The Making of the Modern Muslim State Malika Zeghal, 2024-03-26 An innovative analysis that traces the continuity of the state's custodianship of Islam as the preferred religion in the Middle East and North Africa In *The Making of the Modern Muslim State* Malika Zeghal reframes the role of Islam in modern Middle East governance Challenging other accounts that claim that Middle Eastern states turned secular in modern times Zeghal shows instead the continuity of the state's custodianship of Islam as the preferred religion Drawing on intellectual political and economic history she traces this custodianship from early forms of constitutional governance in the nineteenth century through post Arab Spring experiments in democracy Zeghal argues that the intense debates around the implementation and meaning of state support for Islam led to a political cleavage between conservatives and their opponents that long predated the polarization of the twentieth century that accompanied the emergence of mass politics and Islamist movements Examining constitutional projects public spending school enrollments and curricula Zeghal shows that although modern Muslim majority polities have imported Western techniques of governance the state has continued to protect and support the religion community and institutions of Islam She finds that even as Middle Eastern states have expanded their nonreligious undertakings they have dramatically increased their per capita supply of public religious provisions especially Islamic education further feeding the political schism between Islamists and their adversaries Zeghal illuminates the tensions inherent in the partnerships between states and the body of Muslim scholars known as the ulama whose normative power has endured through a variety of political regimes Her detailed and groundbreaking analysis which spans Tunisia Morocco Egypt Turkey Syria and Lebanon makes clear the deep historical roots of current political divisions over Islam in governance

Why Alliances Fail Matt Buehler, 2018-11-23 Since 2011 the Arab world has seen a number of autocrats including leaders from Tunisia Egypt Libya and Yemen fall from power Yet in the wake of these political upheavals only one state Tunisia transitioned successfully from authoritarianism to democracy Opposition parties forged a durable and long term alliance there which supported democratization Similar pacts failed in Morocco and Mauritania however In Why Alliances Fail Buehler explores the circumstances under which stable enduring alliances are built to contest authoritarian regimes marshaling evidence from coalitions between North Africa's Islamists and

leftists Buehler draws on nearly two years of Arabic fieldwork interviews original statistics and archival research including interviews with the first Islamist prime minister in Moroccan history Abdelilah Benkirane Introducing a theory of alliance durability Buehler explains how the nature of an opposition party's social base shapes the robustness of alliances it builds with other parties He also examines the social origins of authoritarian regimes concluding that those regimes that successfully harnessed the social forces of rural isolation and clientelism were most effective at resisting the pressure for democracy that opposition parties exerted With fresh insight and compelling arguments *Why Alliances Fail* carries vital implications for understanding the mechanisms driving authoritarian persistence in the Arab world and beyond

Rutherford, 2013-02-21 Which way will Egypt go now that Hosni Mubarak's authoritarian regime has been swept from power Will it become an Islamic theocracy similar to Iran Will it embrace Western style liberalism and democracy Egypt after Mubarak reveals that Egypt's secularists and Islamists may yet navigate a middle path that results in a uniquely Islamic form of liberalism and perhaps democracy Bruce Rutherford draws on in depth interviews with Egyptian judges lawyers Islamic activists politicians and businesspeople He utilizes major court rulings political documents of the Muslim Brotherhood and the writings of Egypt's leading contemporary Islamic thinkers Rutherford demonstrates that in post Mubarak Egypt progress toward liberalism and democracy is likely to be slow Essential reading on a subject of global importance this edition includes a new introduction by Rutherford that takes stock of the Arab Spring and the Muslim Brotherhood's victories in the 2011 2012 elections

Religious Freedom in Islam Daniel Philpott, 2019-02-01 Since at least the attacks of September 11 2001 one of the most pressing political questions of the age has been whether Islam is hostile to religious freedom Daniel Philpott examines conditions on the ground in forty seven Muslim majority countries today and offers an honest clear eyed answer to this urgent question It is not however a simple answer From a satellite view the Muslim world looks unfree But Philpott shows the truth is much more complex Some one fourth of Muslim majority countries are in fact religiously free Of the other countries about forty percent are governed not by Islamists but by a hostile secularism imported from the West while the other sixty percent are Islamist The picture that emerges is both honest and hopeful Yes most Muslim majority countries are lacking in religious freedom But Philpott argues the Islamic tradition carries within it seeds of freedom and he offers guidance for how to cultivate those seeds in order to expand religious freedom in the Muslim world and the world at large It is an urgent project Religious freedom promotes goods like democracy and the advancement of women that are lacking in the Muslim majority world and reduces ills like civil war terrorism and violence Further religious freedom is simply a matter of justice not an exclusively Western value but rather a universal right rooted in human nature Its realization is critical to the aspirations of religious minorities and dissenters in Muslim countries to Muslims living in non Muslim countries or under secular dictatorships and to relations between the West and the Muslim world In this thoughtful book Philpott seeks to establish a constructive middle ground in a fiery and long lasting debate over

Islam **Twilight of the Saints** Stéphane Lacroix, 2025-08-05 In scarcely a century Salafism has transformed Sunni Islam. Claiming to be a revival of the purest form of Islam, this movement promotes ultraconservative social and religious norms and rejects all non-Sunni religious groups. In Egypt, its influence has grown to the point of reshaping mainstream conceptions of the faith. How did such a deep religious transformation sweep through Egypt so rapidly? What is the significance of Salafism for the country's political scene, both before and after Hosni Mubarak fell from power in 2011? *Twilight of the Saints* examines the history of Salafism in Egypt from its 1920s emergence in Cairo's scholarly circles through the present day, shedding new light on the movement's shifting relationship to politics. Drawing on extensive fieldwork and interviews, Stéphane Lacroix illustrates how Salafism redefined what it means to be Muslim for Egyptians. He emphasizes the factors that distinguish the Salafis from the Muslim Brotherhood despite their parallel trajectories. The Salafis, who initially shunned oppositional politics, were looked upon more favorably by the authorities who perceived a greater threat from their Islamist counterparts. Lacroix explores how Salafism influenced the dynamics of the 2011 revolution and the democratic transition that ended with the army's takeover of the country, as well as how it has fared since. *Twilight of the Saints* offers an in-depth, authoritative understanding of the relationship of Salafism, politics, and authoritarianism in Egypt, with significant implications for the wider Muslim world.
