Prasher, Mike Kerr, 2008-09-15 Like many people with epilepsy and ID John has comorbid behavior problems This association is dealt with in detail later in the book A clear and consistent approach to this is likely to offer much to John in terms of his quality of life Other psychosocial concerns will need addressing Emphasizing and explaining the impact of epilepsy and its treatment on John's cognitive well being can help reduce anxiety in caregivers and the family and help establish the importance of treatment

Informing people about the negative impact of seizures while trying to minimize the difficulties in social life imposed by people's fears of seizures can be a difficult challenge. This is most difficult when discussing seizure-related death. However, our position must be to inform patients and families so they can make their life and treatment choices with complete understanding of choices and risks. Delivering a Package of Care: Delivering continuity of health care will be a major need throughout John's lifespan. This continuity should cover seizure assessment and management yet also be responsive to changes in the care environment. A person with ID who is no longer resident in the family home is likely to undergo many changes in staffing over a lifetime. As for many people, their ability to communicate their health needs will be compromised and these changes in staff can offer considerable risks in chronic disease management.

**Clinical Nurse Specialist Role and Practice** Janet S. Fulton, Vincent W. Holly, 2021-06-09. Developed under the direction of the International Council of Nurses (ICN), this book is part of a series exploring advanced practice globally. It is the first known volume to provide an international view of the advanced practice role of clinical nurse specialist (CNS). It features an in-depth examination of advanced speciality practice in nursing and the advanced practice role of the clinical CNS. Content includes models of practice, core practice competencies, curricular recommendations, practice outcomes, and regulatory requirements related to scope of practice. The CNS role and practice as implemented in North America, Europe, Asia, and Oceania are examined in the context of the country's healthcare system, educational traditions, and regulatory requirements. Exemplars describe role implementation in various specialty practices and discuss how the role is implemented to advance nursing and improve clinical and fiscal outcomes. Measurement and evaluation of CNS practice in the context of countries and health care systems are examined. For practicing CNSs, this book provides an in-depth examination of the role from the global perspective; for administrators, it provides a foundational understanding of the CNS role and practice and performance expectations. Educators will use the book as a resource for curriculum development, whereas students will offer an expanded global view of the role. Advanced practice roles, including the CNS, are continuing to evolve. This book makes important contributions to a global understanding of the CNS role.

*Advanced Practice in Healthcare* Carol Cox, Marie Hill, Victoria Lack, 2013-06-17. *Advanced Practice in Healthcare* outlines the key components of advanced practice in which healthcare professionals are engaged. With a clear skills focus, it explores issues critical to providing effective enhanced care to patients whilst managing and negotiating the complexities of the healthcare delivery system. Perspectives on advanced practice are illuminated throughout the text and are designed to promote the formation of new thinking in relation to practice, education, and research. The text is comprised of three sections that address different aspects of advanced practice and these in turn provide guidance on the development of clinical skills, including consultation, clinical decision making, holistic care, and the role of care planning in advanced practice. Explain management skills and how to manage, negotiate, and monitor the complexities of the healthcare system in order to ensure the delivery of quality patient care. Clarify the professional role of the advanced

practice clinician and how implementation of the role can improve the delivery of patient care In each chapter activities are presented that assist in the development implementation and extension of advanced level practice This text is especially relevant to nurses midwives and allied health professionals practising within primary and secondary care who wish to advance their practice or clarify their roles within the context of advanced practice particularly those undertaking masters level study **Evaluating the Impact of Implementing Evidence-Based Practice** Debra Bick,Ian D. Graham,2013-05-30

The Evidence Based Nursing Series is co published with SigmaTheta Tau International STTI The series focuses on implementing evidence based practice in nursing and midwifery and mirrors the remit of Worldviews on Evidence Based Nursing encompassing clinical practice administration research and public policy Evaluating the Impact of Implementing Evidence Based Practice considers the importance of approaches to evaluate the implementation of evidence based practice Outcomes of evidence based practice can be wide ranging and sometimes unexpected It is therefore important to evaluate the success of any implementation in terms of clinical outcomes influence on health status service users and health policy and long term sustainability as well as economic impacts This the third and final book in the series looks at how best to identify evaluate and assess the outcomes of implementation reflecting a wide range of issues to consider and address when planning and measuring outcomes An informative practical resource for an international readership Providing critical evaluation of models and approaches to measuring outcomes Explores the importance of measuring successful implementation Examines outcomes in terms of long term sustainability Addresses economic impacts and influence on health policy Provides practice based examples Written by a team of internationally respected authors *Identifying Nursing Research Priorities in Ten ASEAN Countries* Yupin Aungsueroch,2018-07-01 This book is the report of the results of ASEAN project supported by the ASEAN Studies Center Chulalongkorn University to determine nursing research priorities in ASEAN The aim of the project is to enhance the research collaboration in nursing among ASEAN countries as one of stepping stones to lead the harmonization and cooperation in the ASEAN region in support of ASEAN integration and the ASEAN community Its strategic plan aims to support regional platforms on nursing system services and education including human resource development towards an integrated ASEAN community Determining research priorities is the first step of collaborative research in nursing particularly in response with the lack of international research collaboration in ASEAN which can drive economic development and productivity in developing countries through the discovery of scientific breakthroughs and innovations as well as raise awareness of nursing issues In turn it can lead to capacity building in developing countries
