Mobilizing The Masses Building Revolution In Henan:

Mobilizing the Masses Odoric Y. K. Wou, 1994 A study of the roots of revolution in the Chinese province of Henan this book describes in detail more than two decades 1925 to 1949 of the efforts of the Communist Party to build mass support for revolution These were decades of social and political crisis beginning with the May 30th Movement exacerbated by the Japanese invasion in 1937 and culminating in the Communist victory of 1949 Looking for historical continuities and changes the book traces the Communist movement's trajectory from the cities to the countryside and back to the urban centers in the process testing the major social science paradigms of peasant based revolution The author studies the interaction in Henan between the Communist revolutionaries and various groups that constituted the social base of the revolution workers religious sectarians rural elites student intellectuals the military and above all the peasantry He closely studies the behavior of these groups and explains the social and structural forces that facilitated or constrained the Communist movement He also shows how Communist mobilization tactics changed to accommodate such varied settings as the war zone the mountains and the floodplain The author concludes that the key to the Communists victory lay in their ability to maneuver their way to political power their skillful use of nationalist sentiment and their community and reform programs that ultimately won over the peasant masses Thus he sees the Chinese Communist movement as a dual revolutionary process of power politics and social revolution

G Goodman, 2023-06-14 This in depth study examines the influence of the Chinese Communist Party's effective organizing in Shanxi Province during the War of Resistance Shanxi Province was on the frontlines of the 1937-1945 War of Resistance against Japan the war that launched the Chinese Communist Party During that time the Taihang Base Area of Southwest Shanxi was one of the Party's most important strongholds David Goodman provides the first county level analysis of social and political change in the Taihang Base Area during those crucial years Goodman explores revolution as process arguing that the Party was successful because of its management of revolutionary incrementalism He examines the roles of various groups highlighting the activities of urban intellectuals teachers and peasant small holders as agents of change Based on newly available sources including recently republished materials from the Taihang Base Area restricted documentation from the Taiyuan Archive and interviews with veterans of the Taihang Base Area this meticulously researched work deepens our understanding of the social and political origins of the Chinese revolution

Revolutionizing the Family Neil J. Diamant, 2023-04-28 In 1950 China's new Communist government enacted a Marriage Law to allow free choice in marriage and easier access to divorce Prohibiting arranged marriages concubinage and bigamy it was one of the most dramatic efforts ever by a state to change marital and family relationships In this comprehensive study of the effects of that law Neil J Diamant draws on newly opened urban and rural archival sources to offer a detailed analysis of how the law was interpreted

and implemented throughout the country In sharp contrast to previous studies of the Marriage Law which have argued that it had little effect in rural areas Diamant argues that the law reshaped marriage and family relationships in significant but often unintended ways throughout the Maoist period His evidence reveals a confused and often conflicted state apparatus as well as cases of Chinese men and women taking advantage of the law to justify multiple sexual encounters to marry for beauty to demand expensive gifts for engagement and to divorce on multiple occasions Moreover he finds those who were best placed to use the law s more liberal provisions were not well educated urbanites but rather illiterate peasant women who had never heard of sexual equality and it was poor men not women who were those most betrayed by the peasant based revolution This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 2000 In 1950 China s new Communist government enacted a Marriage Law to allow free choice in marriage and easier access to divorce Prohibiting arranged marriages concubinage and bigamy it was one of the most dramatic efforts ever by a state to change mari

Civil War in China Suzanne Pepper, 1999-07-22 Many books have tried to analyze the reasons for the Chinese communist success in China's 1945-1949 civil war but Suzanne Pepper's seminal work was the first and remains the only comprehensive analysis of how the ruling Nationalists lost that war not just militarily but by alienating the civilian population through corruption and incompetence Now available in a new edition this authoritative investigation of Kuomintang failure and communist success

