Look Back in Hope Keith W. Clements, 2017-07-07 A child of China missionary parents Keith Clements looks back on a life rich in diverse experiences in many parts of the world as pastor theologian writer and servant of the ecumenical movement In so doing he finds hope for the creation of true community in the world of people among themselves with God and with creation That is what the gospel of Christ is all about what the church is about and indeed what God who lives and loves as three in one is all about He recalls instances of grace in which even amid conflict and tragedy people churches and communities discover the possibilities of new life together It is both a very human story of personal faith and an insider's account of ecumenical Christianity's quest for a more visibly united church and a world of peace and justice Famous influences like Dietrich Bonhoeffer and present day leaders such as Desmond Tutu figure prominently but so do so called ordinary people he has met over the years whether in an English village in communist East Germany or in a South African squatter camp who have shown by the way they live that another world and another kind of church is possible **Looking**

CORRUPT SCIENCE PSJ (Peet) Schutte, 2013-07-17 Modern science or what I call Newtonian science is altogether wrong Nothing can stand still in the Universe and remain a part of the Universe The Universe is the movement thereof Everything in the Universe has to move should it wish to be and everything in the Universe moves and in circles but everything moves There is no mass but only movement and movement is gravity and gravity is time forming space But how does this system work and how does this system form an entire Universe as big as the one we have Read this and see how the Universe is truly stitched together by nature and not by Newton's fantasy It works exactly as Kepler said it does in the tables Kepler left us to study Space by three forms a circle by two that moves straight by one and that forms the six sided Universe we enjoy as a reality *EXPOSING CORRUPT SCIENCE* PSJ (Peet) Schutte, Modernism, History and the First World War Trudi
