Livingstone's 'lives' Justin Livingstone, 2014-11-01 David Livingstone the missionary explorer has attracted more commentary than nearly any other Victorian hero Beginning in the years following his death he soon became the subject of a major biographical tradition Yet out of this extensive discourse no unified image of Livingstone emerges Rather he has been represented in diverse ways and in a variety of socio political contexts Until now no one has explored Livingstone's posthumous reputation in full This book meets the challenge In approaching Livingstone's complex legacy it adopts a metabiographical perspective in other words this book is a biography of biographies Rather than trying to uncover the true nature of the subject metabiography is concerned with the malleability of biographical representation It does not aim to uncover Livingstone's real identity but instead asks what has he been made to mean Crossing disciplinary boundaries Livingstone's lives will interest scholars of imperial history postcolonialism life writing travel writing and Victorian studies
