Mode Of Production And Social Formation:

Mode of Production and Social Formation Barry Hindess, Paul Q. Hirst, 1977-03-01 **The Articulation of Modes of Production** Harold Wolpe, 2023-08-11 First published in 1980 The Articulation of Modes of Production is primarily concerned with the concept of articulation of modes of production and with the analysis of a number of different social formations utilizing this concept The emphasis is on the relationship between capitalist and other modes of production and on accounts of specific social formations which demonstrate the analytical power of the concept but at the same time reveal a number of as yet unresolved problems The introduction to the collection takes these problems at its starting point and through a discussion of the theoretical literature provides the basis for a more rigorous and complete analysis of social formations This book will be of interest to students of economics social policy and history *Studies on Pre-Capitalist Modes of Production*, 2015-08-28 In Studies on Pre Capitalist Modes of Production British and Argentinian historians analyse the Asiatic Germanic peasant slave feudal and tributary modes of production by exploring historical processes and diverse problems of Marxist theory The emergence of feudal relations the origin of the medieval craftsman the functioning of the law of value and the conditions for historical change are some of the problems analysed The studies treat an array of pre capitalist social formations Chris Wickham works on medieval Iceland and Norway John Haldon on Byzantium Carlos Garc a Mac Gaw on the Roman Empire Andrea Zingarelli on ancient Egypt Carlos Astarita and Laura da Graca on medieval Le n and Castile and Octavio Colombo on the Castilian later Middle Ages Contributors include Chris Wickham John Haldon Carlos Astarita Carlos Garc a Mac Gaw Octavio Colombo Laura da Graca and Andrea Zingarelli Making History Alex Callinicos, 2004-01-01 Making History seeks systematically to address the problem widely discussed by social scientists and historians of the relative roles played by social structures and human agency in social change Alex Callinicos has added an introduction to this new edition updating the argument of this influential book first published in 1987 **Critical Perspectives on Agrarian Transition** B. B. Mohanty, 2016-01-29 This book evaluates the relevance of classical debates on agrarian transition and extends the horizon of contemporary debates in the Indian context linking national trends with regional experiences It identifies new dynamics in agrarian political economy and presents a comprehensive account of diverse aspects of capitalist transition both at theoretical and empirical levels The essays discuss several neglected domains in agricultural economics such as discursive dimensions of agrarian relations and limitations of stereotypical binaries between capital and non capital rural and urban sectors agriculture and industry and accumulation and subsistence With contributions from major scholars in the field this volume will be useful to scholars and researchers of agriculture economics political economy sociology rural development and development studies *Marx's Capital and Capitalism Today Routledge Library Editions: Political Science Volume 52* Tony Cutler, Barry Hindess, Athar Hussain, Paul Q. Hirst, 2013-10-17 This volume is concerned with the re evaluation and criticism of Capital itself It is in three parts each covering a specific area of Marxist

theory The first part contains an investigation into Marx's theory of value and considers the types of questions and modes of analysis to which this theory leads In the second part the nature and implications of necessary economic laws of tendency in the capitalist mode of production are covered Finally there is an analysis of the role of class structure and economic agents in Marxist theory **Anthropology and Social Change in Rural Areas** Bernardo Berdichewsky, 2011-06-01 No detailed

description available for Anthropology and Social Change in Rural Areas **Global Capitalism** Richard Peet, 2024-09-30 In Global Capitalism originally published in 1991 Richard Peet surveys the various approaches made by social theory towards seeing history in terms of its regional dynamics He reviews environmental determinism modernization dependency and world systems theories and argues that the most capacious and dynamic model continues to be historical materialism The volume presents a broad outline of global development through time analysing primitive communism lineage societies and the various kinds of tributary modes and providing a closer examination of capitalism in terms of the phases and forms of its past and present The author defends the centrality of structural Marxism to theories of global development and argues that its ideas can be furthered by the partial synthesis of other perspectives such as the feminist critique This book assumes no previous knowledge of the theories surveyed It introduces complex material in an understandable form and will be valuable both to development professionals and to anyone interested in societal change **Marxist Analyses and Social**

Anthropology Maurice Bloch, 2013-10-11 Reflecting the first evaluation among British and American anthropologists of the relevance of Marxist theory for their discipline the studies in this volume cover a wide geographical and social spectrum ranging from rural Indonesia Imperial China Highland Burma and the Abron kingdom of Gyaman A critical survey assesses the value of some key ideas of Marx and Engels to social anthropology and places in historical perspective the changing attitudes of social anthropologists to the Marxist tradition Originally published in 1975 **Routledge Revivals:**

Pre-Capitalist Modes of Production (1975) (Roys Paul Q Hirst Dec'D), Barry Hindess, 2017-11-22 First published in 1975 this book investigates the various pre capitalist modes of production briefly indicated in the works of Marx and Engels and gives an examination of the conditions of the transition from one mode of production to another The fundamental concepts used in these investigations including those of mode of production of necessary labour and surplus labour of politics and state are derived from Capital and from other works of Marxist theory The primary aim of the analysis is to raise the conceptualisation of pre capitalist modes of production and of transition to a more rigorous level This book will appear controversial to both Marxists and non Marxists alike **Materialist Feminism** Rosemary Hennessy, Chrys Ingraham, 1997

During the 1980s capitalism triumphantly secured its global reach anti communist ideologies hammered home socialism's inherent failure the New Left increasingly moved into the professional middle class and many of feminism's earlier priorities were marginalized Identity politics often formulated in terms of social reconstructionism or multiculturalism has increasingly suppressed materialist feminism's systematic perspective replacing it with discourse analysis or cultural politics Materialist

