Mission San Xavier Del Bac A Guide To Its Iconography:

Mission San Xavier Del Bac Yvonne Lange, 2004-11 A guide to the iconography of San Xavier Mission identifies devotional representations and determines the organizational concepts underlying their placements in the Spanish mission church south of Tucson Arizona examining the sculpture on the facade and inside along with furnishings such as altars and altarpieces and their accompanying imagery and paintings in fresco and on canvas *Mission San Xavier del Bac* Yvonne Lange, Richard E. Ahlborn, 2004-11-01 Unique among mission churches of the northern borderlands of colonial Mexico for its ornate architecture and rich iconography San Xavier del Bac south of Tucson is a pilgrimage destination for countless devotees and tourists Passing through the facade entry to stand in the nave one is dazzled by the transept and sanctuary altarpieces of sculpture niches and baroque pilasters as well as the expanse of the frescoed ceiling This book is the first study of the iconography at San Xavier since its restoration in the 1990s by an international team of professional conservators It expands our understanding of the numerous Catholic images and emblems of San Xavier through a close analysis of the newly revealed iconographic elements and an interpretation of the significance of their placement It also proposes that the selection of specific religious themes and their locations was determined by an unfamiliar convention based on a tree like design in which the founder of a religious Order appears as the root and followers above in later branchings an inversion of the more familiar top to bottom hierarchy Historians Lange and Ahlborn identify all the saintly images and religious elements that adorn San Xavier and suggest how and why they are so arranged They examine the sculptures and paintings of the church from the facade throughout the cruciform interior in order to determine the organizational concepts that underlie their placement They note that the selection of images in this Franciscan mission follows traditional Roman Catholic practice for decorating churches in order to instruct novices and reinforce the teaching of conversion in a pictographic catechism of Church doctrine In short the book is a dictionary of religious personages and symbols that will help the visitor identify the biblical stories and people portrayed as well as associated signs and symbols Entries include a description of the subject its location appropriate cross references and a bibliography Recent illustrations by photographer Helga Teiwes and a floor plan facilitate the location of images by visitors A handsome large format book featuring more than one hundred photographs and supporting line illustrations Lange and Ahlborn's work confirms the significance of San Xavier's iconography for art historians students of religion and visitors alike It is both an incomparable guide and valuable reference source for the famed mission's magnificent artistic heritage [A Gift of Angels](#) ,2010-09-20 It rises suddenly out of the Sonoran Desert landscape towering over the tallest tree or cactus a commanding building with a sensuous dome elliptical vaults and sturdy bell towers There is nothing else like it around nor does it seem there should be This incongruity of setting is what strikes first time visitors to Mission San Xavier del Bac This great church is of another place and another time while its beauty is universal and timeless Mission San Xavier del Bac is a two century old Spanish church in southern Arizona located just a few miles from

downtown Tucson a metropolis of more than half a million people in the American Southwest A National Historic Landmark since 1963 the mission's graceful baroque art and architecture have drawn visitors from all over the world Now Bernard Fontana the leading expert on San Xavier and award winning photographer Edward McCain team up to bring us a comprehensive view of the mission as we've never seen it before With 200 stunning full color photographs and incisive text illuminating the religious historical and motivational context of these images A Gift of Angels is a must have for tourists scholars and other visitors to San Xavier From its glorious architecture all the way down to the finest details of its art Mission San Xavier del Bac is indeed a gift of angels

Sanctuaries of Earth, Stone, and Light Gloria Fraser Giffords, 2022-08-23 Over nearly three centuries Jesuit Franciscan and Dominican missionaries built a network of churches throughout the new world of New Spain Since the early twentieth century scholars have studied the colonial architecture of southern New Spain but they have largely ignored the architecture of the north However as this book clearly demonstrates the colonial architecture of Northern New Spain an area that encompasses most of the southwestern United States and much of northern Mexico is strikingly beautiful and rich with meaning After more than two decades of research both in the field and in archives around the world Gloria Fraser Giffords has authored the definitive book on this architecture Giffords has a remarkable eye for detail and for images both grand and diminutive Because so many of the buildings she examines have been destroyed she sleuthed through historical records in several countries and she discovered that the architecture and material culture of northern New Spain reveal the influences of five continents As she examines objects as large as churches or as small as ornamental ceramic tile she illuminates the sometimes subtle sometimes striking influences of the religious social and artistic traditions of Europe from the beginning of the Christian era through the nineteenth century of the Muslim countries ringing the Mediterranean from the seventh through the fifteenth centuries and of Northern New Spain's indigenous peoples whose art influenced the designs of occupying Europeans Sanctuaries of Earth Stone and Light is a pathbreaking book featuring 200 stunning
