## **Missions And Empire:**

*Missions and Empire* Norman Etherington, 2005-07-14 The explosive expansion of Christianity in Africa and Asia during the last two centuries constitutes one of the most remarkable cultural transformations in the history of mankind Because it coincided with the spread of European economic and political hegemony it tends to be taken for granted that Christian missions went hand in hand with imperialism and colonial conquest In this book historians survey the relationship between Christian missions and the British Empire from the seventeenth century to the 1960s and treat the subject thematically rather than regionally or chronologically Many of these themes are treated at length for the first time relating the work of missions to language medicine anthropology and decolonization Other important chapters focus on the difficult relationship between missionaries and white settlers women and mission and the neglected role of the indigenous evangelists who did far more than European or North American missionaries to spread the Christian religion belying the image of Christianity as the white man's religion

Missions, Nationalism and the End of Empire Stanley, Elaine M. Low, 2003 Christian missions have often been seen as the religious arm of Western imperialism What is rarely appreciated is the role they played in bringing about an end to the Western colonial empires after the Second World War *Missions Nationalism and the End of Empire* explores this neglected subject Respected authorities on the history of missions explore new territory in these chapters examining from diverse angles the linkages between Christianity nationalism and the dissolution of the colonial empires in Asia and Africa This work not only sheds light on the relation of religion and politics but also uncovers the sometimes paradoxical implications of the church's call to bring the gospel to all the world Contributors Daniel H Bays Philip Boobbyer Judith M Brown Richard Elphick Deborah Gaitskell Adrian Hastings Caroline Howell Ka che Yip Ogbu U Kalu Hartmut Lehmann Derek Peterson Andrew Porter Brian Stanley John Stuart

**Religion Versus Empire?** Andrew Porter, 2004-10-29 This is the only book that addresses the relations between religion Protestant missions and empire building linking together all three fields of study by taking as its starting point the early eighteenth century Anglican initiatives in colonial North America and the Caribbean It considers how the early societies of the 1790s built on this inheritance and extended their own interests to the Pacific India the Far East and Africa Fluctuations in the vigor and commitment of the missions changing missionary theologies and the emergence of alternative missionary strategies are all examined for their impact on imperial expansion Other themes include the international character of the missionary movement Christianity's encounter with Islam and major figures such as David Livingstone the state and politics and humanitarianism all of which are viewed in a fresh light

**Missions and Empire** Norman Etherington, 2005 The idea that Christian missions went hand in hand with Imperialism and colonial conquest is challenged in this book By showing the variety of missions and the vital role played by indigenous men and women the text places missions in a long historical perspective

**Congregational Missions and the Making of an Imperial Culture in Nineteenth-Century England** Susan Thorne,1999 This book explores the missionary movement s influence on popular perceptions of empire and race in nineteenth century England The foreign missionary endeavor was one of the most influential of the channels through which nineteenth century Britons encountered the colonies and because of their ties to organized religion foreign missionary societies enjoyed more regular access to a popular audience than any other colonial lobby Focusing on the influential denominational case of English Congregationalism this study shows how the missionary movement s audience in Britain was inundated with propaganda designed to mobilize financial and political support for missionary operations abroad propaganda in which the imperial context and colonized targets of missionary operations figured prominently In her attention to the local social contexts in which missionary propaganda was disseminated the author departs from the predominantly cultural thrust of recent studies of imperialism s popularization She shows how Congregationalists made use of the language and

institutional space provided by missions in their struggles to negotiate local relations of power In the process the missionary project was implicated in some of the most important developments in the social history of nineteenth century Britain the popularization of organized religion and its subsequent decline the emergence and evolution of a language of class the gendered making of a middle class and the strange death of British liberalism *Annual Report of the American Board of Commissioners for Foreign Missions* American Board of Commissioners for Foreign Missions,American Board of Commissioners for Foreign Missions.