Feminism A Reader argues against the retreat to multiculturalism for keeping invisible the material links among the explosion of meaning making practices in highly industrialized social sectors the exploitation of women s labor and the appropriation of women s bodies that continues to undergird the scramble for profits and state power in multinational capitalism *Transition and Development in India* Anjan Chakrabarti,Stephen Cullenberg,2013-12-16 According to Nehru the transition from a backward agricultural society to a modern industrialized society was the only road for India to progress So for the past few decades India has focused its transitional development around movement away from a state controlled economy toward that of a free market economy *Transition and Development in India* challenges the current basis of this theory of development laying the groundwork for an entirely new Marxist approach to transition that should apply not just to India but to all developing nations *Beyond Political Independence* Klaas Woldring,Chibwe Chibaye,2019-10-08 No detailed description available for *Beyond Political Independence* **Feudalism and Non-European Societies** T. J. Byres,Harbans Mukhia,1985 With admirable clarity Mrs Peters sums up what determines competence in spelling and the traditional and new approaches to its teaching *Times Literary Supplement* *Marx, Women, and Capitalist Social Reproduction* Martha E. Giménez,2018-10-08 In *Marx Women and Capitalist Social Reproduction* Martha E Gimenez offers a distinctive perspective on social reproduction which posits that the relations of production determine the relations of social reproduction and links the effects of class exploitation and location to forms of oppression predominantly theorised in terms of identity Grounding her analysis on Marx s theory and methodology Gimenez examines the relationship between class reproduction and the oppression of women in different contexts such as the reproduction of labour power domestic labour feminisation of poverty and reproductive technologies Because most women and men whether members of dominant or oppressed groups are working class she argues that the future of feminist politics is inextricably tied to class politics and the fate of capitalism **People's Law and state law** Antony Allott,Gordon R. Woodman,2011-05-02 No detailed description available for *People s Law and state law* **On The Reproduction Of Capitalism** Louis Althusser,2014-03-11 Louis Althusser s renowned short text *Ideology and Ideological State Apparatuses* radically transformed the concept of the subject the understanding of the state and even the very frameworks of cultural political and literary theory The text has influenced thinkers such as Judith Butler Ernesto Laclau and Slavoj i ek The piece is in fact an extract from a much longer book *On the Reproduction of Capitalism* until now unavailable in English Its publication makes possible a reappraisal of seminal Althusserian texts already available in English their place in Althusser s oeuvre and the relevance of his ideas for contemporary theory *On the Reproduction of Capitalism* develops Althusser s conception of historical materialism outlining the conditions of reproduction in capitalist society and the revolutionary struggle for its overthrow Written in the afterglow of May 1968 the text addresses a question that continues to haunt us today in a society that proclaims its attachment to the ideals of liberty and equality why do we witness the ever renewed reproduction of relations of domination Both a

conceptually innovative text and a key theoretical tool for activists On the Reproduction of Capitalism is an essential addition to the corpus of the twentieth century Left *Radicalism In The Contemporary Age, Volume 1* Seweryn Bialer, Sophia Sluzar, 2019-08-16 This volume Sources of Contemporary Radicalism begins with Seweryn Bialer's examination of the definitional aspects of radicalism as well as with the identification of specific contemporary sources of the radical impulse and the social groups that are the carriers of radicalism within society In the next two chapters Seymour Lipset and Stanley Rothman consider the case of the United States Lipset asks anew the question posed by Werner Sombart at the beginning of this century Why is there no socialism in the United States From the perspective of a century of literature addressed to this question he provides his own critique and explanation Rothman considers the relatively new phenomenon of student radicalism in the United States and on the basis of interviews with student activists and results of tests they agreed to take he offers hypotheses concerning their psychological motivation Sidney Tarrow's chapter presents a comparison and contrast of the societal sources contributing to the growth of radical movements in post World War II France and Italy Henry Landsberger in his chapter concentrates on one societal group the peasantry Landsberger addresses the methodological issue that arises in defining peasant discontent as radicalism and examines what it is that provides a new dimension to peasant discontent in modern times In the final chapter William Overholt presents a valuable interpretative survey of the literature on radicalism Modes of Production and Archaeology Robert M. Rosenswig, Jerimy J. Cunningham, 2017-05-15 This volume challenges the historical materialistic non capitalist modes that are used by archaeologists as not all that useful and instead considers how social labor is organized to transform nature into culturally refined and useful resources and how this can either maintain or change a culture Rather than describe what a society is using the theoretical framework of Marx and materialism a mode of production approach explores what a society does in a more dynamic sense *Service Workers in the Era of Monopoly Capital* Fabian van Onzen, 2021-10-11 In Service Workers in the Era of Monopoly Capital Fabian van Onzen uses Marxist theory to analyse the process by which service and retail workers are exploited by the capitalist class His analysis takes us through the primary concepts of Marxism surplus value commodity form etc and demonstrates their relevance for understanding the service industry The book reveals that service and retail workers shop employees cleaners hospitality workers are integral to the capitalist system and have significant power to transform society if organised properly Van Onzen argues that the key to ending the exploitation of service workers is through the socialist transformation of society The book contains an examination of what service work will be like under socialism and provides examples of how former socialist countries changed the nature of service labour Service Workers in the Era of Monopoly Capital is an important addition to Marxist theory which is still somewhat lacking in detailed accounts of the service and retail industry
