Nutrition Through The Life Cycle:

Nutrition Through the Life Cycle Prakash Shetty, 2007-10-31 Nutrition is viewed traditionally as the specific dietary requirements of different age groups without exploring diet in the context of a life long contributory factor to well being. *Nutrition Through the Life Cycle* summarises what is known about the relationship between diet and health at different points in the life cycle and the nutritional requirements of individuals of different ages. Nutrition policy and health promotion are discussed together with how dietary interventions can provide long term benefits to individuals and populations. Also covered are the major dietary challenges that exist in modern society including the rise in incidence of obesity in both children and adolescents, anaemia in children and adolescents and diet related cancers. This book is published in association with Leatherhead Food International. *Nutrition Through the Life Cycle* Judith E. Brown, Ellen Lechtenberg, Patricia L. Splett, Jamie Stang, Robyn Wong, Beth L.
