Perry, 2016-06-27 In this book Simon Perry has brought together a discussion of politics philosophy religion and science by using the Declaration of Independence as a backdrop He questions whether Jefferson was motivated by God Is there a role for religion in our government Is God real or a fantasy Is the Good Book really good Why has man turned to God to achieve eternal life Does the mythicism of creation prevail over evolution Is man indoctrinated at an early age to accept God unconditionally These are but a few of the questions that he deals with As you read you will discover others He spent five years researching this book and it relies heavily on the great scholars of religion science and politics This book lays bare our cognitive distortions of who we are and where we came from

Dreaming with God Sarah Beth Marr, 2018-02-06 The world tells us that the way to make all our dreams come true is to set our own course and strive every day But when it s all on us we end up feeling exhausted frustrated and disappointed when things don t turn out as we d hoped Have you ever wondered if there was a better way There is God knows the desires of our hearts he put them there And he calls us to trust to lean on him and sometimes to wait Weaving together her unique perspective as a professional ballerina with profound truths drawn from Scripture and the life of faith Sarah Beth Marr reminds us that we are not dreaming alone If God has given us a dream we can be sure that he will come alongside us as we work toward realizing it Using her own story as a catalyst Marr encourages women to surrender their plans to God to stay in tempo with his Spirit and to step into a deeper relationship with Christ When they do she says they will be able to move confidently into the future knowing that their dreams and God s desires are aligned in perfect harmony *God's Will* J. How God Works David DeSteno, 2022-09-06 Drawing on a wealth of new evidence pioneering research psychologist David DeSteno shows why religious practices and rituals are so beneficial to those who follow them and to anyone regardless of their faith or lack thereof Scientists are beginning to discover what believers have known for a long time the rewards that a religious life can provide For millennia people have turned to priests rabbis imams shamans and others to help them deal with issues of grief and loss birth and death morality and meaning In this absorbing work DeSteno reveals how numerous religious practices from around the world improve emotional and physical well being With empathy and rigor DeSteno chronicles religious rites and traditions from cradle to grave He explains how the Japanese rituals surrounding childbirth help strengthen parental bonds with children He describes how the Apache Sunrise Ceremony makes teenage girls better able to face the rigors of womanhood He shows how Buddhist meditation reduces hostility and increases compassion He demonstrates how the Jewish practice of sitting shiva comforts the bereaved And much more DeSteno details how belief itself enhances physical and mental health But you don't need to be religious to benefit from the trove of wisdom that religion has

to offer Many items in religion s toolbox can help the body and mind whether or not one believes How God Works offers advice on how to incorporate many of these practices to help all of us live more meaningful successful and satisfying lives

The Inspiration of God Dr. Allen K. Hand Sr.,2022-05-04 Firstly the objective of that research was to assess the actions of the Civil Rights and the Progressive National Baptist Convention Inc PNBC movements Based on 37 returns to a questionnaire of 39 reduced to 24 identified key criteria e mailed to 158 persons across the country with forwarding permission 92% of the respondents indicated that they either agreed or strongly agreed that the actions of the Civil Rights and PNBC movements were inspired of by God Additionally this research identified some serious concerns and issues that each movement mainly PNBC has to address if each will continue to exist survive Secondly the objective of that research was to document our history through our struggles through our pains and gains through our good times and bad times through the ups and the downs in other words good bad or indifferent it is what it is our story his story not their story Rev Dr Herbert D Daughtry Sr constantly admonished us to make history to interpret history and to record history or something to that effect and not necessarily in that order When we do not do it ourselves in an accurate precise truthful etc manner then others will tell their story which nine out of ten times usually is not accurate precise truthful etc The old prophet acclaimed And the LORD answered me and said Write the vision and make it plain upon tables that he may run that readeth it Habakkuk 2 2 Thirdly and lastly the objective of that research was to share information that we do not want to be locked in our minds only to take it to the so called grave Many persons who were super knowledgeable as I define it about so many things that could have blessed the world took that super valuable information to the grave what a tremendous lost As an aside the lost is on multiple levels Level one we lost them Level two we lost what they did not share with us while they were alive Level three we lost the value of that buried information That is someone could have taken that information and transformed it to new information For example Dr Gabriel A Oyibo solved the Unified Field Theorem that Albert Einstein did not live long enough to solve So many things evolved from solving that equation Just think what would have happened to those many things that evolved from solving that equation if Dr Oyibo would not have solved that theorem All those many things that evolved from solving that equation would not be in existence Level four those persons who took from those many things that evolved from solving that equation and incorporated that value into what they

were doing Etc etc etc The number of these levels conceivably and theoretically approaches infinity That is there is no end to the theoretical lost when just one person does not bless the world with their knowledge wisdom and understanding

Hearing God in Conversation Sam Williamson,2016-06-27 I picked it up out of curiosity and I couldn t put it down Eugene Peterson Christians are comfortable saying that Christianity is about a relationship with God Yet many might also say that they sense little meaningful relationship with God in their own lives After all the foundation of good relationship is communication but conversation with God often seems to go only one way We may sing of walking and talking with God in the garden His voice falling on our ears but few have heard that beloved voice themselves Sam Williamson acknowledges the fundamental human longing to hear God s voice and offers a hopeful supposition God is always speaking we ve just never been taught how to recognize His voice Williamson handles this potentially heady topic with his characteristic straightforwardness and leavening humor This book deftly bridges the gap between solid biblical theology and practical application addressing topics such as how to truly pray without ceasing how to brainstorm with God how to navigate our emotions how to answer God s questions and how to hear God s voice for others Hearing God in Conversation offers simple step by step lessons on how to hear God Williamson begins with Scripture meditation He then expands the practice of listening for that voice everywhere in the checkout line on the job in a movie theater and even in silence From there he demonstrates how to hear God s guidance when making any decision By the end readers eyes and ears will be opened to the limitless methods through which God speaks
