Humanism Nicolas Walter,2010-10-05 What is a humanist After an introduction to the earliest ideas of and terms for humanism in the ancient world noted humanist Nicolas Walter explores the history of humanism and its evolving definitions from the time of the original appearance and first meanings of humanist in the Italian Renaissance concluding with a manifesto of modern humanism Drawing on personal experience and information from more than 400 sources this is the first full length treatment of the subject *Overcoming Matthew Arnold* James Walter Caufield,2016-05-13 Opening the way for a reexamination of Matthew Arnold s unique contributions to ethical criticism James Walter Caufield emphasizes the central role of philosophical pessimism in Arnold s master tropes of culture and conduct Caufield uses Arnold s ethics as a lens through which to view key literary and cultural movements of the past 150 years demonstrating that Arnoldian conduct is grounded in a Victorian ethic of renouncement a form of altruism that wholly informs both Arnold s poetry and prose and sets him apart from the many nineteenth century public moralists Arnold s thought is situated within a cultural and philosophical context that shows the continuing relevance of renouncement to much contemporary ethical reflection from the political kenosis of Giorgio Agamben and the pensiero debole of Gianni Vattimo to the ethical criticism of Wayne C Booth and Martha Nussbaum In refocusing attention on Arnold s place within the broad history of critical and social thought Caufield returns the poet and critic to his proper place as a founding father of modern cultural criticism *J.M. Robertson* Odin Dekkers,2018-10-26 Published in 1998 J M Robertson *Rationalist and Literary Critic* is a study of the life of one of the most erudite and prolific critics of the late nineteenth and early twentieth centuries The Scotsman John MacKinnon Robertson 1856 1933 rationalist and enemy of religion to the core published over one hundred books and thousands of articles in fields as diverse as sociology economics history anthropology biblical criticism and literary criticism This once widely known and feared author was all too quickly forgotten after his death and his work is now seldom read The aim of this book is to demonstrate that Robertson s writings and in particular his acute and powerful literary criticism much respected by T S Eliot have not lost their relevance for late twentieth century readers Moreover through the examinations of Robertson s work in its contextual framework this study provides a wide ranging perspective on the late Victorian literary scene which perhaps present day literary historians have not given the detailed attention it deserves **Victorian Keats and Romantic Carlyle** ,2022-02-22 Both John Keats and Thomas Carlyle were born in 1795 but one rarely thinks of them together When one does curious speculations result It is difficult to think of Carlyle as a young Romantic or of Keats as a Victorian Sage but had Carlyle died prematurely and had Keats lived to a ripe old age we might now be considering a Romantic Carlyle and a

Victorian Keats Such a juxtaposition leads one to consider the use and abuse the fusions and confusions of period terms in literary history and in criticism Does Carlyle represent Romanticism as typically as Keats Does Keats's work give us any cause to believe that he might have developed into a Victorian poet Do the terms Romanticism and Victorian have any useful literary historical and literary critical value What are the marks of the transition from one to the other Or is the existence of such a transition an illusion In this volume some essays consider aspects of Keats or of Carlyle independently or together or focus on contemporaries of one or other or of both and explore the effect of their literary and ideological relationships and the often indefinable sense that we all have of different styles manners and periods as well as the awareness that we might all be equally deceived about such distinctive boundaries and definitions *The Standard*, 1928 **Reconsidering the Postmodern** Thomas Vaessens, Yra Dijk, 2025-10-01 From Michel Houellebecq to Zadie Smith from Javier Marías to Arnon Grunberg this timely study takes its reader on a tour of European literature and the critical discussion around it Despite recent declarations of postmodernism's demise contemporary literature turns out to be entangled in a discussion with postmodernism It is time to critically evaluate this legacy Twelve specialists in the national literatures sketch the outlines of the debate Turning to literature itself they find it to be searching for new values after the relativizing force of postmodernism

Reconsideration of Science and Technology III Liu Dachun, Yang Huili, Fan Shanshan, 2022-09-30 Drawing on debates from traditional and postmodern thoughts on science and technology the title builds a new theoretical framework to reconsider science and technology integrating the opposing viewpoints that either justify science or negate it As the third volume of a three volume set that proposes to reconsider science and technology and explores how the philosophy of science and technology responds to an ever changing world this final volume seeks to restore the cultural implications of science Across the six chapters the authors probe the prospect of a pluralistic scientific culture including discussions of diversified value choices the tension between reason and unreason other binary characteristics of scientific knowledge including objectivity and uniqueness universality and locality as well as the loss awakening and reconstruction of scientific culture The authors call for a transformation of scientific culture from a dominant culture to an affirmative one and envision a free and open world of science and technology The volume will appeal to scholars and students interested in the philosophy of science and technology the ideology of scientism and anti scientism modernism and postmodernism Marxist philosophy and topics related to scientific culture *The Monthly Criterion*, 1927 **The Eighteen-Eighties** Walter De la Mare, 2013-01-03 This 1930 book is comprised of papers concerning themselves with various aspects of life and literature during the 1870s *The Victorian Age in Prose*, 2023-12-14 *Bulletin of the British Library of Political and Economic Science* British Library of Political and Economic Science, 1926 *Bulletin of the New York Public Library* New York Public Library, 1928 Includes its Report 1896 19 *An Annotated Guide to the Writings and Papers of Leonard Woolf* Janet M.
