Modes of Viewing in Hellenistic Poetry and Art Graham Zanker, 2008-02-04 Taking a fresh look at the poetry and visual art of the Hellenistic age from the death of Alexander the Great in 323 B C to the Romans defeat of Cleopatra in 30 B C Graham Zanker makes enlightening discoveries about the assumptions and conventions of Hellenistic poets and artists and their audiences Zanker s exciting new interpretations closely compare poetry and art for the light each sheds on the other He finds for example an exuberant expansion of subject matter in the Hellenistic periods in both literature and art as styles and iconographic traditions reserved for grander concepts in earlier eras were applied to themes motifs and subjects that were emphatically less grand

A Companion to Twentieth-Century Poetry Neil Roberts, 2008-04-15 In the twentieth century more people spoke English and more people wrote poetry than in the whole of previous history and this Companion strives to make sense of this crowded poetical era The original contributions by leading international scholars and practising poets were written as the contributors adjusted to the idea that the possibilities of twentieth century poetry were exhausted and finite However the

volume also looks forward to the poetry and readings that the new century will bring The Companion embraces the extraordinary development of poetry over the century in twenty English speaking countries a century which began with a bipolar transatlantic connection in modernism and ended with the decentred heterogeneity of post colonialism Representation of the canonical and the marginal is therefore balanced including the full integration of women poets and feminist approaches and the in depth treatment of post colonial poets from various national traditions Discussion of context intertextualities and formal approaches illustrates the increasing self consciousness and self reflexivity of the period whilst a Readings section offers new readings of key selected texts The volume as a whole offers critical and contextual coverage of the full range of English language poetry in the last century *The Rival Modes: a comedy in five acts and in prose* James Moore SMYTHE,1727 **Shelley's Living Artistry: Letters, Poems, Plays** Madeleine Callaghan,2017-06-06 This study of the poetry and drama of Percy Bysshe Shelley reads the letters and their biographical contexts to shed light on the poetry tracing the ambiguous and shifting relationship between the poet's art and life **Reading Poetry, Writing Genre** Silvio Bär,Emily Hauser,2018-12-27 This ground breaking volume connects the situatedness of genre in English poetry with developments in classical scholarship exploring how an emphasis on the interaction between English literary criticism and Classics changes sharpens or perhaps even obstructs views on genre in English poetry Genre has classical roots both in the etymology of the word and in the history of genre criticism which begins with Aristotle In a similar vein recent developments in genre studies have suggested that literary genres are not given or fixed entities but subjective and unstable as well as historically situated and that the reception of genre by both writers and scholars feeds back into the way genre is articulated in specific literary works Classical scholarship literary criticism and genre form a triangle of key concepts for the volume approached in different ways and with different productive results by contributors from across the disciplines of Classics and English literature Covering topics from the establishment of genre in the Middle Ages to the invention of female epic and the epyllion and bringing together the works of English poets from Milton to Tennyson to Josephine Balmer the essays collected here argue that the reception and criticism of classical texts play a crucial part in generic formation in English poetry
