highlight the alterations seen in critical care and make it easy to understand the unique challenges of critical care nursing. An abundance of learning tools such as Patient Safety Alerts, Evidence Based Practice boxes, NIC interventions, case studies, Pharmacologic Management boxes, and more give you a better understanding of clinical practice and help you reference vital information quickly and easily. Consistent organization within each body system unit allows you to use this book as a one stop resource for your critical care nursing education as well as a reference for the relevant assessment techniques, lab values, and patient management principles needed by practicing nurses. Evidence Based Practice boxes reinforce practice guidelines for both collaborative and nursing care. Case studies in each chapter help you internalize and apply chapter content to clinical situations. Pharmacologic Management tables offer quick summaries of the drugs most often used in critical care. Patient Safety Alerts provide key information for special safety issues to keep safety in the forefront of your mind. Nursing Management Plans of Care appendix provides detailed clinically relevant care plans tied to 35 different NANDA nursing diagnoses. Highlighted QSEN content makes it easy to identify QSEN competencies as they relate to critical care nursing. Internet Resources box provides a list of key websites from leading organizations in critical care. Combined chapter on shock, sepsis, and multiple organ dysfunction syndrome makes understanding similar physiologic processes easier. Chapter summaries provide quick study guides by organizing key information in the chapter. New 6 second standard ECG strips help you learn to identify wave forms and accurately reflect what you'll use in practice. New equipment information and photos accurately depicts what you'll encounter in a modern critical care unit.

Critical Care Nursing, Diagnosis and Management, 7 Linda Diann Urden, Kathleen M. Stacy, Mary E. Lough, 2013-05-01 Praised for its comprehensive coverage and clear organization, *Critical Care Nursing: Diagnosis and Management* is the go-to critical care nursing text for both practicing nurses and nursing students preparing for clinicals.

Nutrition and Critical Care Luc A. Cynober, Frederick A. Moore, 2003 A complete state of the art manual on nutritional support for ICU patients, the present book written by internationally renowned specialists addresses fundamental aspects of the pathophysiological response to injury as well as practical issues of nutritional care. New features include an analysis of gene polymorphism and its possible consequences for the survival of traumatized patients. A better understanding of this process could become a basis for defining new nutritional strategies. Hence the discussion on indications for immune enhancing diets. Of special interest is the research on comorbidities like obesity which can change the prognosis of ICU patients who thus require specific nutritional support. Entirely new is the merging of the recommendations of international and national societies e.g. ASPEN, ESPEN first realized for this publication. This book is a basic tool for any professional in the field of nutritional care for ICU patients: intensivists, surgeons, pharmacists, dietitians, and PhD students.
