Lawrence, 2013-09-16 During the first half of the twentieth century movements seeking political equality emerged in France's overseas territories Within twenty years they were replaced by movements for national independence in the majority of French colonies protectorates and mandates In this pathbreaking study of the decolonization era Adria Lawrence asks why elites in French colonies shifted from demands for egalitarian and democratic reforms to calls for independent statehood and why mass mobilization for independence emerged where and when it did Lawrence shows that nationalist discourses became dominant as a consequence of the failure of the reform agenda Where political rights were granted colonial subjects opted for further integration and reform Contrary to conventional accounts nationalism was not the only or even the primary form of anti colonialism Lawrence shows further that mass nationalist protest occurred only when and where French authority was disrupted Imperial crises were the cause not the result of mass protest Paradise Past Robert W. Kirk, 2012-11-07 In the 400 years from Magellan's entrance into Pacific waters to 1920 the lives of the people of the South Pacific were utterly transformed Exotic diseases from Europe and America particularly the worldwide influenza pandemic were deadly for islanders Ardent missionaries changed the belief systems and lives of nearly all Polynesians Aborigines and those Papuans

and Melanesians living in areas accessible to westerners By 1920 every island and atoll in the South Seas had been claimed as a colony or protectorate of a power such as Britain France or the United States Factors aiding this imperial sweep included European outposts such as Sydney advances in maritime technology the work of missionaries a desire to profit from the area's relatively sparse resources and international rivalry that led to the scramble for colonies The coming of westerners as this book points out was not entirely negative as head hunting cannibalism chronic warfare human sacrifice and other practices were diminished but whole cultures were irreversibly changed or even eradicated The French Imperial Nation-State Gary Wilder, 2020-05-08 France experienced a period of crisis following World War I when the relationship between the nation and its colonies became a subject of public debate The French Imperial Nation State focuses on two intersecting movements that redefined imperial politics colonial humanism led by administrative reformers in West Africa and the Paris based Negritude project comprising African and Caribbean elites Gary Wilder develops a sophisticated account of the contradictory character of colonial government and examines the cultural nationalism of Negritude as a multifaceted movement rooted in an alternative black public sphere He argues that interwar France must be understood as an imperial nation state an integrated sociopolitical system that linked a parliamentary republic to an administrative empire An interdisciplinary study of colonial modernity combining French history colonial studies and social theory The French Imperial Nation State will compel readers to revise conventional assumptions about the distinctions between republicanism and racism metropolitan and colonial societies and national and transnational processes <u>Uncivil War</u> James D. Le Sueur, 2021-10-19 Uncivil War is a provocative study of the intellectuals who confronted the loss of France's most prized overseas possession colonial Algeria Tracing the intellectual history of one of the most violent and pivotal wars of European decolonization James D Le Sueur illustrates how key figures such as Albert Camus Jean Paul Sartre Simone de Beauvoir Germaine Tillion Jacques Soustelle Raymond Aron Claude L vi Strauss Albert Memmi Frantz Fanon Mouloud Feraoun Jean Amrouche and Pierre Bourdieu agonized over the Algerian question As Le Sueur argues these individuals and others forged new notions of the nation and nationalism giving rise to a politics of identity that continues to influence debate around the world This edition features an important new chapter on the intellectual responses to the recent torture debates in France the civil war in Algeria and terrorism since September 11 **Children of the French Empire** Owen White,1999-11-25 This book vividly recreates the lives of the children born of relationships between French men and African women from the time France colonized much of West Africa towards the end of the nineteenth century until independence in 1960 Set within the context of the history of miscegenation in colonial French West Africa the study focuses upon the lives and identities of the resulting mixed race or m tis population and their struggle to overcome the handicaps they faced in a racially divided society Owen White has drawn a valuable evaluation of the impact and importance of French racial theories and offers a critical discussion of colonial policies in such areas as citizenship and education providing original insights into problems of identity
