Patient Terry Mahan Buttarro, Kate A. Barba, 2012-11-28 Nursing Care for the Hospitalized Older Patient is a comprehensive quick reference resource for registered and advanced practice nurses working with older patients in a hospital setting. Organized in user friendly format the book provides vital information on all aspects of hospital care and the full range of health issues encountered by elderly patients. The book is organized into four major sections. The first section provides an overview of the aging patient including demographics, normal aging changes and the general impact of hospitalization. The second section covers proper health assessment providing guidance on history taking and evaluating laboratory values. The third section is the largest part of the book and is made up of short similarly structured chapters dedicated to individual clinical issues ranging from burns to depression. These chapters are organized by body system to maximize ease of use. The book concludes with a section on special considerations that cross common clinical areas such as palliative care, pain management, fall prevention and discharge planning.

Gerontological Nursing Care Shirley Rose Tyson, 1999 Using a caring and wellness framework this text promotes a humanistic approach to the care of older adults of diverse cultural backgrounds in all care settings. The book examines and discusses the complete cross section of the lives and difficulties of the elderly and the nurses who care for them under topics such as spirituality, cultural diversity, sexuality, polypharmacy, falls and other safety issues, sensory alterations, immunologic concerns, Alzheimer's disease, caregiver stress, professional stress and homelessness.
