The Archaeology of Peasantry in Roman Spain Jesús Bermejo Tirado,Ignasi Grau Mira,2022-01-19 This volume aims to present an updated portrait of the Roman countryside in Roman Spain by the comparison of different theoretical orientations and methodological strategies including the discussion of textual and iconographic sources and the analysis of the faunal remains The archaeology of rural areas of the Roman world has traditionally been focused on the study of villae both as an architectural model of Roman otium and as the central core of an economic system based on the extensive agricultural exploitation of latifundia The assimilation of most rural settlements in provincial areas of the Roman Empire with the villa model implies the acceptance of specific ideas such as the generalization of the slave mode of production the rupture of the productive capacity of Late Iron Age communities or the reduction in importance of free peasant labor in the Roman economy of most rural areas However in recent decades as a consequence of the generalized extension of preventive or emergency archaeology and survey projects in most areas of the ancient territories of the Roman Empire this traditional conception of the Roman countryside articulated around monumental villae is undergoing a thorough revision New research projects are changing our current perception of the countryside of most parts of the Roman provincial world by assessing the importance of different types of rural settlements In the last years we have witnessed the publication of archaeological reports on the excavation of thousands of small rural sites farms farmsteads enclosures rural agglomerations of diverse nature etc One of the main consequences of all this research activity is a vigorous discussion of the paradigm of the slave mode of production as the basis of Roman rural economies in many provincial areas A similar change in the paradigm is taking place with some delay in the archaeology of Roman Spain After decades of preventive emergency interventions there is a considerable quantity of unpublished data on this kind of rural settlements However unlike the cases of Roman Britain or Gallia Comata no synthesis or national projects are undertaking the task of systematizing all these data With the intention of addressing this current situation the present volume discusses the results and methodological strategies of different projects studying peasant settlements in several regions of Roman Spain The Writer's Market ,1983 **Love Storm** Mary E.

Until Debt Do Us Part Otaviano Canuto,Lili Liu,2013-02-13 With decentralization and urbanization the debts of state and local governments and of quasi public agencies have grown in importance Rapid urbanization in developing countries requires large scale infrastructure financing to help absorb influxes of rural populations Borrowing enables state and local

governments to capture the benefits of major capital investments immediately and to finance infrastructure more equitably across multiple generations of service users With debt comes the risk of insolvency Subnational debt crises have reoccurred in both developed and developing countries Restructuring debt and ensuring its sustainability confront moral hazard and fiscal incentives in a multilevel government system individual subnational governments might free ride common resources and public officials at all levels might shift the cost of excessive borrowing to future generations This book brings together the reform experiences of emerging economies and developed countries Written by leading practitioners and experts in public finance in the context of multilevel government systems the book examines the interaction of markets regulators subnational borrowers creditors national governments taxpayers ex ante rules and ex post insolvency systems in the quest for subnational fiscal discipline Such a quest is intertwined with a country's historical political and economic context The formal legal framework interacts with political reality to influence the dynamics of and incentives for reform Often the resolution of a subnational debt crisis unfolds in the context of macroeconomic stabilization and structural reforms The book includes reforms that have not been covered by previous literature such as those of China Colombia France Hungary Mexico and South Africa The book also presents a comprehensive review of how the United States developed its debt market for state and local governments through a series of reforms that are path dependent including the reforms and lessons learned following state defaults in the 1840s and the debates that shaped the enactment of Chapter 9 of the Bankruptcy Code in 1937 Looking forward pressures on subnational finance are likely to continue from the fragility of global recovery the potentially higher cost of capital refinancing risks and sovereign risks This book is essential reading for anyone wanting to know the challenges and reform options in debt restructuring insolvency frameworks and public debt market development **The**

Academy, 1878 Ordinary Sudan, 1504-2019 Elena Vezzadini, Iris Seri-Hersch, Lucie Revilla, Anael Poussier, Mahassin Abdul Jalil, 2023-07-24 This book starts from the premise that the study of exceptionally normal women and men as conceived by microhistory has radical implications for understanding history and politics and applies this notion to Sudan Against a historiography dominated by elite actors and international agents it examines both how ordinary people have brought about the most important political shifts in the country's history including the recent revolution in 2019 and how they have played a role in maintaining authoritarian regimes It also explores how men and women have led their daily lives through a web of ordinary worries desires and passions The book includes contributions by historians anthropologists and political scientists who often have a dual commitment to Middle Eastern and African studies While focusing on the complexity and nuances of Sudanese local lives in both the past and the present it also connects Sudan and South Sudan with broader regional global and imperial trends The book is divided into two volumes and six parts ordered thematically The first part tackles the entanglement between archives social history and power The second focuses on women's agency in history and politics from the Funj era to the recent 2018 2019 revolution Part 3 includes contributions on the history and global connections of the

Sudanese armed forces In the second volume part 4 intersects the themes of urban life leisure and colonial attitudes with queerness In part 5 labour identities practices and institutions are discussed both in urban milieus and against the background of war and expropriation in rural areas Finally part 6 studies the construction of social consent under various self styled Islamic regimes as well as the emergence of alternative imaginaries and acts of citizenship in times of political openness Alaska National Interest Lands Workshops ,1979 Academy and Literature Charles Edward Cutts Birch Appleton,Charles Edward Doble,James Sutherland Cotton,Charles Lewis Hind,William Teignmouth Shore,Alfred Bruce Douglas,Ellis Ashmead-Bartlett,Thomas William Hodgson Crosland,1878 The Academy and Literature ,1878