explores the new research and archival resources available for assessing this pivotal period in contemporary Chinese history. Even more relevant today given the contemporary debates in Hong Kong and Taiwan over the terms of reunification with a communist led national government in Beijing this book is essential reading for anyone seeking a nuanced understanding of twentieth century Chinese politics. The Victorious Counterrevolution Michael Seidman, 2011-02-24 This groundbreaking history of the Spanish Civil War 1936-39 examines for the first time in any language how General Francisco Franco and his Nationalist forces managed state finance and economic production and mobilized support from elites and middle class Spaniards to achieve their eventual victory over Spanish Republicans and the revolutionary left. The Spanish Nationalists are exceptional among counter revolutionary movements of the twentieth century. Michael Seidman demonstrates because they avoided the inflation and shortages of food and military supplies that stymied not only their Republican adversaries but also their counter revolutionary counterparts the Russian Whites and Chinese Nationalists. He documents how Franco's highly repressive and tightly controlled regime produced food for troops and civilians, regular pay for soldiers, farmers and factory workers and protection of property rights for both large and small landowners. These factors combined with the Nationalists' pro Catholic and anti Jewish propaganda reinforced solidarity in the Nationalist zone. Seidman concludes that unlike the victorious Spanish Nationalists the Russian and Chinese bourgeoisie were weakened by the economic and social upheaval of the two world wars and succumbed in each case to the surging revolutionary left. Cold War Crucible Hajimu Masuda, 2015-02-09 After World War II the major powers faced social upheaval at home and anticolonial wars around the globe. Alarmed by conflict in Korea that could change U.S. Soviet relations from chilly to nuclear, ordinary people and policymakers created a fantasy of a bipolar Cold War world in which global and domestic order was paramount. Masuda Hajimu shows *China Reconstructs* Cindy Yik-yi Chu, Ricardo K.S. Mak, 2003-06-05 *China Reconstructs* includes ten articles that investigate the reconstruction of modern China and provide different dimensions to the vibrant and multifaceted history of the country. The book discusses how prominent individuals, political parties and ordinary people alike looked for ways to reconstruct China in a period of great political upheavals. The Genesis of Chinese Communist Foreign Policy Michael H. Hunt, 1996 Is the Confucian tradition compatible with the Western understanding of human rights? Are there fundamental human values regardless of cultural differences common to all peoples of all nations? At this critical point in Communist China's history, eighteen distinguished scholars address the role of Confucianism in dealing with questions of universal human rights. **Crimson Rain** William T. Rowe, 2007 This book explores the cultural and social roots of violence in China by studying the history of recurrent massive carnage in one county, Macheng, between the expulsion of the Mongols in the 14th century and the Japanese invasion of 1938. **China in Transformation** Colin Mackerras, 2014-06-11 In the first half of the twentieth century China moved from a millennium of imperial rule to the Communist Party led People's Republic of China which remains today. *China in Transformation* argues that this enormously significant period in Chinese

history saw wrenching change throughout Chinese society amounting to a social cultural and political transformation This new fully revised and updated edition takes full advantage of new research and formerly unavailable material to analyse the fascinating processes of revolution reform reaction and change in China during the period Mackerras Discusses the wars occupations and uprisings that marked the period including the Boxer Rebellion and the Japanese occupation and includes a new chapter on postwar China and the Civil War Examines nation building and revolutions including the successful communist movement that has led to the rise of today s state Acknowledges the prevalence of poverty and famine in the period but also gives space to the areas in which there was progress the introduction of mass secular education improvements in the status of women and in a new chapter details significant developments in culture literature and theatre Written in an accessible style with a rich collection of Documents Chronology Glossary a Guide to Further Reading and a Who s Who summarising the careers and contributions of the main figures this new edition is essential for all those interested in understanding China s modern history

The Emergence of Global Maoism Matthew Galway, 2022-03-15 The Emergence of Global Maoism examines the spread of Mao Zedong s writings ideology and institutions when they traveled outside of China Matthew Galway links Chinese Communist Party efforts to globalize Maoism to the dialectical engagement of exported Maoism by Cambodian Maoist intellectuals How do ideas manifest outside of their place of origin Galway analyzes how universal ideological systems became localized both in Mao s indigenization of Marxism Leninism and in the Communist Party of Kampuchea s indigenization of Maoism into its own revolutionary ideology By examining the intellectual journeys of CPK leaders who during their studies in Paris in the 1950s became progressive activist intellectuals and full fledged Communists he shows that they responded to political and socioeconomic crises by speaking back to Maoism adapting it through practice without abandoning its universality Among Mao s greatest achievements the Sinification of Marxism enabled the CCP to canonize Mao s thought and export it to a progressive audience of international intellectuals These intellectuals would come to embrace the ideology as they set a course for social change The Emergence of Global Maoism illuminates the process through which China moved its goal from class revolution to a larger anticolonial project that sought to cast out European and American imperialism from Asia

Rejuvenating Communism Jérôme Doyon, 2023-02-20 Working for the administration remains one of the most coveted career paths for young Chinese Rejuvenating Communism Youth Organizations and Elite Renewal in Post Mao China seeks to understand what motivates young and educated Chinese to commit to a long term career in the party state and how this question is central to the Chinese regime s ability to maintain its cohesion and survive J r me Doyon draws upon extensive fieldwork and statistical analysis in order to illuminate the undogmatic commitment recruitment techniques and other methods the state has taken to develop a diffuse allegiance to the party state in the post Mao era He then analyzes recruitment and political professionalization in the Communist Party s youth organizations and shows how experiences in the Chinese Communist Youth League transform recruits and feed their political

commitment as they are gradually inducted into the world of officials. As the first in-depth study of the Communist Youth League's role in recruitment, this book challenges the assumption that merit is the main criteria for advancement within the party-state, an argument with deep implications for understanding Chinese politics today.
