advanced technical skills during endoscopic interventions which require close monitoring of patients to ensure safety. Infection prevention and control is vital throughout the patient journey and this also includes the decontamination processes of endoscopes and accessories. Staff involved in patient care and decontamination processes need training and knowledge to prevent patient and self contamination. In addition, advanced endoscopy nursing skills have been established for the treatment of various gastrointestinal diseases. These complex tasks require specialised knowledge and training to ensure patient safety and positive outcomes in patient care. The European Society of Gastroenterology and Endoscopy Nurses and Associates (ESGENA) has developed important documents like the European Job profile and the European Core Curriculum for Endoscopy nursing, followed by statements on staffing levels and nurse endoscopists. Since its foundation in 1996, ESGENA has been establishing a close co-operation with ESGE and has co-authored various guidelines, statements and curricula on hygiene, sedation, quality assurance and endoscopy techniques. ESGENA also developed a close co-operation with ESNO. Consequently, this textbook is published within the ESNO series.
