John A. Van de Walle

Number Games And Story Problems Investigations In Number:

Number Games and Story Problems Marlene Kliman, Susan Jo Russell, 1997-05 **Number Games and Story Problems** Marlene Kliman, 2006 **Investigations in Number, Data, and Space**, 2008 Part of a K 5 mathematics curriculum with curriculum units for classroom use and resources for teachers the Investigations curriculum was developed at TERC formerly Technical Education Research Centers Investigations in Number, Data, and Space Karen Economopoulos, 2003-01-15 Part of a K 5 mathematics curriculum with curriculum units for classroom use and resources for teachers the Investigations curriculum was developed at TERC formerly Technical Education Research Centers **Making Schools Work for Every Child**, 2000 **ENC Focus**, 2000 *Building Number Sense* Marlene Kliman, Susan Jo Russell, 1998 **Teaching Number Sense, Grade 1** Chris Confer, 2005 The teaching number sense series focuses on the critical role that number sense plays in students developing mathematical understanding Number sense encompasses a wide range of abilities including being able to make reasonable estimates and to think and reason flexibly Enriching Your Math Curriculum Lainie Schuster, 2010 Presents practices and routines designed to support and nourish teachers as they prepare and present a meaningful year of mathematics instruction for fifth grade mathematicians Offers activities lessons and narration that can be easily adapted or adjusted to fit the particular needs of the students or the requirements of a prescribed curriculum **Math for All Participant Book (K-2)** Babette Moeller, Barbara Dubitsky, Marvin Cohen, Karen Marschke-Tobier, Hal Melnick, Linda Metnetsky, 2013-01-09 Develop new skills and strategies for inclusive mathematics teaching The highly acclaimed Math for All workshop program helps general and special education teachers collaborate to reach all students with standards based mathematics lessons This participant book is the companion to the Math for All K 2 facilitator s guide and includes all the reproducibles plus classroom assignments that extend learning between workshop sessions Participants will find A user friendly overview of the eight neuro developmental functions that shape mathematics learning Hands on activities and tools that help teachers accurately identify students strengths and challenges then adapt instructional strategies accordingly Techniques for reaching ELLs and students with disabilities Elementary and Middle School Mathematics John A. Van de Walle, 2007 This leading K 8 math methods book has the most coverage of the NCTM standards the strongest coverage of middle school mathematics and the highest student approval of any math methods book currently available Elementary and Middle School Mathematics provides an unparalleled depth of ideas and discussion to help readers develop a real understanding of the mathematics they teach John Van de Walle one of the foremost experts on how children learn mathematics finds that 80 percent of the students who purchase this book keep it for reference when they begin their professional teaching careers This book reflects the NCTM Principles and Standards and the benefits of constructivist or student centered mathematics instruction Improvements for the sixth edition include sections on planning for a diverse classroom and a completely new section addressing planning in a classroom where there are English language

learners **Resources in Education** ,1998 Fostering Children's Mathematical Power Arthur J. Baroody,Ronald T. Coslick,1998-09-01 Teachers have the responsibility of helping all of their students construct the disposition and knowledge needed to live successfully in a complex and rapidly changing world To meet the challenges of the 21st century students will especially need mathematical power a positive disposition toward mathematics curiosity and self confidence facility with the processes of mathematical inquiry problem solving reasoning and communicating and well connected mathematical knowledge an understanding of mathematical concepts procedures and formulas This guide seeks to help teachers achieve the capability to foster children s mathematical power the ability to excite them about mathematics help them see that it makes sense and enable them to harness its might for solving everyday and extraordinary problems The investigative approach attempts to foster mathematical power by making mathematics instruction process based understandable or relevant to the everyday life of students Past efforts to reform mathematics instruction have focused on only one or two of these aims whereas the investigative approach accomplishes all three By teaching content in a purposeful context an inquiry based fashion and a meaningful manner this approach promotes children s mathematical learning in an interesting thought provoking and comprehensible way This teaching guide is designed to help teachers appreciate the need for the investigative approach and to provide practical advice on how to make this approach happen in the classroom It not only dispenses information but also serves as a catalyst for exploring conjecturing about discussing and contemplating the teaching and learning of mathematics ENC Focus a Magazine for Classroom Innovators ,2000 Comic-strip Math Dan Greenberg,2000 Comics Math Fun This zany collection of cartoons and companion word problems helps students learn fundamental math concepts like addition subtraction multiplications division fractions decimals and more One color illustrations **Math Exchanges** Kassia Omohundro Wedekind,2011 Traditionally small group math instruction has been used as a format for reaching children who struggle to understand Math coach Kassia Omohundro Wedekind uses small group instruction as the centerpiece of her math workshop approach engaging all students in rigorous math exchanges The key characteristics of these mathematical conversations are that they are 1 short focused sessions that bring all mathematical minds together 2 responsive to the needs of the specific group of mathematicians and 3 designed for meaningful guided reflection As in reading and writing workshop students in math workshop become self directed and independent while participating in a classroom community of learners Through the math exchanges students focus on number sense and the big ideas of mathematics Teachers guide the conversations with small groups of students mediating talk and thinking as students share problem solving strategies discuss how math works and move toward more effective and efficient approaches and greater mathematical understanding Although grounded in theory and research Math Exchanges Guiding Young Mathematicians in Small Group Meetings is written for practicing teachers and answers such questions as the following How can I use a math workshop approach and follow a certain textbook or set of standards How should I form small

groups How often should I meet with small groups What should I focus on in small groups How can I tell if my groups are making progress What do small group math exchanges look like sound like and feel like *My Kids Can* Judy Storeygard, Judith Storeygard, 2009 Teaching mathematics to a range of learners has always been challenging With the widespread use of inclusion and RTI having a variety of effective teaching options for students who struggle is more important than ever In *My Kids Can* you'll get instructional strategies that allow all struggling math learners to move along the path toward grade level competency In *My Kids Can* teachers share successful ways to work with struggling students Their instruction is aligned with the NCTM standards and guided by five powerful core principles Make mathematical thinking explicit Link assessment and teaching Build understanding through talk Expect students to take responsibility for their own learning and support them as they do Work collaboratively with special education staff to plan effective instruction These teachers describe how they use whole group small group and individual instruction as well as other strategies that hold kids to high expectations while scaffolding content and processes across the math curriculum In addition an accompanying DVD presents classroom footage of their teaching and includes the language dialogue and teaching moves you'll adapt for success with your students The DVD also contains teacher interviews that answer difficult questions of practice Best of all with professional learning questions and video analyses *My Kids Can* is great for individuals teacher study groups staff development and preservice courses Help every child grow as a mathematician Trust your fellow teachers for instruction that works Read *My Kids Can* and use its proven effective strategies and its professional supports to build on your students strengths and address their learning needs **Maths All Week** June Loewenstein, 2003 This book will help you set up and run a successful and creative maths week or event in your school It contains detailed advice on planning and suggestions for the evaluation of your maths week **ENC focus**, 2000 **Bigger, Taller, Heavier, Smaller** Tracey Wright, Susan Jo Russell, Jan Mokros, 1997-05 Mathematics curriculum for classroom use with resources for teachers covering measurement
