**The Role of Multinational Companies in the Middle East** Mamarinta P. Mababaya,2002 This study investigated whether known economic and international business theories available in the literature are meaningful enough to explain the nature existence and role of multinational companies MNCs in the Middle East particularly Saudi Arabia Two sets of questionnaires were distributed in major cities of Saudi Arabia one set for 100 multinational managers and another for 280 multinational customers 234 questionnaires were collected 45 from multinational managers and 189 from customers This represents a total response rate of 62 percent which is adequate for this study The empirical results supported with comprehensive secondary data confirmed virtually all of the research hypotheses The study found that joint ventures are the dominant form of multinational business in Saudi Arabia both in manufacturing and service industries The core roles of MNCs in the Saudi foreign ventures are evident in the cross border value adding activities of marketing trading manufacturing consulting contracting project management insurance hotel operation and banking Likewise MNCs provide licensing franchising financing services and various auxiliary roles in the Kingdom Therefore the multinationality of a firm or a group of firms operating across national boundaries is not necessarily synonymous with international production the main subject of contemporary multinational theories The respondents generally perceived the competitiveness of MNCs operating in Saudi Arabia as a function of a number of economic management marketing technological and other variables They also perceived the contributions of MNCs to the Kingdom s socio economic developments as significant and positive The study also found that understanding Islamic values and ethics is important for MNCs In this regard the researcher looked at some objective indicators of business success and related them to selected measures of MNCs local cultural awareness and responsiveness The results indicate that the business success of multinationals operating in Saudi Arabia is positively related to their local cultural awareness and responsiveness Along this line this study covers some vital elements of Islamic culture which will help MNCs understand further the cultural needs values and sensitivities of the Saudi people and Muslims in general

International Business Success in a Strange Cultural Environment Mamarinta P. Mababaya,2003 The book focuses on the cultural aspect of the author s published PhD thesis entitled The Role of Multinational Companies in the Middle East The Case of Saudi Arabia which he has carried out at the University of Westminster It explores the success of multinational enterprises doing business in Saudi Arabia vis vis their cultural awareness and responsiveness The empirical findings discussed in this book reveal that international business success in a strange cultural environment depends partly on the ability of multinational managers to understand the local culture The cultural subject in this book pertains to Islam in its entirety The findings may seem strange to many readers who are not familiar with Islamic culture in its purest form Many newcomers to Saudi Arabia especially non Muslim foreign investors businessmen and workers often find many things strange about the Kingdom its people and cultural values Some feel it odd that many Muslims give more importance to prayer than business Some are disappointed when they find commercial establishments like shopping centres closed as Muslim workers go to the mosques to attend to their daily prayers Business visitors find strange the fact that in the midst of their meetings with their Saudi or Muslim counterparts the latter excuse themselves for prayer They have these strange feelings due to their lack of understanding of true Islamic culture The cultural aspect of this book will help businessmen and concerned institutions worldwide gain understanding of Islam and reconcile their cultural differences with the Muslim world Through this book international companies will be able to have a better understanding of authentic Islamic culture which will help them gain greater competitive advantages in the Saudi marketplace

*New Media and Revolution* Billie Jeanne Brownlee,2020-07-16 The Arab Spring did not arise out of nowhere It was the physical manifestation of more than a decade of new media diffusion use and experimentation that empowered ordinary people during their everyday lives In this book Billie Jeanne Brownlee offers a refreshing insight into the way new media can facilitate a culture of resistance and dissent in authoritarian states Investigating the root causes of the Syrian uprising of 2011 *New Media and Revolution* shows how acts of online resistance prepared the ground for better organised street mobilisation The book interprets the uprising not as the start of Syria s social mobilisation but as a shift from online to offline contestation and from localised and hidden practices of digital dissent to tangible mass street protests Brownlee goes beyond the common dichotomy that frames new media as either a *deus ex machina* or a means of expression to demonstrate that in Syria media was a nontraditional institution that enabled resistance to digitally manifest and gestate below within and parallel to formal institutions of power To refute the idea that the population of Syria was largely apathetic and apolitical prior to the uprising Brownlee explains that social media and technology created camouflaged geographies and spaces where individuals could protest without being detected Challenging the myth of authoritarian stability *New Media and Revolution* uncovers the dynamics of grassroots resistance blossoming under the radar of ordinary politics

The Financial Markets of the Arab Gulf Jean Francois Seznec,Samer Mosis,2018-11-13 Financial markets across the Arabian Peninsula have gone from being small quasi medieval structures in the 1960s to large world class groupings of financial institutions This evolution has been fueled by vast increases in income from oil and natural gas *The Financial Markets of the Arab Gulf* presents and analyzes the banks stock markets investment companies money changers and sovereign wealth funds that have grown from this oil wealth and how this income has acted as a buffer between Gulf society at large and the newfound cash reserves of Gulf Cooperation Council states Saudi Arabia the United Arab Emirates Qatar Kuwait Oman and Bahrain over the last fifty years By assessing the development of institutions like the Abu Dhabi Investment Authority the Saudi Arabian Monetary Authority the Public Investment Fund and the National Bank of Kuwait *The Financial Markets of the Arab Gulf* evaluates the growth of the markets and provides a detailed critical

snapshot of the current form and function of the Gulf's financial markets. It argues that the markets have been controlled by various state institutions for socio-political reasons. In particular, the Saudi state has used its sophisticated regulatory regime to push for industrialization and diversification which culminated in the Vision 2030 plan. The UAE, Qatar, Kuwait, Bahrain, and Oman have also been strongly involved in establishing modern markets for similar purposes but have done so through different means with varying results and each in line with what has been considered their respective comparative advantages. Along with critically surveying these institutions and their role in global finance, the book also presents case studies depicting transactions typical to the region, including the highly profitable documentary credits of commercial banks, the financial scandal of certain financiers and their regulatory arbitrage between Bahrain and Saudi Arabia, a review of the Dubai's trade miracle, and an assessment of the value and importance of the privatization of Saudi Aramco.

**Brazil: Agricultural Production And Trade Prospects , Beyond the Handshake** Dalia Dassa Kaye, 2012-08-14. Arabs and Israelis have battled one another in political and military arenas seemingly continuously for some fifty years. The 1991 Madrid Peace Conference sought to change this pattern, launching bilateral and multilateral tracks in the Arab-Israeli peace process. As a result, a broad group of Arab states sat down with Israel and began to cooperate on a wide range of regional issues in what became known as the Middle East multilaterals. Yet why did enemies reluctant even to recognize one another choose to cooperate on regional problems? And once this process began, what drove the parties to continue such cooperation or in some cases halt their cooperative efforts? *Beyond the Handshake* addresses these fundamental questions, exploring the origins of the multilaterals and the development of multilateral cooperation in the areas of arms control and regional security, economic development, water management, and the environment. Dalia Dassa Kaye, challenging conventional concepts of cooperation, argues that multilateral cooperation in the Middle East must be appreciated as a process of interaction rather than solely as a set of outcomes. Presenting theoretical insights of value to students of regional and international relations, *Beyond the Handshake* provides a unique look at the evolving nature of Arab-Israeli relations and exposes the foundation of the multilateral peace process laid for future regional cooperation in the Middle East.
