Mission and Context Jione Havea, 2020-06-30 Mission is contrived from and performed over lived contexts but the visions that guide and drive mission are oftentimes blinded by power position protection and plenitude This collection visits those matters with queering attention to the shadows that empires cast over the contexts of mission and to the collusion and complicity of Christians and churches with empires past as in the case of Rome and present as in the case of the United States of America In the interests of those in mission fields who survived but continue to agonize under the burdens of empires the contributors to this work dare to re-vision the course and cause of mission Writing from minoritized settings in Africa Asia the Americas and Oceania the authors interweave the principles and practices of mission with the opportunities in decolonial theology and hermeneutics minoritized and migrant Christologies repatriation and the courage to
