## **Mit Feder Und Zepter:**

*The Nationalization of Latvians and the Issue of Serfdom* Andrew James Blumbergs,2008 In the second half of the eighteenth century an intellectual discourse developed in Livonia which shed light on the disastrous social conditions of the indigenous population This book examines the premise that the resulting nationalization of the Latvians occurred in the 1780s and 1790s as a result of a German Enlightenment in Livonia It investigates the role that eighteenth century anthropological ethnographical historical and cultural ideas played in this process of nationalizing the Latvians and focuses on the development of the arguments for agrarian and social change by proponents of reform in Livonia at this time The work investigates the historical structures and processes that shaped the agrarian constitution of Livonia s society up to and including the eighteenth century This involves a comparative historical analysis of critical aspects relevant to the transformation of the agrarian and social reform discourse in Livonia in the second half of the eighteenth century and its ramifications on how the Latvians were perceived by Germans within Livonia and beyond The introduction and dissemination of Enlightenment thought in Livonia with particular reference to the Livonian agrarian and social reform discourse is also explored Utilizing primary sources some relatively unknown such as the Briefe of Andreas Meyer this study provides first hand historical perspectives on Livonian society and German attitudes towards the indigenous population The main writers and works of the Livonian agrarian and social reform discourse in the 1780s and 1790s are also studied The works of Johann von Jannau 1753 1821 Heinrich Wilhelm Christian Friebe 1761 1811 Karl Philip Michael Snell 1753 1806 and Garlieb Helwig Merkel 1769 1850 are considered central to the Livonian agrarian and social reform discourse of the late 1780s and 1790s Some monographs essays and articles in Hupel s publications particularly the Nordische Miscellanee are also considered It is purported that the first steps towards the nationalization of Latvian identity occurred as the result of new historical anthropological cultural and ethnographical approaches to the agrarian and social issues of Livonia during this time Culture history and language are central to the nationalization of identity and are key components in the theoretical considerations investigated The literary discourse had implications that were significant in shaping and reshaping historical and cultural identity in the national awakenings of the Latvians at various stages in their history since the late eighteenth century The way social political cultural and ethnic relationships were understood and articulated was transformed by this late eighteenth century discourse in effect nationalized as predominantly German theologians and writers sought to elevate and see dignity and authentic cultural value in the language and national character of the Latvians This is an important and comprehensive volume for those in history and European studies     *Empire Speaks Out* Ilya Gerasimov,Jan Kusber,Alexander Semyonov,2009-06-02 Historians habitually write about empires that expand wage wars and collapse as if empires were self evident and self conscious entities with a distinct and clear sense of purpose The stories of empires are told in the language of modern nation centred social sciences multi cultural and heterogeneous empires of the past appear either as huge nations

with a common language culture and territory or as amalgamations of would be nations striving to gain independence Empire Speaks Out reconstructs the historical encounter of the Russian Empire of the seventeenth through the early twentieth centuries with the complex challenge of modernity It does so by taking the self awareness of empire seriously and by looking into how bureaucrats ideologues politicians scholars and modern professionals described the ethnic cultural and social diversity of the empire Empire then reveals itself not through deliberate and well conceived actions of some mysterious political body but as a series of imperial situations that different people encounter and perceive in common categories The rationalization of previously intuitive social practices as imperial languages is the central theme of the collection This book is published with support from Volkswagen Foundation within the collective research project Languages of Self Description and Representation in the Russian Empire    [Women in European Academies](#) Ute Frevert,Ernst Osterkamp,Günter Stock,2020-12-07 The volume examines the lives and achievements of women who played determining roles in the history of European academies and in the development of modern science in Europe These persevering personalities either had a key influence in the establishment of academies Patronae Scientiarum or were pioneering scientists who made major contributions to the progress of science path breakers In both cases their stories provide unique testimonies on the scientific institutions of their time and the systemic barriers female scientists were facing Conceptualized as a transversal series of biographical portraits the contributions focus particularly on each personalities role in or relation to European academies ensuring both a geographical and disciplinary balance The co editors of the volume are Professor Ute Frevert Co Director at the Max Planck Institute for Human Development Professor Ernst Osterkamp President of the Deutsche Akademie f r Sprache und Dichtung and Professor G nter Stock former ALLEA President
