Modern Pharmaceutical Analysis Satinder Ahuja, Stephen Scypinski, 2010-11-11 Handbook of Modern Pharmaceutical Analysis Second Edition synthesizes the complex research and recent changes in the field while covering the techniques and technology required for today's laboratories. The work integrates strategy, case studies, methodologies, and implications of new regulatory structures, providing complete coverage of quality assurance from the point of discovery to the point of use. Treats pharmaceutical analysis (PA) as an integral partner to the drug development process rather than as a service to it. Covers method development, validation, selection, testing, modeling, and simulation studies combined with advanced exploration of assays, impurity testing, biomolecules, and chiral separations. Features detailed coverage of QA, ethics, and regulatory guidance, quality by design, good manufacturing practice, as well as high-tech methodologies and technologies from lab on a chip to LC-MS, LC-NMR, and LC-NMR-MS.

Venkata Reddy, 2023-11-18 This two-volume book originates from Techno-Societal 2022, the 4th International Conference on Advanced Technologies for Societal Applications held in Maharashtra, India. The conference brought together faculty members from various engineering colleges and eminent researchers from reputed organizations to solve Indian regional relevant problems. The focus of Volume I is on technologies that help develop and improve society with a particular emphasis on issues such as advanced and sustainable technologies for water, energy, transportation, housing, and sanitation. Additionally, the book covers advances in pharmacy, nutraceuticals, and traditional medicines, as well as chemical and physical processes. The Volume II covers deployable environment or health care technologies, mechatronics, micro/nano-related technologies for bio and societal applications, and advanced assessment of employees and employment sectors. The conference aims to provide a platform for innovators to share their best practices or products developed to solve specific local problems, which in turn may inspire other researchers to solve problems in their own regions. Expert

researchers also propose technologies that may find applications in different regions providing a multidisciplinary platform for researchers from a broad range of disciplines of science engineering and technology to report innovations at different levels **The Pharmaceutical Era** ,1919 *Scientific and Technical Books and Serials in Print* ,1984
