## **Nursing Midwifery And Health Visiting Since 19:**

**Unhappy mothers** Sarah Crook, 2025-07-29 In the decades following the Second World War mothers experiences of loneliness boredom and unhappiness were increasingly widely acknowledged The language of postnatal depression came to be attached to this but mothers organised around their own discontent in ways that challenged the medical model Unhappy mothers draws attention to the social political and professional contexts within which knowledge about unhappy mothering developed Drawing upon an extensive range of archival material the book addresses themes around expertise feminism and the value given to lived experience

### **Community Nursing and Primary Healthcare in Twentieth-Century Britain**

Helen M. Sweet, with Rona Dougall, 2007-12-12 This book takes a fresh look at community nursing history in Great Britain examining the essentially generalist and low profile domiciliary end of the professional nursing spectrum throughout the twentieth century It charts the most significant changes affecting the nurse's work on the district including compulsory registration for general nursing changes in organization training conditions of service and workload A strong oral history component provides a unique insight into the professional images of district nursing and the complexities of inter and intra professional relationships as well as into the changing day to day working experiences of the district nurse at grass roots level Use of oral history and records of individual nurses attempts to rectify the tendency of nursing history to view nurses as if they were a homogenous group of professionals thereby recognizing the different experiences of nurses in different regions and environments The book also considers the degree of influence of medically related technologies and of developments in drugs materials communications and transport on the professional development of district nursing The work addresses issues of gender relationships central to a nursing profession largely composed of women throughout much of the period working alongside a largely male dominated medical profession

### Nursing and Midwifery in Britain Since 1700 Anne Borsay, Billie Hunter, 2012-05-15

Nurses and midwives both qualified and in training have a lively interest in how their professions have developed A stimulating collection of research based essays this book explores and compares the distinct histories of nursing and midwifery in Britain from the beginning of the eighteenth century to the modern day

### **Orthodox and Alternative**

**Medicine** Mike Saks, 2003-01-30 There's no book like it It's Saks' subject and he's good Roy Porter This fascinating book explores the changing relationship between orthodox and alternative medicine in Britain and the United States from the sixteenth century to the present day Mike Saks sees the development of orthodox and alternative medicine as two sides of the same coin and his analysis centers on the role of professionalization in health care In the sixteenth century the line between orthodox and alternative medicine was blurred By the nineteenth and twentieth centuries the increasing professionalization of orthodox bio medicine had marginalized medical alternatives In recent years following the growth of a strong counter culture in the 1960s and 1970s perceptions of the relationship between the two forms of practice have begun to change again The de professionalization of orthodox medicine is being debated while ironically alternative medicine has

become increasingly professionalized Mike Saks considers the political dynamics of the process of professionalization and looks at the dilemmas posed for both medical orthodoxy and alternative medicine in the development of a more integrated health care system in Britain and the United States in the future     Statutory Instruments Great Britain,1988     **Nursing, COVID and the End of Resilience** Michael Traynor,2024-09-09 This book looks at the way in which resilience has been promoted as a resource for nurses during the COVID 19 pandemic and addresses its limitations as a response to the potential trauma of working in intense healthcare contexts Traynor examines the nature of trauma and moral distress in nursing work which predates the most recent pandemic that brought it into sharp relief and links this to discussions of resilience in nursing He examines differing understandings of trauma identifying and detailing approaches to dealing with it and its aftereffects In a wide ranging book that draws together critiques of the happiness industry and PPE scandals this book lays bare government and managerial reactions to the pandemic alongside individual sometimes harrowing accounts Its author sets out the impact of working during COVID 19 on the profession and its members in terms of support solidarity and fragmentation Drawing on a critical analysis of responses to the pandemic from the government regulatory bodies the NHS and the media along with primary research with nurses and others who have worked through the pandemic this book is a vital contribution for all those interested in resilience trauma well being and workforce development in nursing

**Equalising Opportunities, Minimising Oppression** Dylan Tomlinson,Winston Trew,2005-06-29 Anti Racist Practice ARP Anti Discriminatory Practice ADP and Anti Oppressive Practice AOP form a trinity of concepts nested into one another which have evolved in welfare services over the last fifteen years They tend to have developed as forms of practice panaceas and as a result have been subject to both unrealistic expectations and at times to political ridicule This book clarifies the distinctions between three key concepts ARP ADP and AOP Critically and constructively analysing these three approaches to practice it reappraises their potential in the light of emerging equality issues in the health service With contributions from leading teachers and practitioners in the field Equalising Opportunities provides students and practitioners in health and social care with a clear overview of an area where there is much confusion and imperfect understanding     *Advancing Perioperative Practice* Mark Radford,Bernie County,Melanie Oakley,2004 This is the only textbook to cover the totallity of perioperative nursing including infection control and risk management Other areas of perioperative nursing not addressed in other texts are practice development management advanced practice and the roles of key team members All three areas of the surgical experience are covered pre operative intra operative and post operative care     Community-based Maternity Care Geoffrey Marsh,Mary Renfrew,1998-10-22 This important book makes the case for placing maternity care in the community It has been written by a multidisciplinary group The first section considers the role and function of the participants in community based maternity care the woman the midwife and the GP The second section discusses four major contemporary issues the radically changing social background the economics of care audit and education of the carers Next

the major clinical challenges in maternity care are tackled how to reduce the differences in morbidity and mortality which are associated with differences in age social class and ethnicity the care of disadvantaged groups prematurity and low birth weight and their prevention technology used in childbirth and the fetal origins of adult disease Finally all aspects of the clinical care carried out by Gps and midwives are covered The editors hope that after reading this book midwives Gps and obstetricians should find the theory underpinning their work has been sharply defined and that their work will be more effective and evidence based The editors a GP and a midwife anticipate the resolution of the current tensions between midwife GP and obstetrician and look forward to a responsive effective and sensitive service for mothers and babies in the next millennium

**Is it in Force? ...** ,1997      **Health Visiting** Anne Robotham, Marion Frost, 2005-08-29 This book is an essential resource for health visiting students that reflects the key changes required of health visiting practice at the beginning of the new millennium It is a key text for specialist practitioner programmes and also for existing practitioners who are furthering their practice and academic development It brings together the elements of theory and practice which are essential to health visiting practice The book is research based and uses relevant evidence to support discussions A particular strength is the use of case studies and practice examples to illustrate the theoretical discussions Comprehensive coverage of all areas of health visiting practice will give the new practitioner confidence Case studies help to relate the theory to practice The up to date evidence base includes the latest research The wide range of contributors ensures that the content is written by experts in their field Coverage of aggression and violence the needs of ethnic minorities and complementary therapies reflects the growing role of the HV in relation to contemporary issues Fully updated throughout to reflect changes in practice including re organisation of the health care service changes in social policy child protection and nurse prescribing New chapters on Working with individuals and families Working with social groups and communities Working with socially excluded groups Quality improvement through leading and managing change and Nurse prescribing Content reorganised to reflect changes in emphasis of various issues in practice Addition of useful websites for further information
