Mission With Unifil An African Soldiers Reflections:

Mission with UNIFIL Emmanuel A. Erskine, 1989 **Peacekeeping Under Fire** Robert A. Rubinstein, 2015-11-17 The international community increasingly responds to civil wars humanitarian crises and other intrastate conflicts through the instrument of UN peacekeeping Nearly all of these interventions take place in non Western areas and involve interactions among militaries and nongovernmental organizations from all around the globe In this wide ranging book Rubinstein draws on decades of his own research on peacekeeping and on other current and historical cases to develop a broad understanding of the roles that culture plays in peacekeeping s success or failure Peacekeeping under Fire shows that cultural considerations are key elements at all levels of peacekeeping operations Culture influences what happens between peacekeepers and local populations how military and nongovernmental organizations interact and even how missions are planned and authorized Peacekeeping under Fire analyzes how political symbolism and ritual are critical to peacekeeping and demonstrates how questions of power identity and political perception emerge from the cultural context of peacekeeping

The Abongo Abroad John V. Clune, 2017-07-19 Blending African social history with US foreign relations John V Clune documents how ordinary people experienced a major aspect of Cold War diplomacy The book describes how military sponsored international travel especially military training abroad and United Nations peacekeeping deployments in the Sinai and Lebanon altered Ghanaian service members and their families during the three decades after independence in 1957 Military assistance to Ghana included sponsoring training and education in the United States and American policymakers imagined that national modernization would result from the personal relationships Ghanaian service members and their families would forge As an act of faith American military assistance policy with Ghana remained remarkably consistent despite little evidence that military education and training in the United States produced any measurable results Merging newly discovered documents from Ghana s armed forces and declassified sources on American military assistance to Africa this work argues that military sponsored travel made individual Ghanaians outlooks on the world more international just as military assistance planners hoped they would but the Ghanaian state struggled to turn that new identity into political or economic progress

NATO and Peace Support Operations, 1991-1999 Henning A. Frantzen, 2004-12-17 This new book addresses the key question of how NATO and three of its member states are configuring their policies and military doctrines in order to handle the new strategic environment This environment is increasingly dominated by new wars more precisely civil wars within states and peacekeeping as the strategy devised by outside actors for dealing with them The book seeks to explain how this new strategic environment has been interpreted and how the new conflicts and peacekeeping have been fitted into defence and war key concepts in the field of security studies

The Palestine Yearbook of International Law, 1989 A. F. Kassim, 1997-02-01 The Palestine Yearbook of International Law is a well established yearbook which was previously published by the Al Shaybani Society of International Law Kluwer Law International will be publishing the Yearbook from the eighth volume onwards and will also manage the distribution of the previous seven volumes The Palestine

Yearbook of International Law has become widely respected as a prime reference source of legal material relating to Palestinian issues and is an important forum for the international legal community particularly for legal practitioners researchers and scholars In addition to leading articles on topical problems and issues it contains key legislation court decisions and other relevant legal material translated from the original Arabic or Hebrew into English UN Peacekeeping Operations and the Protection of Civilians Conor Foley,2017-09-07 This book is based on the author s experience of working for more than two decades in over thirty conflict and post conflict zones It is written for those involved in UN peacekeeping and the protection of civilians It is intended to be accessible to non lawyers working in the field who may need to know the applicable legal standards relating to issues such as the use of force and arrest and detention powers on the one hand and the delivery of life saving assistance according to humanitarian principles on the other It will also be of interest to scholars and students of peacekeeping international law and international relations on the practical dilemmas facing those trying to operationalise the various conceptions of protection during humanitarian crises in recent years *The Burden of Collective Goodwill* Abiodun Alao,2017-07-05 The book is the first to discuss in detail the extensive external involvement in the Liberian civil war a war that claimed up to 200 000 lives created a massive refugee crisis and brought West Africa to the tribunal of international attention The book is conceived against the background that the international response to the conflict has features that are unprecedented in the management of civil conflicts in the post cold war era For example the regional peacekeeping mission was the first after the end of the cold war while the dispatch of UN Observer mission was the first ever joint peacekeeping mission between the UN and a regional organisation The extensive involvement of international organisations in the conflict has not been witnessed in the region since the Biafran war of 1967 1970 **Yanks in Blue Berets** L. Scott Lingamfelter,2023-07-04 In 1948 the United Nations launched the United Nations Truce Supervision Organization following the conflict that erupted between Israel and its Arab neighbors who profoundly opposed the creation of a Jewish state UNTSO quickly found itself overseeing the ceasefire lines between combatant parties In the ensuing decades as countries along the eastern Mediterranean engaged in a series of escalating military conflicts UNTSO was continually challenged in its peacekeeping mission often having to alter its configuration Matters came to a head in 1982 when Israel invaded Lebanon for a second time calling into question the efficacy of UN peacekeeping operations and US support for them In *Yanks in Blue Berets* American UN Peacekeepers in the Middle East retired US Army colonel and former UN military observer L Scott Lingamfelter chronicles the role of the US military in UN Middle East peacekeeping operations Framed by his personal experiences the book examines the difficulties faced by UN forces wedged between warring sides with limited trust in their authority as well as the challenging dichotomy of a soldier trained for combat yet immersed in unarmed peacekeeping *Yanks in Blue Berets* is a boots on the ground perspective of the building Arab Israeli tensions and geopolitics preceding the 1982 invasion of Lebanon Governing Insecurity Gavin Cawthra,Robin Luckham,2003-04 The

authors of this volume explore the challenges of establishing democratic accountability and control over the military and other security establishments in countries which have either been the victims of authoritarian military rule or wracked by violent internal conflict The book examines both successful democratic transitions and failed ones A wide range of cases is covered including Algeria Bosnia and Herzegovina Chile the Congo Ghana Nigeria Sierra Leone South Africa Sri Lanka and Turkey The possible role of regional interventions and institutions notably in West Africa and the Balkans is also examined

