South Asia Karen G. Ruffle, 2021-03-15 The first textbook to focus on the history of lived Shi'ism in South Asia *Everyday Shi'ism in South Asia* is an introduction to the everyday life and cultural memory of Shi'i women and men focusing on the religious worlds of both individuals and communities at particular historical moments and places in the Indian subcontinent. Author Karen Ruffle draws upon an array of primary sources, images, and ethnographic data to present topical case studies offering broad snapshots of Shi'i life as well as microscopic analyses of ritual practices, material objects, architectural and artistic forms, and more. Focusing exclusively on South Asian Shi'ism, an area mostly ignored by contemporary scholars who focus on the Arab lands of Iran and Iraq, the author shifts readers' analytical focus from the center of Islam to its periphery. Ruffle provides new perspectives on the diverse ways that the Shi'a intersect with not only South Asian religious culture and history but also the wider Islamic humanistic tradition. Written for an academic audience yet accessible to general readers, this unique resource explores Shi'i religious practice and the relationship between religious normativity and everyday religious life and material culture. Contextualizes Muharram rituals, public performances, festivals, vow making, and material objects and practices of South Asian Shi'a. Draws from author's studies and fieldwork throughout India and Pakistan, featuring numerous color photographs. Places Shi'i religious symbols, cultural values, and social systems in historical context. Includes an extended survey of scholarship on South Asian Shi'ism from the seventeenth century to the present. *Everyday Shi'ism in South Asia* is an important resource for scholars and students in disciplines including Islamic studies, South Asian studies, religious studies, anthropology, art history, material culture studies, history, and gender studies, and for English-speaking members of South Asian Shi'i communities.

Women in the Mosque Marion Katz, 2014-09-23 Juxtaposing Muslim scholars' debates over women's attendance in mosques with historical descriptions of women's activities within Middle Eastern and North African mosques, this study shows how over the centuries legal scholars' arguments have often reacted to rather than dictated Muslim women's behavior. Tracing Sunni legal positions on women in mosques from the second century of the Islamic calendar to the modern period, this volume connects shifts in scholarly terminology and argumentation to changing constructions of gender. Over time, assumptions about women's changing behavioral norms over different stages of the lifecycle gave way to a global preoccupation with sexual temptation, which then became the central rationale for limits on women's mosque access. At the same time, travel narratives, biographical dictionaries, and religious polemics document patterns suggesting that women's usage of mosque space often diverged in both timing and content from the ritual models constructed by scholars. This book demonstrates both the concrete social and political implications of Islamic legal discourse and the autonomy of women's mosque-based activities. It also examines women's mosque access as a trope in Western travelers' narratives and the evolving significance of women's mosque attendance among different Islamic currents in the twentieth century.

Tjomsland, 2021-01-07 The current Islamic revival is frequently associated with fundamentalism and radical politics. This reinforces Western perceptions of Islamic women as victims of a sexist and reactionary rule. What many outsiders fail to realize is that quite a number of Muslim women are ardently embracing their religion as a means through which they can express gender identity, power and creativity. In overturning ingrained notions of Muslim women's subjugation, this timely book situates Islam as a religion undergoing reinterpretation and change, especially in relation to gender identities, rather than as a monolithic movement reacting against westernization and modernization. Through their political, educational and recreational activities, more and more Muslim women are setting agendas of their own and are actively redefining the role of women in Muslim society.

Women and Islam: Images and realities Haideh Moghissi, 2005 This three-volume interdisciplinary collection is of use not only in Middle East studies but also in various other disciplines including women's studies, political science, religion, cultural studies, sociology of gender and anthropology. The collection offers the most influential writings in the field by both renowned scholars as well as those by the new generation of scholars of Islam and gender, and includes a wide variety of cases from Middle Eastern and Islamic societies. By including case-based articles, the collection highlights the clear links between concepts and theories and actual practices. Titles also available in this series include *Shamanism* March 2004 3 volumes 395 and the forthcoming titles *Childhood* 2005 4 volumes c 495 *Gender* 2005 4 volumes c 495 and *Knowledge* 2005 4 volumes c 495. *Desert Patriarchy* Janet Bennion, 2004-05 On the high desert plateau of northern Mexico, outsiders have taken refuge from the secular world. Here three Anglo communities of Mormons and Mennonites have ordered their lives around male supremacy, rigid religious duty and a rejection of modern technology and culture. In so doing, they have successfully adapted to this harsh desert environment. Janet Bennion has lived and worked among these people and in this book she introduces a new paradigm, desert patriarchy, to explain their way of life. This perspective sheds light not only on these particular communities but also on the role of the desert environment in the development and maintenance of fundamentalist ideology in other parts of the United States and around the globe. Making new connections between the arid environment, opposition to technology and gender ideology, Bennion shows that it is the interplay of the desert and the unique social traditions and gender dynamics embedded in Anglo patriarchal fundamentalism that accounts for the successful longevity of the Mexican colonies. Her model defines the process by which male supremacy, female autonomous networking and religious fundamentalism all facilitate successful adaptation to the environment. More

than a theoretical analysis Desert Patriarchy provides an intimate glimpse into the daily lives of these people showing how they have taken refuge in the desert to escape religious persecution the forced secular education of their children and economic and political marginalization It particularly sheds light on the ironic autonomy of women within a patriarchal system showing how fundamentalist women in Chihuahua are finding numerous creative ways to access power and satisfaction in a society structured to subordinate and even degrade them Desert Patriarchy richly expands the literature on nontraditional religious movements as it enhances our understanding of how environment can shape society It offers unique insights into women s status in patriarchal communities and provides a new way of looking at similar communities worldwide
