the rebound of global economic activity stressing that understanding capital flows is a prerequisite for economic policy decisions

Everyday Eating in Denmark, Finland, Norway and Sweden Jukka Gronow, Lotte Holm, 2019-04-18 The chapters in this volume concentrate on the mundane and ordinary eating practices of the everyday showing how these are linked to change in modern society The contributors present a collection of systematic empirical results from a unique study based on representative samples of four Nordic populations Denmark Finland Norway and Sweden conducted at two time points 15 years apart The results of this unprecedented longitudinal survey leads the contributors to question many commonly held beliefs about the presumed and feared collapse of the traditional eating habits family meals and regular meal patterns As the social organization of eating is in many ways related to developments in other social institutions such as family education and work chapters provide interesting insights into contemporary society with key topics selected for scrutiny including gender food types diet and health and cooking practices Additionally the chapters highlight changes in the gendering of food practices and signs of increasing informality around meals Statecraft and Liberal Reform in Advanced Democracies Nils Karlson, 2017-09-04 This book explains how advanced democracies and welfare states can achieve welfare enhancing liberal institutional reform It develops a general theory based on an extended comparative case study of Sweden and Australia over the last 25 years and offers an in depth contribution to the field of institutional change explaining how to govern a country well and how to overcome different barriers to reform such as special interests negativity biases and media logic It develops the concepts of the reform cycle reform strategies and polycentric experiential learning in order to explain successful reforms and the key role of policy entrepreneurs who introduce and develop new ideas The book further examines why these reforms came to an end Karlson also applies the ideas of Popperian Kuhnian and Machiavellian reform strategies and

explains why they are needed for reform to come about The theory of modern statecraft presented here involves a combination of knowing what and knowing how It has the potential to be generally applicable in any advanced democracy with the ambition to improve its economy and society This book is of interest for anyone who is concerned about budget deficits slow growth over regulation lack of structural reforms and the rise of populism It will appeal to scholars of political science public policy and political economy The Census and Social Science Great Britain: Parliament: House of Commons: Science and Technology Committee,2012-09-21 The Committee undertook an inquiry to consider the use of the data from the census by the Government whether there were elements of the census that would be irreplaceable by other means and if the business of Government would be seriously impacted if census data was lost or changed The Committee is concerned that there is no chief advisor as with other sciences or a Minister who could answer for Government as a whole whether social science provision was adequate and whether the data from the census and other sources was fit for purpose The key disadvantage of the census is the timeliness of the data Yet census data provides a snapshot of the whole country at a moment in time It enables detection of trends in the recent past allows comparisons to be made of different areas in the country more accurately and provides a means to recruit to longitudinal studies Good use is being made of non census surveys to provide equivalent data in a number of areas in a much shorter timescale but these do not have the same breadth as the census and do not provide a national coverage or standard Social science could suffer if the census was to be discontinued without serious consideration as to how this data would be replaced Though the absence of a census would also potentially stimulate a considerable amount of innovation in social science and examination of how to produce social data of an equivalent standard **DK Eyewitness Travel Guide Sweden** DK Travel,2017-01-17 DK Eyewitness Travel Guide Sweden will lead you straight to the best attractions this breathtaking country has to offer Explore this beautiful Scandinavian country region by region from local festivals and markets to day trips around the countryside Visit Stockholm Palace stroll through the medieval Gamla Stan go island hopping on the enchanting Bohuslän Coast and experience the midnight sun of Europe's last wilderness Discover DK Eyewitness Travel Guide Sweden Detailed itineraries and don't miss destination highlights at a glance Illustrated cutaway 3 D drawings of important sights Floor plans and guided visitor information for major museums Guided walking tours local drink and dining specialties to try things to do and places to eat drink and shop by area Area maps marked with sights Detailed city maps each include a street finder index for easy navigation Insights into history and culture to help you understand the stories behind the sights Hotel and restaurant listings highlight DK Choice special recommendations With hundreds of full color photographs hand drawn illustrations and custom maps that illuminate every page DK Eyewitness Travel Guide Sweden truly shows you what others only tell you