International Peacekeeping Paul F. Diehl, 1993-07-01 In *International Peacekeeping* Paul Diehl examines the recent record of United Nations peacekeeping forces and develops criteria for assessing their operations His analysis provides useful guidance for the management of new hostilities in areas such as Central and Eastern Europe where the dissolution of the Soviet Union has spawned bitter civil wars and dangerous border disputes The paperback edition includes a new epilogue in which Diehl examines peacekeeping operations in Bosnia Somalia and Cambodia

African Democratization and Military Coups Chuka Onwumehili, 1998-10-30 Onwumehili provides an exciting perspective on African military coups and reminds us that democracy is not synonymous solely with Western societies He examines democracies in traditional Africa and shows how these societies clearly defined and limited the roles of traditional African armies From this background Onwumehili makes readers appreciate that modern African armies are deviant institutions with no roots in traditional Africa Rather he argues one has to seek those roots in Africa's recent colonial history Dr Onwumehili goes on to describe the reasons for coups and their tactics Finally he examines how military coups can be prevented While previous solutions have largely failed Onwumehili provides convincing solutions based on case studies

Reinventing Peacekeeping in Africa F. Olonisakin, 2021-07-26 The euphoric cries of a peaceful and more dynamic new world order which followed the end of the Cold War have been silenced by the increased intensity of local conflicts around the world The humanitarian crises resulting from these conflicts have attracted greater international attention Perhaps even more tragic is the failure of the international community to find early effective response to these conflicts which have profound security implications for the affected regions and have led to the collapse of state structures in some cases The intra state conflicts in Africa alone have claimed over one million lives since 1990 On the international scene these internal conflicts have created new challenges for the UN whose efforts at dealing with them have produced mixed results whilst international policy makers the military and academics are faced with difficult questions Can traditional peacekeeping be stretched to accommodate this class of conflict What is the legal basis for these operations Attempts to answer these questions at the conceptual level have led to the development of concepts such as second generation peacekeeping wider peacekeeping peace support operations and strategic peacekeeping It has emerged that there is no common view on an effective and realistic set of tools to manage these crises Perhaps the most significant point to arise from the differing conceptual views presently is that an effective approach and sound legal basis have not been found for dealing with recalcitrant internal conflicts in far away regions which

are not high on the strategic considerations of the great powers This book reconsiders the role of the UN and regional organisations such as ECOWAS in Africa It examines the response to the civil war in Liberia which served as a precursor to the international response to the crisis in Sierra Leone On the one hand this book offers an analysis of a new conceptual framework for managing a specific class of violent conflict On the other hand it provides first hand account of the character of a force that attempted to apply this approach In drawing some of its conclusions the book relies on the testimonies of many of the soldiers who formed the core of the military operations in these difficult conflict areas in West Africa

The Use of Military Force in United Nations Peacekeeping Operations Roberto F. Bendini, 1998 The paper is focused on the use of force in United Nations peacekeeping operations describing the characteristics of these operations the evolution of the principles for the use of weapons and stating the recommendation of the use of military force when it is necessary for the success of the operation

Protecting Civilians Siobhán Wills, 2009-02-26 Historical review of civilian protection by UN peacekeepers The extent to which peacekeeping and other multi national forces have a general responsibility to protect under international humanitarian law The extent to which peacekeeping and other multi national forces have a general responsibility to protect under international human rights law The applicability of occupation law to peacekeeping and other multi national operations Implications for peacekeepers and other multi national forces

Power in Peacekeeping Lise Morjé Howard, 2019-05-16 Explains how peacekeeping can work effectively by employing power through verbal persuasion financial inducement and coercion short of offensive force

UN Peacekeeping in Lebanon, Somalia and Kosovo Ray Murphy, 2007-05-10 The concept of UN peacekeeping has had to evolve and change to meet the challenges of contemporary sources of conflict consequently peacekeeping operations have grown rapidly in number and complexity This book examines a number of issues associated with contemporary multinational peace operations and seeks to provide insights into the problems that arise in establishing and deploying such forces to meet the challenges of current conflicts The focus of the book is three case studies Lebanon Somalia and Kosovo involving a comparative analysis of the traditional peacekeeping in Lebanon the more robust peace enforcement mission in Somalia and the international administration undertaken on behalf of the international community in Kosovo The book analyses the lessons that may be learned from these operations in terms of mandates command and control use of force and the relevance of international humanitarian and human rights law to such operations

International Law on Peacekeeping Hitoshi Nasu, 2009 It is generally considered that the UN Security Council has been galvanised since the end of the Cold War However the existence and development of armed conflicts remain the reality in the international scene Is the upsurge in instances of invoking Chapter VII of the UN Charter truly a sign of the invigoration of the Security Council's authority or mere evidence of its failure to prevent the aggravation of armed conflicts To what extent is the Security Council authorised to exercise the peacekeeping power in order to take a more flexible approach to conflict management from an earlier stage of conflict This

book explores the potential of the UN peacekeeping power placing Article 40 of the UN Charter at the centre of the legal regime governing peacekeeping measures It traces the origins of peacekeeping measures primarily in the experience of the League of Nations and identifies Article 40 of the Charter as the primary legal basis for and the legal restraints upon the exercise of the peacekeeping power It examines the regulatory framework within which the United Nations particularly the Security Council is authorised and may even be required to direct peacekeeping measures to prevent the aggravation of armed conflicts It suggests that the legal accountability of the Security Council in directing peacekeeping measures will be enhanced by utilising procedural mechanisms for self regulation
